ATTACHMENT B

Response to question #9 on the Application for Extension of Time to Avoid Forfeiture of a Water Right:

9. The five year statutory period of non-use for establishing forfeiture tolls upon the filing of a claim in the SRBA until a Partial Decree is issued. The Partial Decree for this right was issued on March 16, 1999. *See, In Re: SRBA Case No. 39576, (Wood v. Trout) 65-05663B, Order of Partial Decree, May 13, 2002.* This water right has not been put to beneficial use since March 16, 1999.

ATTACHMENT C

Response to question #10 on the Application for Extension of Time to Avoid Forfeiture of a Water Right:

10. The United States believes that it has valid defenses to forfeiture including but not limited to Idaho Code §42-223 (6). However, as a matter of comity, the United States files this *Application for Extension of Time to Avoid Forfeiture of a Water Right* as a precautionary measure.

Until such time that the United States may be able to put the water to beneficial use, the United States requests a five year extension of time. During this period the United States will work with the IDWR to explore alternative solutions for resumption of use of this water right, including consideration of placing this water right in the Water Bank operated by the Idaho Water Resource Board.

Dear Water Right Holder:

Enclosed are copies of the approved Applications for Extension of Time to Avoid Forfeiture of a Water Right for the above referenced water rights. Please note that resumption of beneficial use of water for these rights shall occur on or before **June 1, 2009**.

Please notify the Department as soon as you resume use of the water. If you have not notified the Department sixty (60) days prior to the resumption deadline, the Department will send you a Resumption of Use Notice by certified mail.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Please contact any office of the Department for the proper form to file a change of ownership of the water right and/or a change in the address of the owner or if you have any questions concerning this matter.

RE: Applications for Extensions of Time to Avoid Forfeiture of Water Right Nos. 71-41, 42B, 43B, 49B, 50, 59, 64B, 66, 68, 2004D, 2053A, 7002, 10277, 10278, 10728, 10766, 10772, and 10871 filed by the U.S. Forest Service

Dear Director Dreher:

This firm represents the Challis Irrigation Company (CIC) on various matters. With respect to above-listed applications, CIC attempted to file protests on May 10, 2004, or seven (7) days after the protest deadline had ended. Although the Department would not accept the protests, CIC would still like to relay its concerns as you begin the process of reviewing and making a decision on the Forest Service applications.

First, CIC would like to make sure the Director is aware of the reason the Forest Service purchased the property (Busterback Ranch) in the first place. The agricultural lands on the property now owned by the Forest Service were taken out of production in order to provide additional stream flows for listed salmonids. It is CIC's understanding that these water rights were not purchased for the purpose of continuing to irrigate the property.

Next, CIC holds various water rights on the Salmon River that are junior to several of the subject Forest Service water rights. Although hydrologic conditions on the Salmon River have been such that CIC's water rights have not been curtailed, it is at least possible that under certain low flow conditions, CIC's rights could be subject to future water right administration. A resumption of the Forest Service irrigation water rights may injure CIC's rights, particularly if the Forest Service's water rights have in fact been forfeited.

Finally, CIC does not object to the Forest Service's, or other agencies' efforts to improve stream flows in the Salmon River Basin. Improved stream flows, whether for endangered species, or for the health of the watershed as a whole, is certainly a benefit to the Salmon River

Director Dreher
May 17, 2004
Page - 2

Basin. However, CIC is concerned that the Forest Service applications could result in determinations that are detrimental to its water rights. If the Forest Service is exploring alternatives to maintain the validity of its water rights, and the future use of those rights benefits stream flows in the Salmon River above CIC's diversion, it is likely that CIC's water rights will not be impaired or injured. Moreover, if the Forest Service seeks to place its rights in the State Water Bank, it is possible those rights could benefit water users in the Salmon River Basin, like CIC, when needed. Regardless, CIC would like to be notified of the Forest Service's plans or options that it explores with the Department.

Thank you for considering CIC's concerns over the above-referenced Forest Service applications. Although not a formal protestant, CIC would still appreciate receiving a copy of your final decision. Please contact me at (208) 733-0700 if you have any questions.

Sincerely,

BARKER ROSHOLT & SIMPSON LLP

Dear Travis

Our office received the "Notice of Protest and/or Petition for Intervention" you filed for the Challis Irrigation Company into the above described matters along with your check for \$450.00 on 5/10/2004

Since the protest period ended 5/3/2004 for these matters and no other timely protests into these matters have been received (no contested case to intervene into has been created), I must return your protest/intervention and your check No. 1347 for \$450.00.

If you have questions about this process, please feel free to get in touch with us

Subject: PROTEST OF CHALLIS IRRIGATION COMPANY

Allen,

Phil, Karl and I have discussed the late protest filed by Challis Irrigation Company against the Applications for Extension of Time to Avoid Forfeiture of a Water Right filed by the Forest Service in connection with the Busterback Ranch. Since the protest was filed late (looks like about 10 days late) and since there is not a contested matter to intervene into (no other protestants who timely filed), the department should return the Notice of Protest and/or Petition for Intervention to the Rosholt firm together with the check they submitted. The transmittal should be by letter advising that the protest and filing fee are being returned, since they were not timely submitted to the department as required in Section 42-222, Idaho Code. We should not receipt the check and should not issue any order rejecting the protest.

We should send a copy of our letter to the USFS, since they were served by the Rosholt firm with the Notice of Protest. lgs

CHALLIS IRRIGATION COMPANY (hereinafter referred to as "Challis"), by and through its attorneys, Barker Rosholt & Simpson LLP, files this *Notice of Protest and/or Petition for Intervention* to the approval of the above-numbered applications for extension of time to avoid forfeiture filed by the United States Forest Service ("Forest Service"). Challis files this *Notice* pursuant to Rules 250, 350, 351, and 352 of the Rules of Procedure of the Idaho Department of Water Resources ("IDWR").

BASIS FOR PROTEST

1. Challis is a non-profit irrigation company incorporated and organized pursuant to Idaho state law. Challis holds the following water rights to the Salmon River for irrigation

purposes: 72-34, 72-35, 72-2076A, 72-2076B, 72-7051, 72-7269, 72-10324, 72-10325, and 72-11740.

2. Challis diverts water from the Salmon River downstream of the location of the points of diversion and places of use for the above-referenced Forest Service irrigation water rights. A number of the Forest Service water rights are senior in priority to Challis' water rights.

3. The Forest Service has admittedly not put the above-referenced water rights to beneficial use for over five years now. Accordingly, the Forest Service may have forfeited the above-referenced irrigation water rights. I.C. § 42-222(2).

4. The Forest Service has failed to make a proper showing of "good and sufficient reason" for not putting its irrigation water rights to beneficial use for the past five years as required by I.C. § 42-222(3).

5. Resumption of use of the above-referenced Forest Service irrigation water rights would injure and impair the water rights held by Challis.

6. For such other and further reasons that may arise during the proceedings and hearing on this matter.

7. Challis requests IDWR to deny the Forest Service's above-referenced applications.

IDWR'S INTERVENTION REQUIREMENTS

1. Challis has a direct and substantial interest in this matter. The Director's determinations stand to affect Challis' water rights.

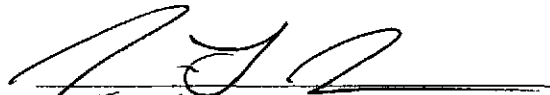

2. Challis' participation as a party to this proceeding will not unduly broaden the issues before IDWR.

3. Challis' interests are not represented by any other party to this proceeding.

4. Challis' petition to intervene is timely.

Re: (19) Applications for Extension of Time To Avoid Forfeiture - Basin 71 (Blaine and Custer Counties)

Dear Applicants:

The Department of Water Resources acknowledges receipt of your Applications for Extension of Time to Avoid Forfeiture as referenced above.

This office has scheduled advertising the applications in the Challis Messenger for 4/15 & 4/22/04; in the Wood River Journal on 4/14 & 4/21/04; and also in the Idaho Statesman, Lewiston Morning Tribune, Post Register, and Times News on 4/15 & 4/22/04.

The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests. (May 3, 2004)

If an application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Mary A. Baldwin
Administrative Assistant I
