Dear Mr. Stewart:

I have re-typed your Application for Permit in the interest of clarity. Also, the amount of water has been adjusted to reflect the standard rate of diversion for two families with no irrigation of lawn or garden. We have accepted your check for this application and the Claim to a water right. A receipt is attached. Please sign the re-typed application and return it to this office for further processing.

If you have any further questions, please feel free to contact this office.

Dear Sirs:

I am returning your application for a well permit. The amount of water you filed on is more than can normally be beneficially used. The standard amount for single family domestic use is .04 cfs, which includes $\frac{1}{2}$ acre of irrigation for lawn or garden. If there is no irrigation, the proper amount is .02 cfs (9 gallons per minute). Please adjust items 4 & 5 to reflect these limitations. These changes will not affect the cost of your application.

In item 9, you state that James Clark is a part-owner of the property. He should also sign the application, and should be listed as a co-applicant in item 1.

With regard to your claim to Goat Creek, the claim is acceptable as filed. The et ux in the name-of-claimant section is meaningless to this Dept., however; if you want other people listed as claimants, they should be listed by name. By listing all claimants with "and/or" between the names, only one of the claimants would be required to sign the claim. While not required, it would be to your advantage to include affidavits, deeds, or other documents which would support the claim.

Since your check covers both the well application and the claim, I am returning both the check and these two documents. Please make the required corrections and return them to our office at your convenience.

If you have any questions, please feel free to contact this office.

Sincerely,
