Re: Permit No. 71-7000

Dear Mr. Fleenor:

In your letter of February 5 regarding a field examination of the water system, you state if a measuring device is not installed at the time of field examination my permit will automatically lapse. Perhaps the submitted proof of beneficial use did not clearly detail that this water system is a spring that was dug in a boggy place where there was no live running water. After the spring was dug out, two cement rings were used to form a holding reservoir with a capacity of some 200 gallons. Plastic pipe was run to a cabin and a trailer house and the corrals for livestock and domestic use of the water. The flow of the spring is less than 10 gallons a minute.

I would very much appreciate your consideration in waiving the necessity of a measuring device on this permit. Should a measuring device be required on this system, I would appreciate your advising me as to what could be used.

Yours very truly,

Gentlemen:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

Please be advised that if the required measuring device is not installed at the time of the field exam, your permit will automatically lapse and be of no further force or effect. We have enclosed a letter describing different types of measuring devices accepted by this Department.

If you have any questions regarding the field exam, please contact our Southern District Office at 1041 Blue Lakes Blvd. North, Twin Falls, Idaho.

Dear Mr. Humphreys:

One of the conditions of approval of your water Permit No. 71-7000 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

The Department of Reclamation has processed your application for permit. However, final action will be delayed until we receive additional information. As your application for permit is for the waters of a spring, and whereas the spring is not located on your property, you are required under the Idaho Code to supply an Affidavit of Permission to file on the spring. This affidavit must be obtained from the owners of the property on which the spring is located. As soon as the affidavit is received, we will issue the permit in question.

Please contact us if we may be of further assistance.
