Re: Gray Reynolds exception to the Notice of Claim to a water Right,
No. 71-4006.

Dear Mr. Merritt:

I wish to file a correction to Gray Reynolds exception to the Notice of Claim to a Water Right, No. 71-4006 for 1.9 cfs of the flow of Champion Creek.

The 1.9 cfs is not an increase over my existing use as I have been using this amount of water since 1962. I believe in preserving and protecting the fishery values but 1.9 cfs of water would dry up in Champion Creek before it reached the Salmon River.

The 1.9 cfs of water is diverted from Champion Creek in what is known as the Young Ditch, it is downstream from my ditch. It crosses a short distance of National Forest Land, goes through the Forest pasture on across Nelson's land and into my field. The ditch has broken in Nelson's field not from carrying too much water but because rodents have made holes and the water starts making it larger till there is a wash.

I agree with Mr. Reynolds that additional water in my own ditch would increase the possibility that the water will break out. I watch my ditch closely and make sure even in high water that only enough water comes into my ditch to reach the nail, on my measuring box, which was put there by a Water Resources man for Jim Decker, the ranch's former owner. One past break was caused by beaver's building a dam, the other's were caused from gopher's making holes, then the water making the holes larger till there was a wash. Several times I have gotten to the ditch just in time to save a wash caused by people making bridges out of small tree branches, letting part of them drop down into the ditch where they catch trash backing up the water and it starts washing away the bank. I do not like breaks either because they are costly in ditch repairs for me as well as being costly because of a lack of water on my land.

Sincerely,

Ray Laverty

Dear Mr. Laverty:

We are enclosing a copy of an affidavit in opposition to your Claim to a Water Right, submitted by Gray F. Reynolds. The following is a quote from the provisions under which this claim has been filed (Section 42-225b of the Idaho Code):

42-225b. Recording of claims by Department --- Corrections ---

At any time after filing a claim under the provisions of this section, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Resources and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources. Such claims may be corrected by the claimant only by filing of an amended claim in the same form as the original which shall be recorded and numbered by the Department the same as the original and for which no additional filing fee shall be required.

Only the above action has been contemplated by the Idaho Legislature and we are not authorized to hold hearing or evaluate for confirmation or final censorship of the described rights.

Dear Mr. Reynolds:

We are in receipt of your Exception to a Claim to a Water Right filed by Ray Laverty. The following excerpt from Section 42-225b of the Idaho Code explains what has been done and what will be done in regards to the exception you have filed.

Section 42-225b. RECORDING OF CLAIMS BY DEPARTMENT --- CORRECTIONS ---

At any time after the filing of a claim under the previous section, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Resources and shall be considered the same as other evidence in said file. Dear Mr. Allred:

We wish to file an exception to the Notice of Claim to a Water Right, No. 71-4006 published in the Challis Messenger on 6/2/77 for 1.9 cfs of the flow of Champion Creek as filed by Ray Laverty. We only wish to file this exception if the 1.9 cfs is an increase over Laverty's existing use.

We are required by Federal Law (PL 92-400) to preserve and protect the fishery values in the Sawtooth National Recreation Area. Diversion of additional water by Laverty would be damaging to fishery values in Champion Creek.

Mr. Laverty diverts water from Champion Creek across National Forest lands. The ditch used for this purpose has broken several times in the past. Addition of more water in this ditch will increase the possibility that the water will break out. Past breaks have seriously eroded the slopes below the ditch. This condition is not compatible with good resource management. We do not wish to have additional water diverted into this ditch.

We recommend that any remaining water in Champion Creek should remain to benefit fishery values.

Sincerely,

GRAY F. REYNOLDS
Superintendent
