Re: Dan M. Woolley

Dear Mr. Archibald:

Thanks for the source of water supply. The records have been searched for diversions below a point indicated on the quadrangle sheets as probable upper limits. There may be longer ditches, however the records do not indicate any higher diversions.

License No. 17035 - 2.3 c.f.s. - priority Dec. 26, 1928, to Edward H. Fisher, from Salmon River, in NW¹/₄SW¹/₄, Sec. 15, T. 10 N., R. 13 E., to irrigate T. 11 N., R. 13 E., Sec. 34, 5 ac. SW¹/₄SE¹/₄; Sec. 35, 30 ac. SW¹/₄SW¹/₄, 20 ac. NW¹/₄SW¹/₄, 20 ac. NW¹/₄SE¹/₄, 5 ac. SE¹/₄NW¹/₄, 10 ac. SE¹/₄SW¹/₄, T. 10 N., R. 13 E. Sec. 3, 25 ac. NE¹/₄NE¹/₄.

License No. 19446 5.3 c.f.s., priority October 19, 1943, to Charles M. Fiedler from Salmon River in NE¹/₄SW¹/₄, Sec. 22, and SW¹/₄SW¹/₄, Sec. 15, T. 10 N., R. 13 E., to irrigate T. 10 N., R. 13 E., Sec. 3 20 ac. Lot 11, 20 ac. SW¹/₄SE¹/₄, plus land in Sections 10 and 15, total 265 acres.

License No. 11993 3.2 c.f.s., priority February 29, 1916, to Ellis Papworth, Certificate of Completion of Works from East Fork Salmon River in NE¹/₄NE¹/₄, Sec. 2, T. 10 N., R. 18 E., to irrigate T. 11 N., R. 18 E., Sec. 26, SW¹/₄SW¹/₄; Sec. 35 NW¹/₄NW¹/₄, SE¹/₄NW¹/₄. Proof of beneficial use of water due March 18, 1920, never made.

The East Fork was adjudicated July 26, 1933, in case Gossi vs. Gossi by Judge Guy Stevens, however all rights mentioned were for lands higher up the stream.

Very truly yours,

RALPH W. THOMAS, Deputy

Re: Permit No. 17035

MR. EDWARD H. FISHER
West 1713 Ninth Avenue
Spokane, Washington

Dear Sir:

Reference is had to the proof of completion of works and application of water to beneficial use recently offered upon your permit No. 17035, appropriating ten cubic feet per second of the waters of Salmon river, Custer county, Idaho.

The report of our field examiner is received and the following comments or suggestions relating to this permit are made.

In the first place, it appears that the irrigation canal which conveys water to the land in question was not located at all in conformity to the map filed with the application for permit. Apparently, the original plan was to take the ditch out considerably higher up and cover something over a section of land, which is all rather steep hillside and entirely above the present ditch. Thus, it will be necessary, in issuing license, to materially reduce the acreage from that applied for.

The total irrigated acreage, as found by the examiner, is 115 acres and of this 115 acres, 25 acres are upon lands not described in the original permit. These subdivisions are as follows:

NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 35, T. 11 N. R. 13 E. - 20 acres irrigated,

SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 35, T. 11 N. R. 13 E. - 5 acres irrigated.

If you desire to have these two subdivisions included in the license which is to be issued, it will be necessary to amend the permit in that respect. Form prepared for that purpose is enclosed for your signature.

17035-

MR. EDWARD H. FISHER, #2,

September 18, 1929.

Upon receipt of this amendment and fee of \$14.00, which is at the rate of \$2.00 for each forty acre legal subdivision affected, license can issue.

+ 25 - 4 - 17 = 19

The field examination also discloses that the actual point of diversion and headgate of the canal is not upon the legal subdivision described in the permit, but is located upon the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 15, T. 10 N., R. 13 E., S. M. In order that the license may conform to actual conditions, the location of the point of diversion should be amended as prepared in the enclosed form for that purpose. Kindly execute the affidavit and return to this office, together with the executed application for amendment to permit.

I am informed by the field examiner that a controversy exists at the present time relative to ownership and use of your ditch and water. This is a matter over which this department has no authority. If the respective rights in the ditch were adjudicated the decree would definitely define and set out the owners of the ditch and water rights for your lands as well as any other land which may be receiving water from this ditch. The state, however, would not have authority to place a watermaster on the ditch, but could only designate an officer to divert water from the stream to the canal if the rights were decreed. It is my understanding that there is a surplus of water at this point, so, very likely, the matter of relative diversion from the stream is not a question of dispute. However, a judgment of the court, defining the respective rights of party claimants to the ditch would not be difficult of execution and a watermaster could be appointed by the court in the absence of agreement as to proportionate interest and use of the canal.

It will be observed that no mention is made of the other lands in your ownership which are reputed to be receiving water from the ditch in question. Obviously, as they are not described in your permit, they can not receive a license, and I assume you are not concerned with the status of their water rights.

Yours very truly,

Commissioner of Reclamation.

RE: Permit No. 17035 - E. H. Fisher

Mr. Oscar W. Nelson
Coeur d'Alene, Idaho

Dear Sir:

We are in receipt of your letter enclosing depositions of holder and two witnesses in the matter of proof of completion of works and beneficial use of water under the above numbered permit. These are in proper form and will be placed on file without final action until the report of our examining engineer has been made, at which time the applicant will be further advised as to fees due before issuing license.

The affidavit for publication has not been sent in by the Challis Messenger. I would suggest that the applicant have this done as soon as possible.

Very truly yours,

Commissioner of Reclamation

Dear Sir:

Under date of June 20th, 1929 forms were forwarded to Edward H. Fisher c/o A. L. Gridley, Coeur d' Alene, Idaho in connection with completion of Works and Beneficial Use of Water under permit No. 17035.

On July 6th, Mr. Fisher appeared in the office but was unable at that time to get the two required witnesses who were familiar with the works and advised you at that time to that effect. He did, however complete the Deposition of Holder, on June 6th as to proof of completion of works and proof of application of water for beneficial use. Today Mr. Fisher brought into the office the depositions of the two witnesses and as he advised us that the affidavit's of publication of notice are already in your possession we believe this completes the papers in this case.

Your attention is called to the fact that the instructions name A. L. Gridley as the notary before whom the signatures should be acknowledged. However, Mr. Gridley and the writer are in the same office and I believe that my name also was mentioned by Mr. Fisher when this matter was taken up with you before. We trust that the forms as completed are sufficient to complete your files.

Yours very truly,

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On July 6, 1929, the date set for proof, the enclosed forms (two for permit holder and two each for two disinterested witnesses) should be filled out and sworn to, at Coeur d'Alene before A. L. Gridley, notary public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Dear Sir:-

Referring to your letter of the 30th ult., enclosing notices for proof of completion of works under the above permit, would say that, inasmuch as the land has already been irrigated the proof of beneficial use of water can be made at the same time as proof of completion of works, thus saving a separate publication and proof. We have, therefore, prepared a combined notice of both proofs and will mail one copy to the Challis Messenger in time for the required four weeks publication prior to July 6, the date set for proof.

We note that you have inserted the names of two notaries. As the name of only one can be included in the publication, we have inserted the first one named, A. L. Gridley. If this is not satisfactory please advise us at once before the notice goes to the paper for publication, the latter part of this month.

PROOF OF COMPLETION OF WORKS

Boise, Idaho, April 1, 1929

MR. EDWARD H. FISHER
W. 1715-9th Ave.,
Spokane, Washington.

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 17035

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before July 7, 1929. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Mr. Geo W Carter

Commissioner of Reclamation

Boise Idaho

Dear Sir

I am very sorry that I have caused you all that trouble regarding the descriptions of said land also regarding to Paragraph 13 of the application I don't ~~exactly~~ know how to answer it, as this work was done and completed before they had a Survey which I think was in 1913 and the Patent for the land was issued in January 1915 and the land was proved up in 1914. I would like to have this gone through as soon as possible, as I have got rid of that land, and the party that has it now is entitled to the water, right as it goes with the land, as they need the water to raise hay for their Cattle. Now as to Paragraph 13, I wish

17035

You would fill it in, as you know
Sheet.

Will also state that This irrigation Ditch
was put in by 3 Farmers, named
Fisher Marshall and Kelsinger, covering
the flats to the River, so they could
raise feed for Cattle. There was no
other benefits derived from it as they
sold no water. It was not a Company
or Corporation, but simply a Community
proposition. Mr Marshall supposed
to proceed as to completion of the work
in 1915 after August Fisher deceased.
But according to records has not done so.
Thanking you kindly for the
inconvenience I have caused you
Hoping it proves satisfactory

Very truly yours,

Edward H Fisher
