Proof of application of water to beneficial use and completion of works was originally set to be heard before me at my office in Challis, Idaho, on August 1, 1968. My office was open for business on August 1, 1968, but due to the lack of an affidavit of publication from the Mackay Miner the matter was duly continued until September 30, 1968, at which time the proofs were submitted and made. The holder depositions were completed and signed on September 30, 1968. Because of some uncertainty as to procedural requirements the witness depositions had not been completed at the time the holder depositions were signed. They were completed and submitted according to Idaho law rules and regulations on October 9, 1968.

It is so noted for the record that no one appeared at my office to contest or object to the proof and completion of work as noted above.

In order to continue processing the above referenced permits, we must have a notarized affidavit from the notary, Buelah Rood, notarized by a second notary stating why the depositions were not taken on August 1, 1968, the advertised date. It must also state whether or not her office was open, whether or not any protests were received, and why the witness and holder depositions were taken on different dates.

We must also be receipt of affidavits of publication from the Challis Messenger, Challis, Idaho.
