Permit No...24753.....

This proof is for Beneficial Use In Water District No. 1. Name of applicant Marvin H. Larson, Box 121, Challis, Idaho2. Source of water supply: Salmon River3. Location of point of diversion: Is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 4T. 8 N. R. 14 E. County of Custer

4. Describe works as they exist, giving dimensions and capacities of same: The diversion from the river is merely a large canal extending into the river with a few rocks as the diversion lane. A short distance down in the canal is a spillway and below that a head gate. Head gate is made of concrete 6' wide by 8' long by 4' high, concrete is 10" thick. Flash boards for control. At the corner of the Larsen place this canal divides, part of it going for Larson use and the balance leads to the Williams farm. Where the water is divided between Williams and Larson. The head gate is 8' wide by 10' long by 20" high, board construction. The Larson water then is divided a short distance below the above works into two streams. Each head gate is 4' long by 20" high by 4' wide. Larson's diversion is at the SE corner of his place. His ditches are 3' wide in the bottom and 1' deep.

5. Water is used for: Irrigation and domestic purposes6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 32;SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29;Tw. 9 North, Range 14 East, B. M.See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: This permit is to complete licensed rights for Larson's place. The balance of his place has water under another license, according to Larson.

Canal mentioned above is 6' to 8' wide in the bottom and has been built with a bulldozer.

Points of diversion and place of use unable to check against Survey Markers but appear to be correct
No airplane map at Challis

This examination was made on the 25th day of October, 19 55.(Signed) E. H. Humphrey Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Gentlemen:

We have checked the notice on Permit No. 24753 of Marvin H. Larson appearing in your issue of March 9 and find several typographical errors as follows:

1. The word issued in Line 10 is misspelled as it should contain only two s's.

2. The address of the Permit Holder in line 3 of the second paragraph should be Box 121 and not Box 21.

3. The land description in Section 29 in the Paragraph commencing "The place where said water is used" should be SE¹SW¹₄ and not SE¹NE¹SW¹₄. Also the second line of the land description should read NE¹S¹SW¹₄ Section 32 and not NE¹SW¹₄.

Please make these corrections in your subsequent issues and send us a copy of your next issue containing the corrected notice.

Dear Mr. Larson:

We acknowledge receipt of your affidavit in proof of completion of works on Permit No. 24753 accompanied by your check for the \$5.00 fee in connection therewith.

We return your affidavit for the following corrections:

1. Question 6 II. (d) should give the dimensions of your ditch.
2. Question 7 should state the amount of water that the works are capable of conducting to the place of intended use.
3. The land description in the Permit does not exactly agree with the description in the affidavit. The Permit includes the NW¹SW¹₄ of Section 32 instead of the SW¹NE¹₄ and it also includes the SE¹SW¹₄ of Section 29 instead of the SW¹SE¹₄.

If these are errors in the affidavit, they may be corrected but if there is to be a change in the land description, it will be necessary to file an application for amendment and we shall be glad to send you the form for making this application.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 24753 you are required to complete your diversion works on or before March 8, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Mr. Larson:

We acknowledge receipt of your letter of February 3, 1954, in regard to filing for water right from Salmon River, accompanied by your check for \$5.50.

The application should be made on form 1 enclosed and should be accompanied by sketch map in duplicate showing the course of the stream and the point of diversion and the land to be irrigated should be colored or cross-hatched.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of Completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.
