Mr. R. B. Young,
Box 613,
Hamley, Idaho.

Dear Mr. Young:

Your letter of July 5th has been received.

We regret that the inspection of the works of diversion and beneficial use of the water has been delayed so long.

Your letter has been placed on the field examiner's table with note to make the inspection as soon as possible.

Very truly yours,

Re: Permit No. 21206

Dear Sirs:

On September 27, 1960, I received a letter from you concerning the above permit and stating that an engineer from your Department would make a field examination and would contact me at that time.

I have not been contacted and do not know if the examination was made.

As I am very anxious to have the above matter taken care of, I would appreciate hearing from you as to when it would be possible to complete the necessary details.

Very truly yours,

R. B. Young

R. B. Young et al
Box 613
Hailey, Idaho

Dear Mr. Young:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Mackay Miner, all submitted in proof of beneficial use of water on Permit No. 21206.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Young:

We received your letter this morning requesting a change in date for taking proof of beneficial use on Permit No. 21206 before R. H. McCoy, Notary Public.

It is true that we gave you this alternative in our letter of August 1 before any publications were made, but at this late date the four consecutive weekly publications have been made. According to the Legal Notice the proofs should have been made Sept 2, 1960.

The only possible way you could save re-advertising is to obtain an affidavit from the Notary Public, R. H. McCoy, that his office was open for business all day September 2nd and that no protests were received, either verbal or written. If this affidavit is made and mailed in to this office, together with affidavit of publication from the Mackay Miner, the proofs could be made before R. H. McCoy on September 17th, as requested by you. It will be necessary for Mr. McCoy's signature to be notarized by a Notary Public.

We are mailing Mr. McCoy a copy of this letter.

Dear Mr. Young:

Your letter of July 26 is correct as to the $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 27, should have been $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 27, in our letter of July 22nd.

Our records and the Form 36 you submitted shows the point of diversion from Salmon River as being in $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 10, T. 7 N., R. 14 E. If the actual point is in the $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 3, you should complete the enclosed form for amending the point of diversion to the correct 40-acre subdivision.

The land list of the land being irrigated can be changed by showing the description on the form sent to you July 22nd, extra copy is enclosed.

The legal notice should show the correct points of diversion and description of lands being irrigated.

Gentlemen:--

RE: Permit No. 21206
R.B. Young, Martin and Wallace
Young.

May we call attention to two items that should be corrected before Proof and Publication is made, on the above permit.

In your letter of July 22nd in the 3rd paragraph; 3rd line, you have used the description E $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 27----- we beleive this should be the W $\frac{1}{2}$ SE $\frac{1}{4}$ Section 27/

As to the point of Deversion, your plat shows it to be in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 10-- where the permit shows it to be; from Salmon River, the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 34, while the actual PIONT of diversion is the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3.

Will you please give us the manner in which these items should be corrected before we proceed.

We could complete the Forms No. 10, however, the land list does not check with the land to be irrigated as shown on the permit record amendment.

Kindly complete the Forms 10 showing the land list as you are actually using the water. If the land list differs from the permit record, SW¹/₄NW¹/₄, N¹/₂SW¹/₄, SE¹/₄SW¹/₄, E¹/₂SE¹/₄, Sec. 27; SE¹/₄NE¹/₄, NE¹/₂SE¹/₄, Sec. 28; NW¹/₄NE¹/₄, NE¹/₂NE¹/₄, Sec. 31, T. 3 N., R. 14 E., B.M., it will be necessary to complete an application for amendment to the land list on the enclosed form.

There is a fee of \$1.00 for recording the amendment in this office.

Kindly return the completed form 10 at your earliest convenience so the date of taking the proof will not have to be advanced.

STATE OF IDAHO
DEPARTMENT OF RECLAMATIONRE: Permit No. 21206Date July 1, 1960R. B., Martin, Wallace & Robert Young
and Paul MiserR. B. Young
Obsidian, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 21206 is due not later than Sept. 2, 1960. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Attention Roy W. Thompson, Supervisor of Water Distribution

Dear Sir:

We have prepared to the best of our ability, a map showing the lands irrigated by Salmon River in blue cross-hatching and the land otherwise irrigated or not irrigated at all with small checks.

Please note on the Amendment to Permit No. 21206 the change of $W\frac{1}{2}NW\frac{1}{4}$ of Section 27 to read $SW\frac{1}{4}NW\frac{1}{4}$, Section 27; only half of $NE\frac{1}{4}SE\frac{1}{4}$ is irrigated so we changed it to read $\frac{1}{2}NE\frac{1}{4}SE\frac{1}{4}$, the reason being that part of this $\frac{1}{4}$ lies across the river in Blaine County.

The land described as $SW\frac{1}{4}NE\frac{1}{4}$, Section 27 and $N\frac{1}{2}NE\frac{1}{4}$, Section 28 was crossed out as it is not irrigated with the water being applied for in this Permit.

Dear Mr. Young:

On a recheck of the map which accompanied your application for amendment to the points of diversion from Hot Creek and Salmon River as described in your Permit No. 21206, I find that there should have also been filed an application for amendment to the land list, in accordance with the sketch map which we returned to you on December 22.

In other words, your land now includes the NE¹/₄ NW¹/₄ Section 27 instead of the SW¹/₄ SW¹/₄ of Said Section and also includes the NE¹/₄ SE¹/₄ of Section 28.

We enclose a form of application for amendment to the land list which includes the land as shown on the map sent you on December 22. If you find this to be correct will you please sign on the line indicated and return to this department for approval and record.

Dear Mr. Young:

We have your reply to our office letter of November 3rd returning depositions of yourself and two witnesses in proof of Completion of Works on Permit No. 21206.

However the permit gives the point of diversion from the Salmon River in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 34, Twp. 8 N., Rge. 14 E., whereas your deposition indicates two points of diversion from the Salmon River in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 34.

If there has been a change in points of diversion an application for amendment should be sent to this Department for approval and we enclose a form of such amendment application herewith.

We note that our former letter was delayed on account of being sent to Obsidian and then forwarded to you. However, you do not give another address and your deposition states that your residence is in Obsidian. We therefore have to send this letter there and hope there will not be too much delay in forwarding.

Dear Mr. Young:

We do not seem to have received a reply to office letter addressed you on September 13, 1954, in which we returned the depositions of yourself and witnesses offered in proof of completion of works for several corrections.

No doubt you have over-looked this and it is important that you give this matter your early attention.

Dear Mr. Young:

In rechecking the depositions of yourself and witnesses offered in proof of Completion of Works on Permit No. 21206, we note that several of the answers are incomplete and we return them for correction as follows:

1. Question 3 of your own deposition should state the source of the water and the location of the point of diversion to a legal subdivision; Section, Township, and Range.

2. Question 6 of the depositions of your two witnesses should state the capacity of the works in cubic feet per second.

Dear Mr. Young:

We have received from Mr. Joseph W. Fuld the depositions of yourself and two witnesses, also affidavit of publication in the Mackay Miner all in proof of Completion of works on Permit No. 21206 in the name of yourself and others.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact you at the time he makes the examination in order that you may arrange to show him over the ground.

RE: Permit No. 21206

Mr. G. B. Young
Obsidian
Idaho

Dear Mr. Young:

We return the assignment of Robert C. Young's interest in Permit No. 21206 to Wallace Young which has been recorded in this Department.

We have had to change your notice for Completion of works in two instances.

First, it is now too late for four weeks publication prior to September 2nd, so we have change the date for making proof to September 9, 1954.

Also, since the land is located in Custer County, the notice will have to be published in Custer County, so we have sent a copy of the notice to the Mackay Miner instead of the Bailey Times with instructions to publish it once a week for four weeks prior to September 9, and to send you the affidavit of publication together with statement of costs.

At the time set you should appear before Mr. Fuld, Notary Public, together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the enclosed depositions.

RE: Permit No. 21206

Mr. R. B. Young

Dear Mr. Young:

We have your letter of July 22nd and will correct your notice for Completion of works accordingly.

However, since the name of Robert Young is on our records as one of the holders of said permit, if he has sold his interest to someone else he should execute the enclosed form of assignment in order that the records may show the present record holders of the permit.

This should be done before the notice goes to the newspaper for publication, if Robert Young's name is to be eliminated, and since the time is short it is important that the assignment be properly executed and returned to this Department at once together with the recording fee of 50 cents.

Mr. R. B. Young

Dear Mr. Young:

We acknowledge receipt of duplicate notice for Completion of Works proof on Permit No. 21206 in the name of yourself and others with authorization to publish in the Bailey Times.

However, in checking this notice we see that you have described the place of use as "450 acres in the NW¹/₄SE¹/₄ Section 34, from Salmon River and the NW¹/₄SE¹/₄ Section 27, from Hot Creek."

We think you have confused this with the points of diversion as the land described in the permit is as follows: NE¹/₄NE¹/₄, SE¹/₄NE¹/₄, NE¹/₄SE¹/₄ Section 28; SE¹/₄NE¹/₄, NE¹/₄NE¹/₄, NE¹/₄SE¹/₄, NW¹/₄NE¹/₄, NW¹/₄SE¹/₄ Section 27; NW¹/₄NE¹/₄, NE¹/₄NW¹/₄ Section 34, Twp. 8 North, Rge. 14 East, B. M.

If this is an error in the notice and the land should be described as above we can change the notice upon your authorization to do so.

Please let us have your prompt reply.

PROOF OF COMPLETION OF WORKS

R.B.Young, Martin, Wallace & Robert Young,

C/o R. B. Young,
Obsidian, Idaho

Boise, Idaho, July 1, 1954

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 21206

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before September 2, 1954. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
