That affiant desires to change the point of diversion of said waters from the point above described to a point located in NE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Sec. 8, Twp. 8 N., Range 14 E., and thereafter conduct same to the above described land through the Williams ditch, as per map above referred to;

That his reasons for desiring to make such change are as follows: The point of diversion of this ditch has always been in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 8, Twp. 8 N R 14 EBM; and not in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 9, said Twp. and Range. The SW $\frac{1}{4}$ SW $\frac{1}{4}$ of said Sec. 9 lies about $\frac{1}{4}$ mile from the Salmon River.

That no one will be injured by such change and that such change will be made at affiant's own risk.

David M. Williams
Affiant.

Re: Permit No. 17821

David M. Williams,
Stanley, Idaho

Dear Sir:-

A short time ago we received the report of our field engineer on examination for beneficial use under the above numbered permit.

The report shows that you are irrigating 83 acres in three 40-acre legal subdivisions; and the statutory fee will amount to \$6.00.

7
However, we note that while your application and permit shows the point of diversion to be in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 9, Twp. 8 North, Range 14 East, the examination made by our field engineer shows the point of diversion to be in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 8, of this same township.

We are therefore enclosing an affidavit of change of point of diversion, which you may execute and return to this office, in order for your license to be issued.

Very truly yours,

JAMES SPOFFORD

Mr. David M. Williams
Stanley, Idaho

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the Department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office, you will be further notified as to fees due before the issuance of your license.

Very truly yours,

Boise, Idaho, **August 10, 1935**

Dear Sir:—

Under the terms of your permit No. **17821**.....you are required to complete your diversion works on or before.....**Oct. 2, 1935**..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided, the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
