Re: Ownership Change Documentation

Mary Danvers visited the office on this day in response to a letter from Sharla Curtis regarding a change in ownership for these water rights. Ms. Danvers submitted a filing fee of \$200 to split both water rights and submitted evidence to show that her home is the same home described under right 65-5906. Several photos of the original home and additions to the home were provided for review. The photos showed that the original home was built by 1956 and the same home exists today with some additions. The attached is a copy of photos showing the home today and the home with an addition under construction in the late 1950s.

Sharla's letter indicated that documentation submitted during an earlier visit showed that Ms. Danvers was the sole owner of both water rights until she deeded ½ interest to her brother. She is submitting the change in ownership to ensure that her ½ interest is properly recorded.

FAX: 459-8806

Dear Ms. Danvers.

Attached are copies of the information submitted by Howard Loomis in 2000 to change the ownership of water right numbers 65-5905 and 65-5906. Because domestic and stockwater uses are not tied with a number of acres and because the warranty deed from your father to you and the one from you to your brother were not submitted at the time, the department had no way of knowing that Howard's ownership was only a PARTIAL ownership of the water rights. Therefore, rights 65-5905 and 65-5906 were updated as total ownership under Howard's name.

The warranty deeds you submitted clearly indicate your sale to Howard of only 1/2 of the property and appurtenant water rights. The ground water right for domestic and stockwater purposes has a priority date of 1956. The tax notice supplied by Howard indicates a 1975 mobile home. If the home that was in existence in 1956 is the home you own, the domestic portion of right 65-5906 is appurtenant to only your home; the domestic portion cannot be split because the right indicates one home only. You need to complete a Change of Ownership and submit it with a \$100 filing fee to "split" the water right record (the domestic portion and .01 cfs for stockwater purposes in your name and 0.01 cfs for stockwater in Howard's name). You should supply documentation to show that the home you own is the one in existence in 1956 and any evidence you could supply to prove the date that your brother "home" on his portion of the land so that we can document the file and change our computer records to reflect the split.

If you wish to record your half-ownership of right 65-5905 for stockwater purposes from springs, you will need to submit another \$100 filing fee and another Change of Ownership form for that right.

I hope this information helps. Please contact me if I can be of further assistance.

Sincerely,

Sharla Curtis
Senior Water Resource Agent.

RE: Domestic and/or Stockwater Rights in Basin 65
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your domestic and/or stockwater water right(s) in basin 65, the Payette River basin. We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended domestic and stockwater right(s) in your area. Water rights for irrigation and other purposes in these basins will be recommended in a later process.

Note that you have 120 days in which to file any objection to our recommendation and to review the domestic and stockwater water rights of other claimants, including those of the United States. Information on the other water rights can be found at the county courthouses in Payette, Emmett, Idaho City, Cascade and Weiser, and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the Court does not receive an objection from you about our recommendation, and no other party objects to your water right, your water right will be decreed later this year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions that you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
