CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **June 01, 2008**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
5. Water shall not be diverted under this right when flows in the South Fork of the Payette River are below established minimum flow amounts.
6. Diversion of water under this permit is limited to a portable pump. A permanent diversion structure shall not be installed in the unnamed stream, locally known as the West Fork of Archie Creek.
7. Use of water under this right and Water Right No. 65-11340A shall not exceed a combined diversion rate of 0.04 cfs for the domestic use occurring on Lot 3, Block 1, Enchanted Village Subdivision No. 3.
8. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 65.
9. Point of diversion and place of use is located within Lot 3, Blk. 1, Enchanted Valley Subdivision.
10. Domestic use is for 1 home.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 27 day of May, 2003

ENCHANTED VALLEY SUBDIVISIONS

PROPOSED DIVISION OF WATER RIGHT NO. A65-02597 (Irrigation):

Source: Archie Creek
Purpose: Irrigation
Total Acres: 50.0

The original irrigation water right ("Right") was for a total of 50 acres in Section 4, T8N, R8E, Boise County, Idaho, which had not yet been platted. The applicable acreage was divided as follows:

NENE	10 acres
SENE	15 acres
NESE	14 acres
SESE	11 acres

The five Enchanted Valley subdivisions were developed over a period of years and eventually occupied somewhat different areas than originally envisioned by the developer, e.g., none of them were located on the 11 acres allotted water in the SESE of Section 4, and only a portion of Subdivision No. 3 occupies the 14 acres allotted in the NESE. Therefore, this allocation is currently being undertaken in connection with the Snake River Adjudication in order to clarify the Right.

The five Enchanted Valley subdivisions contain the following number of Lots:

No. 1	25 lots
No. 2	12 lots
No. 3	23 lots
Gordon Segregated	3
Enchanted View	10 lots

In addition, the unplatted area in the NESE contains one lot within the area described in the Right, for a total of 74 parcels.

However, the only lots potentially irrigable from Archie Creek without a pressure irrigation system are as follows:

No. 1	Lots 21, 22, 23, 24 and 25
No. 2	Lots 1 through 12
sub No. 3	Lots 6, 7, 8, 9, 10 and 11
	(extremely steep, only about one-third of each is feasible for irrigation)
	Lots 12, 13, 14, 15 and 16

(Lot 3 not included)

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

 PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

 / WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

RE: Permit No. 65-22754

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

MICROFILMED

JUN 6 9 2003

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01 01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i A hearing was held,
- ii The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv The real property or personal property that was the subject of the agency action is located

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Permit Review

The permit issued for this right has a provision that water shall not be diverted when flows in the S F of the Payette are below established min flow amounts per a comment from Bill Graham, Planning Section.

This application was protested. The protest was withdrawn based on two conditions to be on the permit. First that the diversion is limited to a portable pump. A permanent diversion structure shall not be installed in the stream. The second condition, was regarding the use of the right and right no 65-11340A shall be limited to 0.04 cfs. This provision is to limit the use if the permit holder was able to connect to the community system at a later date.

Comment: The p/u and p/d aka Lt 3 Blk 1 Enchanted Valley Subdivision No. 3. Because of its location, this lot cannot utilize the subdivisions gravity irrigation system from Archie Creek and was not included on right 65-2597A. Applicant wishes to install a small pressurized irrigation system (pump, sprinklers)

The source was originally listed as the West Fork Archie Creek tributary to the Payette River. The topo map does not list the West Fk, Archie Creek. The source and trib were then clarified to an Unnamed Stream tributary to Archie Creek.

RE: Applications 65-22753, 65-22754 and 65-22755

I conducted a joint prehearing conference for these three protested applications for permit yesterday. One party, Robert Farber, protested all three applications.

The applications are very simple. Each proposes a pump to serve one home in a subdivision near Lowman. Numerous complex issues surround the situation, and the issues involve things normally outside of department jurisdiction – subdivision covenants, disputes over ownership of the community water system and so forth. The parties discussed the issues at length.

The protests were withdrawn after it was revealed that the applicants intend to use portable pumps for occasional use, most likely for weekend visits. The protestant was not concerned about portable pumps. All the parties signed a settlement agreement and withdrawal of protests. The settlement agreement noted that specific conditions of approval as suggested might not be used by the department.

I think we can include the specific conditions as matters clearly within department jurisdiction. The applications can be approved and should include the following special conditions of approval:

Diversion of water under this approval is limited to a portable pump. A permanent diversion structure shall not be installed in the unnamed stream, locally known as the West Fork of Archie Creek.

Use under this approval and all other rights for the same use shall be limited to 0.04 cfs.

The first condition is preferred over the generic “subject to a private agreement” language. The second condition protects against “stacking” if a permit holder decides to hook up to the Archie Creek community system in the future.

Please send a copy of approved applications to the protestant.

I understand approval of each application

CONFERENCE AND HEARING PROCEDURE

APPLICATION FOR PERMIT

Section 42-203A, Idaho Code, requires the department to consider the following issues in connection with an application for permit:

- 1) Will the proposed appropriation injure other water rights?
- 2) Is the proposed water supply sufficient for the purpose for which it is sought to be appropriated?
- 3) Was the application made in good faith or for delay or speculative purposes?
- 4) Does the applicant have sufficient financial resources with which to complete the proposed project?
- 5) Is the proposed appropriation in the local public interest, which is defined as the affairs of the people in the area directly affected by the proposed use?
- 6) Is the proposed use contrary to conservation of water resources within the state of Idaho?

BURDEN OF PROOF

The applicant has the initial burden of proof on issues 1, 2, 3, 4, & 6 above and must provide evidence for the department to evaluate these criteria.

The initial burden of proof on issue 5 above lies with both the applicant and protestant as to factors which they are most knowledgeable and cognizant. The applicant has the ultimate burden of persuasion, however, for this issue.

PROCEDURE

The department generally conducts an informal conference with the parties to determine the issues and to try to settle a protested matter before a hearing is scheduled. If a hearing is held, the department will issue a written decision based on the hearing record.

MICROFILMED

SEP 10 2003

CONFERENCE

The purpose of a prehearing conference is to provide the opportunity for the parties and the department to familiarize themselves with a contested matter and to attempt to resolve the matter. At the conference, the department may also formulate and simplify the issues, identify documents to avoid unnecessary proof, exchange proposed exhibits or prepared testimony, limit witnesses, discuss settlement offers, schedule hearings, establish procedure at hearings and address other matters that may expedite orderly conduct and disposition of the proceeding or its settlement.

HEARING

The department will tape record the hearing. Copies of a hearing tape are available upon written request and the payment of the cost of reproducing the tape.

The hearing likely will be conducted by a hearing officer appointed by the Director rather than the Director himself. If so, the hearing officer will prepare a preliminary order for the Director's consideration. Parties can file exceptions to a preliminary order, briefs in support of the exceptions or may request oral argument. Parties may seek judicial review of any final order issued by the Director.

Parties may, by written stipulation, waive their right to a preliminary order, particularly when a shortened decision process is desirable or necessary. Such a waiver does not eliminate any rights of the parties in connection with the final order of the Director and judicial review of the order.

EXHIBITS

A party who plans to offer an exhibit as part of the hearing record must provide a copy of the proposed exhibit to the parties and to the hearing officer prior to any scheduled hearing.

AMERICANS WITH DISABILITIES ACT

Any hearing scheduled will be conducted in a facility that meets the accessibility requirements of the Americans with Disabilities Act. If you require special accommodations in order to attend, participate in or understand the hearing please advise the department within ten (10) days prior to the hearing.

Dear Applicant:

Enclosed is a copy of a protest filed against the issuance of a permit pursuant to the above-referenced applications.

The following are the criteria the department must consider in either approving or denying an application for permit (per Section 42-203A, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

Enclosed is a Notice of Prehearing Conference scheduled for May 7, 2003 at the Garden Valley Ranger Station in Lowman, Idaho 83637. At the conference, the department will review possibilities for resolution of the protest. If the matter cannot be resolved at that time, a formal hearing will be arranged for a future date.

Dear Protestant:

This office acknowledges receipt of your protests to the issuance of a permit pursuant to the above referenced application.

The following are the criteria the department must consider in either approving or denying an application for permit (Section 42-203A, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?

Re: Application For Permit

Dear Roberta:

Enclosed please find your application and Don Dixon's application. As discussed on the telephone, please initial and date the hand drawn line next to number 2. The source should be listed as Unnamed Stream tributary to Archie Creek. As you can see on the enclosed topographical map, the creek that you and Don propose to divert from is not labeled West Fork Archie Creek. I will note in the application comments that the source is locally known as the West Fork of Archie Creek.

Please get Don's initials on his application and return both to my attention within the next thirty days from the date of this letter. Let me know if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Lori Graves".
