CONDITIONS OF APPROVAL

- 1 Proof of application of water to beneficial use shall be submitted on or before **March 01, 2008**.
- 2 Subject to all prior water rights
- 3 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
- 4 Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
- 5 The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit

MICROFILMED

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 65-22706

- 6 Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality standards of the Department of Environmental Quality
7. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable county zoning and use ordinances.
8. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department
- 9 Stockwater use is for 800 dairy cows and 640 young stock

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 13th day of March, 2003.

WATER RESOURCES
WESTERN REGION

☐ IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

☐ PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

YES WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

RE: Permit No. 65-22706

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

MICROFILMED
MAR 27 2003

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Conditions of Approval:Remarks:Comments:

1. dnelson 8/29/2002 Legal Notice Remarks

Comment: Applicant agrees to mitigate consumptive use in the future as needed.

2. dnelson 8/29/2002 Comment/Analysis

Comment: This application is for the expansion of an existing dairy located in Payette County. The dairy expansion will increase the dairy size to 700 milking cows, 100 dry cows, and 640 heifers. The applicant proposes to use 2 existing wells and one new proposed well. The existing wells were used under water right 65-4362 for the domestic dairy use and is limited to 13,000 gallons per day. This application will allow the owner to increase the size of his dairy from a domestic type use to a commercial dairy operation. The only other overlapping water rights is canal water from Black Canyon Irrigation District that will be used on the same ground as the dairy wastewater land application water. The dairy will be located in the NENE 1/4.

RE: Greg Davis

Here are some well data and maps etc which demonstrate no observable trend up or down in the ground water levels in the vicinity of the dairy. Data from well logs and USGS data from 1967 to the present are included. Groundwater levels to the south of the dairy appear to be higher above sea level than levels to the north, indicating a flow toward the Payette River. The longest and most continuously monitored USGS well in the area (435933116485901) is about 3 1/2 miles north of the dairy and 1 1/2 mile south of the Payette River. The river is 2180' in that area, while the USGS Well is at 2211' and shows groundwater levels fluctuating from 4' to 10' below the surface for 35 years with no discernable change. It seems safe to conclude that if the large number of new wells in the area in the past 35 years has not affected the ground water levels, this new dairy well won't either.

Let me know if you need more information!

MICROFILMED

MAR 20 2003

To : Dan Nelson, IDWR

From: Darwin Vander Stelt, on behalf of Greg and Kathy Davis

RE: Status of the CUP from Payette County.

On December 12th, 2002, the commissioners of Payette County held a hearing on the application of Greg and Kathy Davis for a Conditional Use Permit for an expansion of their dairy farm. Testimony from the community was heard and considered, and after discussion, the application was approved.

Because the dairy is currently licensed and inspected by the Idaho Department of Agriculture, and because the expansion does not require any increase in the size of the waste handling system, or involve a new milking parlor, no changes or permissions are required to maintain the Grade A milk producers license.

Under the new federal EPA CAFO regulations, the expanded dairy will apply, by April 1, 2003, for an NPDES permit from the EPA. No difficulties are expected in obtaining the discharge permit since the dairy has met nearly all the new requirements (minor record keeping changes are required and a lagoon depth marker will need to be installed).

If there are further questions, I am at your service. Thank you!

Darwin Vander Stelt

Well No.	Elevation (estimated)	Static Level	Elevation above sea level	season observed
1		0		
2	2390	65	2325	fall
3		0	0	
4	2420	108	2312	spring
5		0	0	
6	2380	70	2310	fall
7	2380	22	2358	spring
8	2380	26	2354	summer
9	2380	57	2323	summer
10	2380	48	2332	fall

Elevation may be off 20' or so, but when you compare the observed level to the 1956-5 observation in 1980 (2322') and also notice there is a seasonal fluctuation of about 6', these certainly don't appear to be a pattern of declining water table.

**RE: GREG AND KATHLENE DAVIS APPLICATION FOR
PERMIT 65-22706**

Dear Ladies and Gentlemen:

Greg and Kathlene Davis' application for permit 65-22706 was received on 8/27/2002. This permit has completed advertising without protest. Therefore, you now need to submit the following additional information requested in my letter dated 8/29/02.

When reviewing applications, our office is required by Idaho Code § 42-203A – section 5 to consider the following information whether the application is protested or not:

(a) That it will reduce the quantity of water under existing water rights, or (b) that the water supply itself is insufficient for the purpose for which it is sought to be appropriated, or (c) where it appears to the satisfaction of the director that such application is not made in good faith, is made for delay or speculative purposes, or (d) that the applicant has not sufficient financial resources with which to complete the work involved therein, or (e) that it will conflict with the local public interest, where the local public interest is defined as the affairs of the people in the area directly affected by the proposed use, or (f) that it is contrary to conservation of water resources within the state of Idaho

- 1.) Please locate on a USGS quad map all wells not owned by the applicant within a one-half mile radius of the points of diversion listed on the application and evaluate the effect diversion of ground water for the dairy will have on these neighboring wells.
- 2.) In regards to local public interest, please explain in detail the current process for approval of the dairy by local governments responsible for granting permission for the dairy. If a local jurisdiction is not required to approve the proposed dairy, please obtain a comment letter about the project from the Payette County Commissioners or from a person designated by the commissioners to act on their behalf.

MICROFILMED

MAR 20 2003

Davis

Also, please explain in detail the current process of review/approval of your proposed dairy by the Department of Environmental Quality (DEQ) and Department of Agriculture. The explanation should include a showing that the proposed dairy is approved or that approval is imminent.

Please demonstrate that local residents have been notified of your proposal and have been afforded a meaningful opportunity to review the proposal.

In order to process all of the applications in our office as efficiently as possible, I am required by Idaho Code § 42-204 to ask that this information be returned to my office within 30 days. Our office will be required to void the application for permit if this information is not returned. **Therefore, if the above information is not received by 11/15/2002 your applications for permit will be voided.** You will be able to re-file this application, but it will have a later priority date.

Please contact me if you have any questions.

Respectfully,

Daniel A. Nelson
Sr. Water Right Agent

**RE: GREG AND KATHLENE DAVIS APPLICATION FOR
PERMIT 65-22706**

Dear Ladies and Gentlemen:

Greg and Kathlene Davis' application for permit 65-22706 was received on 8/27/2002. This permit has been submitted for advertising and should be advertised in the Independent Enterprise newspaper on 9/18 and 9/25/2002. Your application will be held for thirty days to allow for possible protests. Whether this application is protested or not you will need to provide the following information 30 days from the final date of protest. Therefore, you may want to take this time to begin compiling the needed information.

When reviewing applications, our office is required by Idaho Code § 42-203A – section 5 to consider the following information whether the application is protested or not:

(a) That it will reduce the quantity of water under existing water rights, or (b) that the water supply itself is insufficient for the purpose for which it is sought to be appropriated, or (c) where it appears to the satisfaction of the director that such application is not made in good faith, is made for delay or speculative purposes, or (d) that the applicant has not sufficient financial resources with which to complete the work involved therein, or (e) that it will conflict with the local public interest, where the local public interest is defined as the affairs of the people in the area directly affected by the proposed use, or (f) that it is contrary to conservation of water resources within the state of Idaho

- 1.) Please locate on a USGS quad map all wells not owned by the applicant within a one-half mile radius of the points of diversion listed on the application and evaluate the effect diversion of ground water for the dairy will have on these neighboring wells.
- 2.) In regards to local public interest, please explain in detail the current process for approval of the dairy by local governments responsible for granting permission for the dairy. If a local jurisdiction is not required to approve the proposed dairy, please obtain a comment letter about the project from the Payette County Commissioners or from a person designated by the commissioners to act on their behalf.

Also, please explain in detail the current process of review/approval of your proposed dairy by the Department of Environmental Quality (DEQ) and Department of Agriculture. The explanation should include a showing that the proposed dairy is approved or that approval is imminent.

Please demonstrate that local residents have been notified of your proposal and have been afforded a meaningful opportunity to review the proposal.

I will contact you at the end of the protest period to request this information. You will have 30 days from that time to provide the information. You may want to take this time to acquire all of the information that will be needed.

Please contact me if you have any questions.

Respectfully,
