CONDITIONS OF APPROVAL

- 1 Place of use and point of diversion are located within Lots 1, Blk 10, Garden Valley Estates No 1 Subdivision
- 2 This right when combined with all other rights shall provide no more than 0.02 cfs nor more than 1.8 afa at the field headgate for irrigation of the land described above.
- 3 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 65
- 4 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion
- 5 When water is not available to fill this right, the right holder shall cease diversion, shall rent water from the Payette River Rental Pool, or shall otherwise mitigate the depletion of water caused by this water use

State of Idaho
Department of Water Resources
Water Right License
WATER RIGHT NO. 65-22691

6. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

REQUEST TO PROCESS

COMPLETE REQUEST IF YOU WANT YOUR APPLICATION TO BE PROCESSED USING ONE OF THE
THREE ALTERNATIVES BELOW

Name of Applicant

Charles + Shirley Perkins

Mailing Address

P.O. BOX 925

Meridian Idaho 83680

Application No.
(if known)

___ IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

___ PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

☒ WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

RE: License No 65-22691 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4947.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

SWK:klt

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on January 18, 2005 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved License) to the person(s) listed below:

RE: WATER RIGHT NO.

65-22691

**CHARLES PERKINS
SHIRLEY PERKINS
PO BOX 925
MERIDIAN ID 83680**

**Karl Lynn Townsend
Secretary**

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Comment Report

65-22691

1. eretelle 1/13/2005 shapes & legals

Comment: the taxlot information in ArcView is misregistered. I used the air photos to move the taxlot lines, create the PoU shape and place the PoD

2. eretelle 1/13/2005 volume

Comment: The irrigation value (1.8 af) was used instead of the .6 recommended by the FE since the .6 af indoor/.6 af outdoor domestic guidance is not necessarily an exact split in many parts of the state and this is an irrigation use.

3. eretelle 1/14/2005 lockable works

Comment: the FE reports The pump can be turned off, easily disconnected from power, and removed from the creek if necessary and the power box can be locked. I spoke to Ron Shurtleff, WM of WD 65 and he confirmed speaking with Mrs. Perkins about this matter and they agreed that the lockable power box would be sufficient as a controlling works for this diversion.

4. Imattson 6/25/2002 Legal Notice Remarks

Comment: Applicant agrees to mitigate consumptive use in the future as needed.

5. Imattson 6/25/2002 Comment/Analysis

Comment: This application is for 1/2 acre of irrigation. The applicant did file 65-13684 for this same 1/2 acre of irrigation, but allowed the permit to lapse without filing proof of beneficial use. The applicants have now re-filed the application to try and cover this ground again. The point of diversion and place of use are in Lot 10 Block 1, Garden Valley Estates Number 1 Subdivision.

6. skeen 7/29/2002 Permit Preparation

Comment: The permit document was prepared by S. Keen on 7/20/2002.

D. FLOW MEASUREMENTS

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
N/A	N/A	N/A	N/A	N/A	N/A	N/A

2. Measurements:

The pump had been removed for the winter and was not connected to power. Due to the small diversion rate associated with this permit, I did not feel it was necessary to require that the pump be operational during the field exam. The pump curve is available and theoretical calculation was performed.

E. FLOW CALCULATIONS

YES Additional Computation Sheets Attached

Measured Method:

PERMIT ALLOWS → 0.02 CFS
 PUMP CURVE SHOWS → 0.05 CFS
 THEORETICAL CALCULATION SHOWS → 0.68 CFS
 MAXIMUM ALLOWABLE PER ACRE → 0.02 CFS

MICHAEL J. LIND
 JUN 05 2003

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 0.4 \times 4.5 = 1.8 \text{ AFA}$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 = 0.02 \times 231 \times 1.9835 = 0.09 \text{ AFA}$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = \text{SEE BELOW}$$

PLEASE NOTE: Standard for ½ acre irrigation of 0.6 afa was used because this is yard use associated with a domestic household.

2. Volume Calculations for Other Uses:

G. NARRATIVE/REMARKS/COMMENTS

The water for this permit is diverted in the SWNE S 23 T10N R4E. The water is diverted in the Southwest corner of the applicants lot and distributed to portable sprinklers through a garden hose. This diversion is only used to irrigate a 0.4-acre lawn behind the home. No water is used from this diversion for any other use.

OVERLAP: There are a large number of water rights that overlap the place of use and point of diversion. However, the place of use associated with this application is located in a subdivision with no public water supply system. Therefore, each owner has to develop his or her own well and irrigation system. It would not be feasible to list all of the water rights in this area. There are no direct overlapping water rights for this place of use and point of diversion. There is a non-recorded well right for the in-house use for this property.

Have conditions of permit approval been met? XXX Yes No

This diversion is a very small diversion that can be regulated by an on/off regulation. The pump can be turned off, easily disconnected from power, and removed from the creek if necessary and the power box can be locked. It would not be economically feasible or reasonable to require a measurement device to be installed on this diversion, since the amount of water cannot be adjusted or changed.

H. RECOMMENDATIONS

1. Recommended Amounts

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 10/31	0.020 CFS	0.60 AF
<u>Totals:</u>		0.020 CFS	0.60 AF

2. Recommended Amendments

 Change P.D. as reflected above Add P.D. as reflected above None

GROUNDWATER THEORETICAL ANNALYSIS

FILE: 65- 22691

DATE: 3-21-03

BY: Daniel A. Nelson

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8 \times (HP) \times (EFF.))}{TDH}$

Q = CFS
 HP = Total Brake Horsepower of pumping plant (including booster)
 Eff. = Pumping plant efficiency (assume 70% or 0.70)
 TDH = Total dynamic head = [(LIFT) + (PSI X 2.31)]
 LIFT = Depth to water in FEET from land surface to puijing water level
 PSI = Pumping pressure measured in PSI near pump (if open discharge assume [0])

$(8.8) \times (1) \times (0.70) = 61.6$
 $Q = \frac{61.6}{304.2 \text{ PM}} = 0.68 \text{ CFS}$
 $[(10) + (35 \times 2.31)] = 90.85$

LIFT FROM:	PSI FROM:	NOTES ON PUMP:
Measurement ()	Measurement ()	Motor Make, Serial or ID
Owner ()	Owner ()	
Area estimate (X)	Estimate (X)	Pump Make, Serial or ID, rating
Well Logs ()	Owner Gage ()	
Booster (Y) (N)		

REMARKS: The pump wasn't operating
and a measurement couldn't be made.
The pump curve shows this style
of pump can only deliver 25 gpm
at this applicor's lift and pressure
needs. Therefore, I recommend
using the pump curve for a
determination of actual flow.

MILWAUKEE
 APR 15 2003

PIPING

Plastic PVC pipe is shown in the illustrations, but galvanized steel pipe may be used if desired. All piping must be clean and free of all foreign matter to prevent clogging. **ALL JOINTS AND CONNECTIONS IN THE**

WELL ASSEMBLY MUST BE AIRTIGHT. Even a pin-hole leak will prevent the proper operation of the pump (this is the most common problem). Use thread compound on all threaded joints unless specified otherwise.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-22691

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

RE: Permit No. 65-22691

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303)

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- I. A hearing was held,
- II. The final agency action was taken,
- III. The party seeking review of the order resides, or
- IV. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Comment Report

65-22691

1. Imattson 6/25/2002 Legal Notice Remarks

Comment: Applicant agrees to mitigate consumptive use in the future as needed.

2. Imattson 6/25/2002 Comment/Analysis

Comment: This application is for 1/2 acre of irrigation. The applicant did file 65-13684 for this same 1/2 acre of irrigation, but allowed the permit to lapse without filing proof of beneficial use. The applicants have now re-filed the application to try and cover this ground again. The point of diversion and place of use are in Lot 10 Block 1, Garden Valley Estates Number 1 Subdivision.

3. skeen 7/29/2002 Permit Preparation

Comment: The permit document was prepared by S. Keen on 7/20/2002

Dear Sir or Madam:

Enclosed are copies of the above-referenced applications that the proposed use is from surface water. Please review the applications and submit any comments you may have.

This office normally completes the processing of an application within a six-week period and is required to take final action shortly thereafter. However, if your agency desires to file a formal protest against the approval any of these applications, your written protest, along with the \$25.00 protest fee for each application protested, must be received in this office by July 22, 2002.

If you have any questions regarding the applications, please contact this office.

Sincerely,

Daniel A. Nelson
