RE: File status

=====

Last conversation with Ms. Holland was in November 2003. At that time she gave us a current mailing address in AZ.

I re-sent Jim Zokan's letter of October 17, 2003 to her. As of today, there has been no further communication from Water Allocations to Ms. Holland. No further action will be taken by Water Allocations at this time.

The file is being returned to the vault pending further action by Ms. Holland.

RE: Change in Ownership of Decreed Water Right 65-17315

Dear Ms. Holland:

The Department of Water Resources acknowledges receipt of the additional information you submitted in support of your Notice of Change in Water Right Ownership filed on December 11, 1998 for the water right referenced above. The Snake River Basin Adjudication (SRBA) Court issued a partial decree describing the water right with a place of use different than your property as described in the documentation you originally submitted.

In order to process your change in ownership, we need documentation to show that you own the water right(s) or the property described as the place of use for the water right(s). If you believe that the SRBA Court issued the partial decree(s) with an error in the description of the place of use, you may be able pursue one of the following options with the Court.

- 1) Motion to set-aside – a motion filed with the SRBA Court which, if granted, would provide a process to correct the partial decree. You would need to provide justification for the correction.
- 2) Motion to file late claim – a motion filed with the SRBA Court which, if granted, would allow you to file a new claim for your existing water use. A late claim would be investigated for validity and accuracy by the Department.

Please contact Roxanne Brown of this office at 327-7900 if you have questions related to the SRBA. Ms. Brown can assist you with the SRBA Court's processes.

As additional alternatives, you could pursue one of the following options with the Department.

- 1) New Appropriation – an application for permit filed with the Department to develop a new water right. If a permit is approved, the priority date is the date that the application is filed. Some areas of the state are closed to new development. Please note that a water right permit is not required for certain domestic uses from a ground water source.

- 2) Water Right Transfer – an application filed with the Department to change an existing water right. In this case, the purpose of the transfer would be to change the place of use (and possibly the point of diversion) to your property description. You would need to provide evidence of ownership or authorization from the current owner of record before the Department could process the application.

If you choose to file an application for permit or transfer with the Department, you may be able to apply any fees submitted with your Notice of Change in Water Right Ownership to the application. Please contact staff from the Water Right Permits section of this office if you have additional questions related to the applications described above.

Please let us know within 30 days how you plan to proceed. If we do not hear from you within 30 days we will return your Notice of Change in Water Right Ownership and all attachments and refund any fees submitted with your notice.

Sincerely,

A handwritten signature in black ink, appearing to read 'J F Zokan', written over a horizontal line.

P.O. Box 988
Cascade, ID 83611-0988

(Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.)

8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims..

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

RE: Change in Ownership for Decreed Water Right No. 65-17315

Dear Mrs. Holland:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

☒ **Evidence of Water Right Ownership:** copy of Deed, Title Policy, Contract of Sale, or other legal document indicating your ownership of the property and/or water rights in question

☒ **Legal Description of Property**

☒ **Plat of Property or Survey Map** (usually on file with the county)

During our review of the documentation you submitted we found some discrepancies between that documentation and the legal description of the place of use for the water right indicated in your notice. **The water right is located in the northwest quarter of the northeast quarter of section 1, in township 13 north, range 3 east. The deed that you sent to us shows your property being located in the northeast quarter of the northwest quarter of section 1, in township 13 north, range 3 east.** Is there a chance that you may own other property to the east of the land that is mentioned in the deed you sent us? I have enclosed a copy of the water right, the deed you sent us, and a map corresponding to the deed, for your reference. If this is the only property you own in **township 13 north, range 3 east, section 1**, please disregard the above checked items and contact our office so that we may discuss an alternative action.

Because the Department cannot process the ownership change without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information fees within **30 days** we will return your notice and all attachments and your notice will not be processed.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage (<http://www.idwr.state.id.us>) on the Internet to obtain the proper forms and instructions.

Please feel free to contact me at 208-327-5452, if you have any questions.

Sincerely,

James F. Zokan
Sr. Water Resource Agent
