RE: Permit No. 65-13978

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

MICROFILMED
SEP 14 2001

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W Keen

Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Conditions of Approval:

- 26A - Project construction shall commence within one year from the
 - date of permit issuance and shall proceed diligently to
 - completion unless it can be shown to the satisfaction of the
 - Director of the Department of Water Resources that delays were
 - due to circumstances over which permit holder had no control.
- 121 - The Director retains jurisdiction to require the right holder to
 - provide purchased or leased natural flow or stored water to
 - offset depletion of Lower Snake River flows if needed for salmon
 - migration purposes. The amount of water required to be released
 - into the Snake River or a tributary, if needed for this purpose,
 - will be determined by the Director based upon the reduction in
 - flow caused by the use of water pursuant to this permit.
- R04 - Use of water under this water right will be regulated by the
 - watermaster of State Water District No. 65.
- 01P - Upon specific notification by the Department, the right holder
 - shall install a lockable device of a type acceptable to the
 - Department in a manner that will provide the watermaster suitable
 - control of the diversion.
- 27A - The Director retains jurisdiction to limit diversion of water to
 - in-house uses only.

Remarks: GEN Water shall not be diverted under this right when flows in the
Payette River are below established minimum stream flows.
Domestic use is for 1 home.

Re: Application for Permit Nos. 65-13978 and 65-13986

Dear Applicant:

Enclosed are protests filed against the issuance of a permit pursuant to the above-referenced applications.

The following are the criteria the department must consider in either approving or denying an application for permit (per Section 42-203A, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

The department suggests you contact the protestant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest. Direct, sincere conversation between the parties prior to initiation of formal proceedings can often resolve a protest.

This office will shortly schedule a conference if the matter is not resolved informally. At the conference, the department will review possibilities for resolution of the protest. If the matter cannot be resolved at that time, a formal hearing will be arranged for a future date.

Please contact this office if you have questions regarding this procedure.

Sincerely,

Gary Spackman

Re: Application for Permit Nos. 65-13978 and 65-13986 in the Name of Carol Lynn MacGregor

Dear Protestant:

This office acknowledges receipt of your protests to the issuance of a permit pursuant to the above referenced applications.

The following are the criteria the department must consider in either approving or denying an application for permit (Section 42-203A, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

The department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the applications and to attempt to resolve the protests. Direct, sincere conversation between the parties prior to initiation of formal proceedings can often resolve a protest.

This office will not schedule a conference immediately, but assumes these applications will be heard with two earlier applications numbered 65-13912 and 65-13913 filed by Carol Lynn MacGregor, and protested by Pancheris. If my assumption is incorrect, please request a prehearing conference. Please contact this office if you have questions regarding this procedure.

If this office can be of further assistance, please contact us.

Sincerely,

Gary Spackman

IN THE MATTER OF APPLICATION	)	
FOR PERMIT NO. 65-13978	)	NOTICE OF PROTEST TO APPLICATION
IN THE NAME OF CAROL LYNN	)	FOR PERMIT NUMBER 65-13978
MACGREGOR.	)	
_____	)	

Duane and Laura Pancheri and Darwin and Joan Pancheri ("Pancheris"), by and through their attorneys of record Elam & Burke, P.A., hereby file this notice of protest to Application for Permit Number 65-13978, filed in the name of Carol Lynn MacGregor ("MacGregor"). This Notice is brought in accordance with Idaho Code § 42-203A and IDAPA 37.01.01.250. MacGregor's Application for Permit 65-13978, is located in Township 13 North, Range 3 East, Section 14, which is adjacent to the section which contains the points of diversion for two of the Pancheris' rights. (Exhibit A to Affidavit of Counsel, filed concurrently herewith and with the Notice of Protest to Application for Permit Number 65-13986). Given that close proximity, the Pancheris are concerned

NOTICE OF PROTEST TO APPLICATION FOR PERMIT NUMBER 65-13978 - 1

MICROFILMED

SEP 19 2001

about the potential injury Application for Permit 65-13978, if approved, might cause to the Pancheris' already existing senior water rights.

In order to resolve the Pancheris' protest, the Pancheris respectfully request that the Idaho Department of Water Resources either deny Application for Permit 65-13978 in its entirety, or else place conditions upon approval of that Permit that will insure that the Pancheris' water rights are not injured by approval of Application for Permit 65-13978.
