PROOF OF BENEFICIAL USE

RECEIVED

JUN 13 2000

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 65-13975 Telephone No. (630) 837-3756
2. Name of Permit Holder(s): William A. Alden
3. Mailing Address 221 S. Hickory Ave.
City Bartlett State IL Zip 60103
4. Source of Water: Middle Fork Payette River If GROUNDWATER (well), Date Drilled: mo. ____ / yr. ____
Well Driller: _____ Drilling Permit Number: _____
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): Future Single Family Home Stockwater (No. and type of stock): N/A
Irrigation (No. of acres): 1 acre Other: _____
6. Total rate of diversion and/or volume for which proof is submitted: 0.03 cfs OR _____ acre-feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional Please check either yes or no Proofs returned not checked accordingly, will be considered incomplete)
Measuring Device: Is a measuring device required? Yes _____ or No X
Has the measuring device been installed? Yes _____ or No _____
8. Fee Enclosed: \$ 50 (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: *Kurt Svenson Telephone Number: (208) 462-5100
Address: 509 Middlefork Rd; Garden Valley, ID 83622
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder

(include your title, if on behalf of company or organization)

Date: June 5, 2000

* Please contact Kurt Svenson who constructed the irrigation system for me to be sure all of your requirements have been completed. Initial water use to get additional trees started.

DEPARTMENT OF WATER RESOURCES
REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

JAN 14 2002

Department of Water Resources

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No 65-13975
Name(s) of Permit Holder William A. Aloen
Address 221 S. Hickory Ave. City Bartlett State Ill. Zip 60103
Telephone No (630) 837-3756 Date Proof is Due Feb. 1, 2003

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

2" intake to pump (pumphouse); 2" buried PVC line up bank and
along South lot line with five 2"x1" tees with 1" ball valves and
nipples spaced 30' apart (For distribution to prepared
sprinkler lines and heads.)

Costing \$ 1,900.00
(Not including labor)

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Winter set in with snow cover before work could be
completed.

Permit holder(s) request an extension to Feb. 1, 2003

(Signature)

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be

APPROVED and the time within which to submit proof of beneficial use is extended
to February 1, 2003.

Signed this 6th day of February, 2003

MICROFILMED

L. Glen Saxton
L. GLEN SAXTON, Chief
Water Allocation Bureau

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
INSTRUCTIONS FOR EXTENSION OF TIME REQUEST
TO SUBMIT PROOF OF BENEFICIAL USE

If the water right development authorized by your permit is not complete and you need more time to submit proof of beneficial use of water under your permit, please read the following:

Under the provisions of Section 42-204, Idaho Code, the department can extend the proof due date of your permit only once, and then only if you can demonstrate that you have been pursuing development of the permit with due diligence.

The Request for Extension of Time form requires that you indicate the extent of development that has occurred, the cost, and the reason(s) the work has not been completed. This information must be provided in enough detail to show due diligence. Examples of work performed are: well drilled, pump installed, 10 acres now irrigated, fish propagation ponds constructed, sprinkler system purchased, etc.

If no work has been accomplished, the statutes provide that the Request for Extension of Time must be denied. **Lack of financial resources, the state of the economy or personal illness usually cannot be considered adequate reasons to approve a Request for Extension of Time.**

EXCEPTIONS TO ONLY ONE EXTENSION

The proof due date for a permit that has not been developed for one of the following reasons may be granted one or more extensions of time even though no work has been accomplished:

- When there is a lack of a required consent or final approval from a federal government agency (**evidence of delay must be submitted with the request**), i.e. right-of-way easement or land classification such as Desert Land Entry or Carey Act.
- When litigation related to title of the water has prevented development of the permit (**evidence must be submitted with the request**).
- When the water project is of a large scale -- storage of more than 10,000 acre-feet or diversion of more than 25,000 acre-feet in one irrigation season for an irrigation project of at least 5,000 acres.
- When the water right permit is held by the United States of America (**reason for request must be submitted**).

A non-refundable filing fee of **\$50.00** must accompany the Request for Extension of Time form.

NOTE that in no case should a Proof of Beneficial Use form and a Request for Extension of Time form both be submitted. If your water development project is completed, then the proof of beneficial use form should be completed and returned. If the project is started but not completed, then the Request for Extension of Time form should be completed and returned in compliance with the guidelines above. If the project has not been initiated and does not fit into one of the exceptions listed above, then neither form should be returned and the permit will lapse and become of no further force nor effect.

Department of Water Resources
Permit to Appropriate Water

NO. 65-13975

Priority 10/16/2000

Maximum Diversion Rate: 0.03 CFS

This is to certify, that WILLIAM ALDEN
221 S HICKORY AVE
BARTLETT IL 60103

has applied for a permit to appropriate water from:

MIDDLE FORK PAYETTE RIVER tributary to **PAYETTE RIVER**

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	03/15 to 10/31	0.03 CFS

LOCATION OF POINT(S) OF DIVERSION:

PAYETTE RIVER SE1/4SE1/4 Sec. 27, Twp 10N, Rge 04E, B.M. BOISE County

PLACE OF USE: IRRIGATION

Twp Rge Sec	NE				NW				SW				SE				Totals
	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
10N 04E 27																10	10

Total Acres: 1

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **February 01, 2002**
2. Subject to all prior water rights.
3. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
4. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
5. Prior to the diversion of water under this right a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
6. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
7. Water shall not be diverted under this right when flows in the Payette River are below established minimum stream flow amounts
8. Place of use is located within Lot 4, Pine Tree Ranch #11.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 8th day of February, 2001

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13975

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Upon my review of your water right permit, I find that prior to diversion of water under this right a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department, according to Conditions of Approval numbered paragraph 5 on your permit. I recommend that this condition be completed prior to the field examination in order to avoid delay of the examination and licensing of this right. You may contact the watermaster for State Water District No. 65 to obtain his recommendations of these requirements. However, if you have complied with these requirements, please disregarding this mention.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

MICROFILMED

JUL 1 0 2002

If you have any questions regarding this letter or the proof, you can contact me at (208) 327-7953. If you have questions concerning the field examination, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

A handwritten signature in cursive script that reads "Deborah J. Gibson".

RE: PERMIT NO. 65-13975

Dear Permit Holder:

I have enclosed a copy of the approved request for extension of time submitted in connection with the above referenced permit that extends the time within which to submit *proof of beneficial use* to **February 1, 2003**. Please note that the department granted the extension based on due diligence. Therefore, it is important that you work diligently towards completion of the project since the department **may not** be able to grant future extension requests based on due diligence.

Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact this office or any regional office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please contact the department, if you have any questions regarding this matter.

Sincerely,

Deborah J. Gibson

PROOF DUE NOTICE

RE: PERMIT NO. 65-13975

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 01, 2002. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Admin. Assistant
Water Allocation Bureau

RE: Permit No 65-13975

Permit Approval Notice

Dear Permit Holder.

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use'. Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

A handwritten signature in cursive script, reading "Kari Lynn Townsend", written over a horizontal line.

**Kari Lynn Townsend
Secretary**

**MICROFILMED
MAY 03 2001**

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure *within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order*, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Dear Sir:

Enclosed are copies of the above-referenced applications that the proposed use is from surface water. Please review the applications and submit any comments you may have.

This office normally completes the processing of an application within a six-week period and is required to take final action shortly thereafter. However, if your agency desires to file a formal protest against the approval of this application(s), your written protest along with the \$25.00 protest fee must be received in this office by December 4, 2000.

If you have any questions regarding the application, please contact this office.

Sincerely,

A handwritten signature in black ink that reads "Gary Spackman".

Name of Applicant

William Alden

Mailing Address

221 S. Hickory Ave.
Bartlett, IL 60103

Application No.
(if known)

65-13975

 IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

 PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

☒ WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

Re: Application for Permit

Dear Mr. Alden:

We discussed revising or amending your application in our telephone call today. Enclosed is the original form with the suggested changes. I forgot to mention that irrigation applications generally include the standard irrigation season. The standard for the area in question is shown on the form.

The "request to process" form and its letter of explanation are also enclosed regarding possible future mitigation related to anadromous fish migration. Simply sign and date the form and include it with your reply. Later in the water right process you will most likely be contacted by this agency or by the Payette River watermaster regarding more immediate mitigation based on the availability of water in the Payette River system. More immediate mitigation is related to the impact of new uses on senior downstream water rights in the Payette system.

Your initials and the current date next to the "amended" stamp on the application form will confirm your approval of the changes. The application can be processed upon its return. Please make your response within thirty (30) days of the date of this letter. If the information is not timely submitted, the application will be removed from the records of this agency. I will be glad to answer any questions you have about your application. Thank you for your attention to these matters.

Sincerely,

Steve Lester
Water Rights Supervisor
