MAY 10 2002

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT	)	
NO 65-13957 IN THE NAME OF	)	ORDER GRANTING PETITION
BOB ALBRECHT AND/OR	)	TO REMOVE MEASURING
SHELLY ALBRECHT	)	DEVICE REQUIREMENT
_____	)	

This matter having come before the Department of Water Resources (Department) as a petition to remove a measuring device requirement and lockable controlling works, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On August 24, 2000, the Department issued Permit 65-13957 (permit) to Bob Albrecht and/or Shelly Albrecht (permit holder) with a condition of approval requiring the installation lockable controlling works as part of the diversion works.
2. On October 22, 2001, the Department received the recommendation of the watermaster of Water District No. 65 that the lockable controlling works requirement be waived.
3. Installation of lockable controlling works for the permit is not necessary at this time but may be necessary in the future.

CONCLUSIONS OF LAW

The Department should waive the lockable controlling works requirement until such time as it is necessary for regulation of the water right.

ORDER

Approval condition no 5, which requires the permanent installation of lockable controlling works as part of the diversion works for the permit, is **MODIFIED** as follows:

Upon specific notification by the Department, the right holder shall install lockable controlling works of a type acceptable to the Department in a manner that will provide the watermaster suitable control of the diversion.

Dated this 14th day of November, 2001.

NOV 26 2001

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

RECEIVED

AUG 23 2001

Department of Water Resources

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 65-13957
Name(s) of Permit Holder Bob L Albrecht / Shelly Albrecht
Address 20 Woaled River Dr. City Crouch State Id Zip 83622
Telephone No. 462-3900 / 866-2958 Date Proof is Due September 01, 2001

Describe what work has been completed toward the development of this water right:

(This must be filled out! If no work has been completed, show "none".)

3" Suction line (PVC & Flexible Hose) from the River to pump location,
3" PVC Main Trunk line with 2" PVC & 1" Polyethylene lines to
approximately 64 3/4" Impact rainbird Sprinkler heads including
8 2" Electric Zone Valves & Wiring. (Backfill is lacking
is sitting & hooking up pump & timer) Costing \$ 5,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Part of the work on the Subject Property has been to
Construct a 60'x44' barn where, among other things the pump
will be located - I anticipate completing the barn around Sept 1
at that time I would like to proceed with the Sprinkler/landscaping
work as long as weather permits

Permit holder(s) request an extension to June 30, 2002

(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be

APPROVED and the time within which to submit proof of beneficial use is
extended to September 1, 2002.

Signed this 28th day of August, 20 01

L. Glen Saxton
L. GLEN SAXTON, Chief
Water Allocation Bureau

MICROFILMED

NOV 23 2001

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
INSTRUCTIONS FOR EXTENSION OF TIME REQUEST
TO SUBMIT PROOF OF BENEFICIAL USE

If the water right development authorized by your permit is not complete and you need more time to submit proof of beneficial use of water under your permit, please read the following:

Under the provisions of Section 42-204, Idaho Code, the department can extend the proof due date of your permit only once, and then only if you can demonstrate that you have been pursuing development of the permit with due diligence.

The Request for Extension of Time form requires that you indicate the extent of development that has occurred, the cost, and the reason(s) the work has not been completed. This information must be provided in enough detail to show due diligence. Examples of work performed are: well drilled, pump installed, 10 acres now irrigated, fish propagation ponds constructed, sprinkler system purchased, etc.

If no work has been accomplished, the statutes provide that the Request for Extension of Time must be denied. **Lack of financial resources, the state of the economy or personal illness usually cannot be considered adequate reasons to approve a Request for Extension of Time.**

EXCEPTIONS TO ONLY ONE EXTENSION

The proof due date for a permit that has not been developed for one of the following reasons may be granted one or more extensions of time even though no work has been accomplished:

- When there is a lack of a required consent or final approval from a federal government agency (**evidence of delay must be submitted with the request**), i.e. right-of-way easement or land classification such as Desert Land Entry or Carey Act.
- When litigation related to title of the water has prevented development of the permit (**evidence must be submitted with the request**).
- When the water project is of a large scale – storage of more than 10,000 acre-feet or diversion of more than 25,000 acre-feet in one irrigation season for an irrigation project of at least 5,000 acres.
- When the water right permit is held by the United States of America (**reason for request must be submitted**).

A non-refundable filing fee of \$50.00 must accompany the Request for Extension of Time form.

***NOTE** that in no case should a Proof of Beneficial Use form and a Request for Extension of Time form both be submitted. If your water development project is completed, then the proof of beneficial use form should be completed and returned. If the project is started but not completed, then the Request for Extension of Time form should be completed and returned in compliance with the guidelines above. If the project has not been initiated and does not fit into one of the exceptions listed above, then neither form should be returned and the permit will lapse and become of no further force nor effect.*

Department of Water Resources

Permit To Appropriate Water

NO. 65-13957

Priority: July 5, 2000

Maximum Diversion Rate:

0.03 CFS

This is to certify, that **BOB ALBRECHT**
SHELLY ALBRECHT
20 WOODED RIVER DR
CROUCH ID 83622

has applied for a permit to appropriate water from:

PAYETTE RIVER, MIDDLE FORK tributary of **PAYETTE RIVER, SOUTH FORK**

and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
-----------------------	----------------------	--------------------------

IRRIGATION	03/15 to 10/31	0.03 CFS
------------	----------------	----------

LOCATION OF POINT(S) OF DIVERSION:

SENW , Sec. 23, Township 10N, Range 04E
BOISE County

PLACE OF USE: IRRIGATION

<u>TWN RGE SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
10N 04E 23	SENW 1.0			1.0

Total number of acres irrigated: 1.0

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of application of water to beneficial use shall be submitted on or before **September 1, 2001**.
2. Subject to all prior water rights.
3. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
4. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
5. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion.
6. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
7. Place of use is located within Lot 3, Wooded River Subdivision.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13957

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. However, you have stated on the proof form that the total rate of diversion is presently .15 cfs. The amount presently permitted under this right is .03 cfs. If that increase is not covered by another water right, then you should apply for this and other future expansions under a separate permit.

The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190, or me at (208) 327-7953.

Sincerely,

Deborah J. Gibson

Re. Permit Number 65-13957

Dear Mr. Albrecht,

I have received your request for a waiver from the lockable controlling works and measuring device requirements on your water right permit. You stated in your letter that the reason you want a waiver from this requirement is that the diversions are for the irrigation of lawns on your property.

Due to the fact that the diversion is small in quantity and it would be unlikely Water District No. 65 would need to measure or lock this diversion in order to control the permit, I am recommending that the installation of a measuring device and a lockable controlling works for this diversion be waived by the Idaho Department of Water Resources.

I am, however, retaining the right to require these conditions for this water right permit if Water District No. 65 began regulating your diversion from the Middle Fork of the Payette River in the future.

If you have any additional questions regarding the administration of your water right permit, please do not hesitate to call on me.

Sincerely,

Mark Limbaugh, Watermaster

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the time within which to submit proof of beneficial use of water to **September 1, 2002**.

Please note that the department granted this extension based on **due diligence**. It is important that you work diligently toward the completion of this project during the construction period allowed since the department may not be able to grant additional extensions based on due diligence.

Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please feel free to contact the department if you have questions.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13957

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 01, 2001. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Admin. Asst.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13957

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control on your diversion.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's

CERTIFICATE OF MAILING

I hereby certify that on the 25th day of **August, 2000**, I mailed a true and correct copy, postage prepaid, of the foregoing **PRELIMINARY ORDER (Approved Permit)** to the person(s) listed below:

Water Right No. 65-13957

BOB ALBRECHT
SHELLY ALBRECHT
20 WOODED RIVER DR
CROUCH ID 83622

Kari Lynn Townsend
Secretary

AUG 24 2000

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01 01302 and 37.01 01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

 IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

 PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

 / WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

Re: Application For Permit

Dear Applicants:

Enclosed is your application for permit received by Idaho Dept. of Water Resources (IDWR) 6/22/2000. The following changes have been made to correspond to Department standards:

1. The quarters were added to complete your legal description.
2. IDWR allows 1 ½ inches per acre for acreages that are 5 acres or less. 1 ½ inches is equivalent to .03 cfs per acre.
3. The season for irrigation in that part of Boise County is 3/15 to 10/31.
4. Based on your attached plat map, the location of the point of diversion and the place of use were further described on the attached topo map. Please confirm or correct.

Please initial the clarifications and also sign the enclosed "Request to Process" form. Return both documents to my attention within 30 days from the date of this letter. Your priority date will be the date the completed documents are received by this office. If the above request is not timely submitted, IDWR will remove your application from its records.

Please contact me if you have any questions.

Sincerely,

Lori Graves
Sr. Allocations Agent
