APPLICANT: Stockwater is for 6 horses and 2 cows. Applicant owns a portion of overlapping water right 65-10459, but have not submitted a change of ownership form yet.

IDWR REVIEW: The applicants wish to develop a small pond for stockwater purpose (under 1/2 acre) and use it for irrigation if water right 65-10459 is not delivered. The pond is small enough that a irrigation storage right will not be needed. It can be drained within a 24 hour period. The applicant will also run a line from the pond down to the barn to supply stockwater.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13950

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah J. Gibson

PROOF DUE NOTICE

RE: PERMIT NO. 65-13950

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 01, 2001. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Administrative Assistant

PERMIT APPROVAL NOTICE

RE: PERMIT 65-13950

Dear Permit Holder(s):

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit

The permit is a **preliminary order** issued by IDWR pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.**

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
OCT 12 2000

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: APPLICATION FOR PERMIT FOR A SPRING

Dear Mr. and Ms. Hileman:

We received your application for permit on 3/30/2000. I spoke with you about your application on 4/18/2000 about additional information needed to complete the application and tried to set up an appointment. You called me later and requested that I send you this letter to clarify your application. There is a great deal of information and clarification required and I will try to address it all. However, we still may need to contact you later for further clarification. The following issues need addressed.

- 1.) **SECTION 2** – You neglected to put the name of the tributary on your application. If the water does not enter a named waterway and sinks into the ground, then the tributary would be “SINKS”.
- 2.) **SECTION 4** – The water use given in this section is Stockwater for .20 cfs. The maximum allowable diversion rate for stockwater for 6 horses and 2 cows is .02 cfs. This will need to be corrected. You also show that you plan to construct a pond. In order to construct a pond for stockwater you would need to include “Stockwater Storage” for .1 acre-feet, the size of your pond. If you are taking the water from the spring through a ditch to the pond, you would also need “Diversion to Storage” for the rate of water flowing into the pond in cubic feet per second (cfs). If you divert water from the pond to the barn then you would need a “Stockwater From Storage” for .1 acre-feet the size of the pond. In section 9 you show 5 acres of irrigation, but no irrigation component is shown in section 4. Therefore, if you plan to irrigate the 5 acres from the spring, you will need to add “Irrigation” for up to .15 cfs. The season of use for the stockwater and storage would be from 1/1 to 12/31. The season of use for the irrigation would be from 3/15 to 10/31. You will not need to include irrigation storage since the pond could be emptied in less than 24 hours at the diversion rate of .15 cfs.
- 3.) **SECTION 6b** – In this section you did not put the active reservoir storage capacity. To attain this number you multiply the depth by the width by the length and divide by the conversion factor of 43560. Therefore, the active storage capacity of the pond would be $20 \times 30 \times 4 = 2400$ cubic feet / 43560 = .1 acre-feet storage capacity.

ENCLOSURE

5/3/2000

Page 2
Hileman

- 4.) **SECTION 9** – On section 9 you will need to include the government lot number of this $\frac{1}{4}$ $\frac{1}{4}$ section. It should be the same lot number (lot 3) that was used for the point of diversion. Simply place a lt-3 in the space. If you do not plan to irrigate from the pond then you will need to remove the 5 acres listed on this table.

I will also need to know if there are other water rights on the property. I have found 4 water rights on this property. The first is a groundwater right for domestic use in the name of Therese and Patrick Day. The second is a groundwater right for domestic use in the name of Darl and Kari Allred. The third is an Anderson Creek right for irrigation of 17 acres in the name of Sterling Alley. The fourth is an Anderson Creek right for irrigation of 10 acres in the name of Therese and Patrick Day. Please let me know if any of these rights are associated with your property.

You will also need to complete the enclosed Request to process form. You will need to choose one of the three choices on the form. The letter attached to the form explains the form in detail.

I have enclosed a copy of your original application for permit and a new application form. You can either draw a single line through any corrections and initial and date additions to the original form or you may fill out the new application for with the corrections. After you have completed the form please return it to the above address C/O Dan Nelson.

In order to process all of the applications in our office as efficiently as possible, I am required by Idaho Code § 42-204 to ask that this information be returned to my office within 30 days. Our office will be required to void the application for permit if this information is not returned. **Therefore, if the above information is not received by 6/5/2000 your applications for permit will be voided.** You will be able to re-file this application, but it will have a later priority date.

I have given you a great deal of information to work on. I am available to set an appointment up with you to go over this information if needed. If you have any questions or concerns please contact me at the above address.

Respectfully,

Daniel A. Nelson
Sr. Water Right Agent

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

X WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.
