Subject: Location of well under Permit 65-13921 and Rt. 65-12332

Hi, Steve I was preparing a license for Permit 65-13921, which was examined by Richard in the office, and found that the locations identified on the permit do not agree with the copy of map submitted by applicant when permit was applied for. There is only one map in the file which is a subdivision map submitted by applicant and when going into Arc View to update p/d and p/u I think the legals should be SWNE rather than NWSE Shelley suggested contacting you and request if someone from your office goes up to Valley County we get a GPS reading of the location of the p/d. If the well is located in SWNE then the place of use for both the above rights will be in SWNE too. Would you like me to send the exam back to your office or just wait until a GPS reading is taken and forwarded to me? Let me know Kay

65-13921

1. kwalker 3/20/01 Field Exam Review

Comment: In trying to prepare a license for this right, I found that the point of diversion and place of use may be in a different 40 acre tract than examiner recommended. I also think that Rt 65-12332 which is from the same well may be located incorrectly Will request a GPS reading on the well when someone from region goes out to Valley County

2. DNELSON 12/14/99 ADDITIONAL INFORMATION

Comment APPLICANT. This application is for same well listed on water right 65-12332 Place of use also known as 44 Ridgeview, Lot 6, Block 3, Subdivision 7, Crown Point Subdivision. Well is located in Lot 6. IDWR REVIEW: Location of place of use and point of diversion is very close to the dividing line between the NE 1/4 and SE 1/4 of section 14. Place of use and point of diversion could be in either 1/4. NWSE was used per previous license.

E. NARRATIVE/REMARKS/COMMENTS

Confirmed per telephone conversation with county assessor that David and Susan Harvey own Lots 5 & 6 of Block 3 in Crown Point Subdivision No. 7. These lots are located in the NWSE of Section 14, Township 14N, Range 03E. There is one home on each lot. One well, located in Lot 6, serves both homes.

The home in Lot 6 is licensed (65-12332) for domestic use at a diversion rate of 0.04 cfs. The purpose of this permit (65-13921) is to create a water right for domestic use. If the permit holders sell Lot 6 in future, they want to retain the right to draw water from the well for the home located in Lot 5.

I recommend that this permit be licensed for 0.04 cfs with an annual volume of 1.2 AF. The license should be conditioned such that the combined diversion rate of 65-12332 and 65-13921 shall not exceed 0.04 cfs. Also include a condition which states that the issuance of this right does not grant any right-of-way or easement across the land of another.

Have the conditions of permit approval been met? X YES NO

F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measurement Method: *Theoretical – using information from well driller's report and the permit holder*

Assuming a pressure of 20 psi. From the well driller's report the pumping level is 120 feet.

$$Q = [8.8 \times 1\text{-hp} \times 0.70] / [110\text{-ft} + 2.31 \times 20 \text{ psi}] = 0.039 \text{ cfs}$$

Allow 0.04 cfs.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation: N/A

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} =$$

2. Volume Calculations for Other Uses:

Allow 1.2 AFA for D/1.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13921

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah Drew-Ellis

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13921

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. **A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below.**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

CERTIFICATE OF SERVICE

All documents intended to be part of the Department record in connection with a preliminary order shall be served upon the representatives of each party of record. Every document filed with and intended to be part of the agency record must be attached to or accompanied by proof of service by the following or similar certificate.

I HEREBY CERTIFY (swear or affirm) that I have this day of _____, served the foregoing (name(s) of document(s)) upon all parties of record in this proceeding, (by delivering a copy thereof in person: (list names)) (by mailing a copy thereof, properly addressed with postage prepaid, to: (list names)).

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when (a) the petition for reconsideration is disposed of; or (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

RIGHT TO HEARING

Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department is otherwise provided by statute, any person aggrieved by any decision, determination, order, or action of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the Department, who is aggrieved by a denial or conditional approval ordered by the Department, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the Department to contest the denial or conditional approval upon filing with the Department, within fifteen (15) days after receipt of the denial or conditional approval, a written permission stating the grounds for contesting the action by the director and requesting a hearing.

APPEAL OF FINAL ORDER TO DISTRICT COURT

If a preliminary order becomes final, any party aggrieved by the final order or orders previously issued in the case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which (a) a hearing was held, or (b) the final agency action was taken, or (c) the party seeking review of the order resides, or (d) the real property or personal property that was the subject of the agency action is located. The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. See Sections 67-5270 through 67-5273, Idaho Code.
