STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
REQUEST FOR EXTENSION OF TIME RECEIVED
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF FEB 22 2001
BENEFICIAL USE FOR A WATER RIGHT PERMIT
Department of Water Resources

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No 65-13906
Name(s) of Permit Holder Church of the Nazarene Intermountain District
Address P.O. Box 1159 City Nampa State ID Zip 83653
Telephone No. 208 467-3714 Date Proof is Due: March 1, 2001

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Per Attached
Costing \$

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Per Attached

Permit holder(s) request an extension to March 1, 2006

Derry K. Mart
(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be
APPROVED and the time within which to submit proof of beneficial use
is extended to March 1, 2006.

Signed this 23rd day of February, 20 01

L. Glen Saxton
L. GLEN SAXTON, CHIEF
WATER ALLOCATION BUREAU

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
INSTRUCTIONS FOR EXTENSION OF TIME REQUEST
TO SUBMIT PROOF OF BENEFICIAL USE

If the water right development authorized by your permit is not complete and you need more time to submit proof of beneficial use of water under your permit, please read the following:

Under the provisions of Section 42-204, Idaho Code, the department can extend the proof due date of your permit only once, and then only if you can demonstrate that you have been pursuing development of the permit with due diligence.

The Request for Extension of Time form requires that you indicate the extent of development that has occurred, the cost, and the reason(s) the work has not been completed. This information must be provided in enough detail to show due diligence. Examples of work performed are: well drilled, pump installed, 10 acres now irrigated, fish propagation ponds constructed, sprinkler system purchased, etc.

If no work has been accomplished, the statutes provide that the Request for Extension of Time must be denied. **Lack of financial resources, the state of the economy or personal illness usually cannot be considered adequate reasons to approve a Request for Extension of Time.**

EXCEPTIONS TO ONLY ONE EXTENSION

The proof due date for a permit that has not been developed for one of the following reasons may be granted one or more extensions of time even though no work has been accomplished:

- When there is a lack of a required consent or final approval from a federal government agency (evidence of delay must be submitted with the request), i.e. right-of-way easement or land classification such as Desert Land Entry or Carey Act.
- When litigation related to title of the water has prevented development of the permit (evidence must be submitted with the request).
- When the water project is of a large scale – storage of more than 10,000 acre-feet or diversion of more than 25,000 acre-feet in one irrigation season for an irrigation project of at least 5,000 acres.
- When the water right permit is held by the United States of America (reason for request must be submitted).

A non-refundable filing fee of \$50.00 must accompany the Request for Extension of Time form.

NOTE that in no case should a Proof of Beneficial Use form and a Request for Extension of Time form both be submitted. If your water development project is completed, then the proof of beneficial use form should be completed and returned. If the project is started but not completed, then the Request for Extension of Time form should be completed and returned in compliance with the guidelines above. If the project has not been initiated and does not fit into one of the exceptions listed above, then neither form should be returned and the permit will lapse and become of no further force nor effect.

State of Idaho
Department of Water Resources
Permit To Appropriate Water

NO. 65-13906

Priority: September 3, 1999

Maximum Diversion Rate:

0.80 CFS

This is to certify, that **CHURCH OF THE NAZARENE**
INTERMOUNTAIN DISTRICT
PO BOX 1159
NAMPA ID 83653

has applied for a permit to appropriate water from: **GROUNDWATER**

and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	04/15 to 10/31	0.80 CFS

LOCATION OF POINT(S) OF DIVERSION: Lot 5 (NENW), Sec. 6, Township 13N, Range 04E
VALLEY County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
13N	04E	6	Lot 5 (NENW) 20.0	Lot 9 (SENW) 20.0		40.0

Total number of acres irrigated: 40.0

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of application of water to beneficial use shall be submitted on or before **March 1, 2001**.
2. Subject to all prior water rights.
3. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
4. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
5. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
6. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
7. Place of use is known as Trinity Pines Camp.

RE: PERMIT NO. 65-13906

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the time within which to submit proof of beneficial use of water to **March 1, 2006**.

Please note that the department granted this extension based on **due diligence**. It is important that you work diligently toward the completion of this project during the construction period allowed since the department **may not** be able to grant additional extensions based on due diligence.

Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please feel free to contact the department if you have questions.

Sincerely,

Deborah J. Gibson
Administrative Assistant

RECEIVED

**State of Idaho
Department of Water Resources
Request for Extension of Time
Attachment A**

FEB 22 2001

Department of Water Resources

Permit No. 65-13906

Name of Permit Holder: Intermountain District Advisory Board Church of the Nazarene, Inc.
P.O. Box 1159
Nampa, ID 83653

Telephone Number: 467-3714 **Date Proof is Due:** March 1, 2001

Describe what work has been completed toward the development of this water right:

The property appurtenant to the water permit is a 198-acre parcel of ground located within the City of Cascade, Idaho. The property was purchased approximately five years ago by the Intermountain District Advisory Board Church of the Nazarene, Inc. ("Church"), for use as a youth church camp. The Church has purchased the property (at a cost of \$600,000), annexed the property into the City of Cascade, obtained proper zoning and a proper conditional use permit from the City of Cascade, extended all necessary infrastructure (water, sewer, electricity) to the property (at a cost of \$600,000), built two cabins (at a cost of \$120,000), and is building a 25,000-square foot dining hall (at a cost of \$1.2 million). The Church is attempting to complete all construction so that youth camping can begin in the summer of 2001.

The Church is proceeding with haste, since it has lost its prior campground property. If the new property is not developed immediately, the Church will lose its youth camping program for a year.

The Church has drilled a 480-foot well on its property, cased a portion of the well, and pressure-tested the well, all at a cost of \$10,000. The Church was able to complete this work because a single member of the Church made a \$10,000 contribution toward this specific project.

Once additional funds are available, the Church intends to install a pump, and utilize the water to irrigate or water the grounds of the camp.

The Church is attempting to locate a contributor to pay for the development of the grassed area on the property, which will allow the Church to fully develop the water right. Alternatively, and as funds become available to the Church, the Church intends to fully develop the water right.

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The Church has been unable to complete the remainder of the work for several reasons:

1. The Church is a charitable organization. As a result, funds are available only as Church members make contributions to the Church.
2. The Church has devoted all of its resources to the development of the youth campground which will immediately allow camping--i.e., purchase of the property, development of the infrastructure, and development of buildings on the property. Prioritization of the Church's use of funds has been a critical element in the development of the property.
3. While \$10,000 was contributed to the Church to allow the drilling of the well, additional contributions will be required to allow the Church to proceed in developing the water right further.
4. The Church fully intends to use reasonable diligence to complete the remainder of the work--i.e., to install a pump, and to distribute the water on the property--especially to a grass field which will be the athletic field on the property. The Church requests a five-year extension, so as to allow that development to occur as funds are available, and so as to avoid further requests for extension of time to the Department of Water Resources.

Permit holder(s) request an extension to March 1, 2006.

Intermountain District Advisory Board Church of the Nazarene, Inc.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13906

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 01, 2001. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Administrative Assistant
Water Allocation Bureau

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13906

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

MICROFILMED

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

12 2000

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley Keen". The signature is written in dark ink and is positioned above the typed name.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

FILE PRESENTATION

This application was processed prior to the January 12, 2000 memo "Changes to Water Right Applications." The old technique of making application changes was used.

To avoid additional processing delay, the file is forwarded as "one in the pipeline" with respect to that memo. The regional office anticipates that this will be acceptable for this limited group of applications.

Affidavit of Publication

STATE OF IDAHO

COUNTY OF VALLEY

I, Robin M. Simpson, being duly sworn deposes, and says, I am the Publisher of The Long Valley Advocate, a weekly newspaper published at Cascade, in Valley County, Idaho; and having a general circulation therein and of legal status in said county.

The water rights app 65-13906, a copy of which is attached hereto; was published in said newspaper once a week for 2 consecutive weeks in the regular and entire issue of every number thereof during the period and time of publication, and was published in the newspaper proper and not in a supplement; and that publication of such notice began 12/15, 1999, and ended 12/22, 1999.

Robin M. Simpson

REQUEST TO PROCESS

COMPLETE REQUEST IF YOU WANT YOUR APPLICATION TO BE PROCESSED USING ONE OF THE
THREE ALTERNATIVES BELOW

Name of Applicant Intermountain District Church of the Nazarene Advisory Board
Mailing Address P.O. Box 1159
Nampa, Idaho 83653
Application No. _____
(if known)

☒ IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

☐ PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

☒ WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.
