**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF LAPSED PERMIT)
NO. 65-13888 IN THE NAME OF)
NEW CENTURY PROMOTIONS, INC.)
_____)

REINSTATEMENT ORDER

This matter having come before the Idaho Department of Water Resources ("Department"), the Department makes the following Findings of Fact, Conclusions of Law and Order

FINDINGS OF FACT

1. On December 27, 1999, the Department issued Permit No. 65-13888 to New Century Promotions, Inc. ("permit holders") authorizing the diversion of 0.22 cubic feet per second (cfs) of water from the Middle Fork of the Payette River to be diverted for irrigation and stockwater within the SESE, Section 27, Township 10N, Range 04E, Boise County, B.M. A condition of permit approval required the permit holder to submit proof of beneficial use of water ("proof") to the Department on or before January 1, 2001.

2. On October 31, 2000, by certified mail, the Department notified the permit holder that proof of beneficial use was due and instructed the permit holder of the steps to be taken to submit the proof or an extension of time request.

3. On January 5, 2001, the Department sent the permit holder a lapse notice, since the Department had not received an acceptable proof or extension of time request.

4. On April 1, 2002, the permit holder submitted a completed proof form and the required license examination fee to the Department. The permit holder submitted evidence to show that water has been applied to the authorized beneficial use during the development period and has shown sufficient cause why the beneficial use was not timely submitted.

MICROFILMED

APR 15 2002

CONCLUSIONS OF LAW

1. Section 42-218a.2, Idaho Code, provides as follows:

That upon receipt of proof of beneficial use after sixty (60) days after such notice of lapsing, the director shall require sufficient evidence to be submitted by the permit holder to clearly establish the extent of beneficial use made during the time authorized by the permit and any extensions of time previously approved. Upon finding that beneficial use had occurred during the authorized period and upon a showing of reasonable cause for filing a late proof of beneficial use, the director may reinstate the permit with the priority date advanced to the day that proof of beneficial use was received;

2. The permit holder has provided sufficient information and reasonable cause for the Department to reinstate the permit by submitting invoices and receipts for sprinkler and irrigation equipment, invoice for labor installing sprinkler system, electrical bills showing agricultural, commercial, irrigation and residential uses during the development period.

3. The Department should reinstate the permit with the priority advanced to the date that proof and the license examination fee were received.

ORDER

IT IS HEREBY ORDERED, that Permit No. 65-13888 in the name of New Century Promotions, Inc. is **REINSTATED** with the priority advanced to **April 1, 2002**.

Dated this 20th day of June, 2002.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 65-13888 & 65-13889

Dear Permit Holder:

The department acknowledges receipt of the proofs of beneficial use forms submitted for the above-referenced permits.

Enclosed are two orders reinstating permits 65-13888 and 65-13889, since proof was submitted more than 60 days after the lapse notices were issued. Please note that the priority dates for both permits have been advanced to **April 1, 2002**, the date the proofs and license examination fees were submitted to the department, as provided in Section 42-218a(2), Idaho Code.

I wanted to bring to your attention two items that I found during the review of your proofs. First, on proof no. 65-13889 see paragraph no. 6, you stated a different amount for the diversion rate than was permitted. You stated that your diversion rate is 3.0 cfs, however, the permitted amount for this water right is .21 cfs. If you have developed permit no. 65-13889 to the 3.0 cfs, you must contact the Western Regional office as soon as possible to apply for a permit for the additional diversion rate. Secondly, proof for 65-13888 showed the correct diversion rate of .22 cfs. However, these two permits amount to a license exam fee of \$200 (\$100.00 each). You paid \$300, therefore, the department owes you \$100. With a copy of this letter, I am requesting our Fiscal department to issue you a check in the amount of \$100.00. It will come to you under separate cover to the above mailing address.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If

Mrs Gibson:

please find enclosed the requested invoices for equipment and installation of irrigation systems on each side of the river. In addition I have separated the power bills related to irrigation. I hope this additional information will be helpful and we look forward to the inspection.

Beneficial use in reference to both sides of the river commenced in the fall of 2000 through the fall of 2001. Should additional information be required to please let me know.

Re: Lapsed Permits Nos. 65-13888 & 65-13889

Dear Jack:

Thank you for coming in on May 14th, I really enjoyed meeting and talking to you. This is a follow-up letter to our conversation and to request more information. During our conversation, I asked if you could provide documentation that would tell me which electric bills were for what location or use, and for page 2 of the invoice from Valley Pump and Equipment Co., Inc.

Additionally, upon further review, I found that the Idaho Power statements you gave me reflected activity for seven (7) different accounts. If you could have Idaho Power provide a statement explaining which account goes to which well, preferably identified by a legal description, that information would be very helpful

Your help is greatly appreciated. I'll calendar this for 30-days for your response. If you have any questions, please contact me at (208)327-7953.

Sincerely,

RE: LAPSED PERMIT NO. 65-13888

Dear Permit Holder:

The department is in receipt of the proof of beneficial use statement and the license examination fee, which you submitted to the department on April 1, 2002, in connection with the above referenced lapsed permit.

Since the proof was received after the 60-day lapse period, the permit can be reinstated only if you submit the following information for department consideration:

- < **Two (2) pieces of evidence** to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period, i.e. from the time the permit was issued until the proof due date (December 27, 1999 to January 1, 2001).

In order to provide me the necessary evidence, you may submit drilling records, receipts from equipment purchased and/or installed, affidavits by individuals who witnessed the construction and the use of the system during the authorized development period.

Additionally, you overpaid the license exam fee for this water right by \$50.00. I prefer to settle the refund when all the paper work and processing is finalized. However, if you wish to have the refund sooner, let me know

The department will maintain the proof of beneficial use for **30 days** to provide you the opportunity to submit the required information. Please be aware that this permit is **lapsed** and is of no force nor effect unless it is reinstated.

LAPSE NOTICE

RE: PERMIT NO. 65-13888

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in the proof due notice dated October 31, 2000. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

Sincerely,

Deborah J. Gibson, Administrative Assistant
Water Allocation Bureau

RE: PERMIT NO. 65-13888 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 2001. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13888

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

**NOTICE OF PREHEARING
CONFERENCE**

On June 15, 1999, New Century Promotions, Inc. filed with the Department of Water Resources (IDWR) three applications for permit to appropriate the public waters of the State of Idaho. The applications were protested by H. Lloyd Kalblinger of Poke Flat Ranch, and Merrily Munther representing Pine Tree Ranch Subdivision

IDWR has scheduled a prehearing conference for the protest to be held on **Wednesday, October 27, 1999, at 10:00 a.m. at the Department of Water Resources, Western Region, 2735 Airport Way, Boise, Idaho 83705.** If there is a conflict with this date, IDWR requests that the applicant and the protestants submit to IDWR and to all parties, available dates during the month of October, 1999, for a prehearing conference within ten (10) days of this notice. If no response is received within ten (10) days, IDWR will assume that October 27, 1999, is acceptable.

The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Procedure of the Department of Water Resources, and Rules 40 and 45 of the adopted Rules and Regulations of Water Appropriation of the Department of Water Resources

The conference will be conducted in a facility which satisfies the accessibility requirements of the Americans with Disabilities Act. If you require special accommodations in order to attend,

participate in or understand the conference, please advise IDWR within (10) days prior to the conference.

CONFERENCE AND HEARING PROCEDURE

APPLICATION FOR PERMIT

Section 42-203A, Idaho Code, requires the department to consider the following issues in connection with an application for permit:

- 1) Will the proposed appropriation injure other water rights?
- 2) *Is the proposed water supply sufficient for the purpose for which it is sought to be appropriated?*
- 3) Was the application made in good faith or for delay or speculative purposes?
- 4) *Does the applicant have sufficient financial resources with which to complete the proposed project?*
- 5) Is the proposed appropriation in the local public interest, which is defined as the affairs of the people in the area directly affected by the proposed use?
- 6) Is the proposed use contrary to conservation of water resources within the state of Idaho?

BURDEN OF PROOF

The applicant has the initial burden of proof on issues 1, 2, 3, 4, & 6 above and must provide evidence for the department to evaluate these criteria.

The initial burden of proof on issue 5 above lies with both the applicant and protestant as to factors which they are most knowledgeable and cognizant. The applicant has the ultimate burden of persuasion, however, for this issue.

PROCEDURE

The department generally conducts an informal conference with the parties to determine the issues and to try to settle a protested matter before a hearing is scheduled. If a hearing is held, the department will issue a written decision based on the hearing record.

CONFERENCE

The purpose of a prehearing conference is to provide the opportunity for the parties and the department to familiarize themselves with a contested matter and to attempt to resolve the matter. At the conference, the department may also formulate and simplify the issues, identify documents to avoid unnecessary proof, exchange proposed exhibits or prepared testimony, limit witnesses, discuss settlement offers, schedule hearings, establish procedure at hearings and address other matters that may expedite orderly conduct and disposition of the proceeding or its settlement.

HEARING

The department will tape record the hearing. Copies of a hearing tape are available upon written request and the payment of the cost of reproducing the tape.

The hearing likely will be conducted by a hearing officer appointed by the Director rather than the Director himself. If so, the hearing officer will prepare a recommended order for the Director's consideration. Parties can file exceptions to a recommended order, briefs in support of the exceptions or may request oral argument. Parties may seek judicial review of any final order issued by the Director.

Parties may, by written stipulation, waive their right to a recommended order, particularly when a shortened decision process is desirable or necessary. Such a waiver does not eliminate any rights of the parties in connection with the final order of the Director and judicial review of the order.

EXHIBITS

A party who plans to offer an exhibit as part of the hearing record must provide a copy of the proposed exhibit to the parties and to the hearing officer prior to any scheduled hearing.

AMERICANS WITH DISABILITIES ACT

Subject: Improper and/or Illegal use of Water.

Dear Gary,
On Lot #2 of Subdivision "Pine Tree #11" a natural spring has been
taped. It is our concern that this may be an illegal act, and that no
permit for this activity has been acquired.

Enclosed is a picture of the suspect site. The picture shows a 6"
water pipe buried in the ground at the location of the spring and has
some type of hose running down the pipe.

The legal description of this Subdivision is as follows:
SE 1/4 of Section 27 and NE 1/4 of Section 34
T.10N R.4E B.M. Boise County, Idaho

Included is a Plat Map of the subdivision, showing the location of the
spring.

Re: Public Records Request Pursuant to Idaho Code §§9-338 et seq.

Dear Mr. Spackman:

I am requesting the opportunity to examine and copy the following records believed to be within your custody and control, all of which relate to property situated in the Northeast Quarter of the Southeast Quarter and the Southeast Quarter of the Southeast Quarter of Section 27, Township 10 North, Range 4 East of the Boise Meridian, north of Crouch, Idaho:

1. Permits or licenses to appropriate water, Nos. 65-13887, 65-13888 and 65-13889, and any other permits to appropriate water issued to New Century Promotions (NCP) or Jack Shirley, or its/his predecessors in interest, and applications for said permits, together with all supporting documentation submitted therewith, and all correspondence and records including reports of investigations relating to said applications.

2. All permits allowing stream channel alteration by NCP or Jack Shirley or its/his predecessors in interest, in the Middle Fork of the Payette River, and applications and supporting documents submitted to obtain the same, in connection with construction of a bridge across the Middle Fork and with the placement of boulders in the river as evidenced by the photographs submitted herewith.

3. Any permit allowing appropriation of water from an underground spring, evidenced by the enclosed photograph, issued to NCP or Jack Shirley or its/his predecessors in interest, together with applications and supporting documents submitted to obtain the same.

In the event permits or licenses have not yet been issued, we would look to receive records relating to applications, supporting documents, correspondence and other records relating to said applications.

In lieu of examination, we would be glad to receive copies of the records requested.

These documents are needed in order to file objections to the issuance of the above referenced permits or licenses by August 9, 1999; accordingly, we will anticipate your response not later than the three working days allowed by law.

Re: Temporary Use of Water

Dear Mr. Shirley:

The Idaho Department of Water Resources (IDWR) recently granted you a temporary permit for diversion of water from the Middle Fork of the Payette River for irrigation to establish willows and other riparian plants during the summer of 1999. Because I communicated with you indirectly by voice mail, you probably rented 40-50 acre-feet of storage water from the Payette River water supply bank to irrigate nine acres. I left you a message informing you that the total diversion authorized by the temporary approval is limited to five acre feet, and that use of the water is limited to the irrigation of the riparian area. I informed Mark Limbaugh that there was also a limitation on your use of water until you obtained a water right. You should communicate with Mark Limbaugh about any refund of your rental fee.

Sincerely,

Re: Use of Water From a Spring Located on Your Property in Garden Valley

Dear Mr. Shirley:

The Idaho Department of Water Resources (IDWR) received a complaint regarding development of a spring on property you own adjacent to the Middle Fork of the Payette River in Garden Valley, Idaho. The complaint was accompanied by a photograph showing a stand pipe and a hose extending out of the pipe. I asked Gene Gibson of this office to visit with you about the complaint when he met with you in Garden Valley a couple weeks ago.

Gene Gibson reported that the pictured structure is the exposed part of a buried spring collector located on your property. He stated that the spring was a source of water for an older domestic unit on your property, and that you intend to use the spring for domestic water in the future.

I have searched our water right records and cannot find any water right for the location of the spring. This includes the three pending water right applications.

This letter is a request for any information you may have regarding a recorded water right for the spring. If you cannot identify a recorded water right, you must file a new application for water right to divert water from the spring. Until you own a water right authorizing diversion from the spring, you should not divert water from the spring.

Respectfully,

Gary Spackman

Re: Application for Permit Nos. 65-13887, 65-13888, and 65-13889

Dear Applicant:

Enclosed are protests filed against the issuance of a permit pursuant to the above-referenced application.

The following are the criteria the department must consider in either approving or denying an application for permit (per Section 42-203A, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

The department suggests you contact the protestant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protests. Direct, sincere conversation between the parties prior to initiation of formal proceedings can often resolve the protests.

This office will shortly schedule a conference if the matter is not resolved informally. At the conference, the department will review possibilities for resolution of the protests. If the matter cannot be resolved at that time, a formal hearing will be arranged for a future date.

Please contact this office if you have questions regarding this procedure.

Sincerely,

Gary Spackman

6. Basis of protest (including statement of facts and law upon which the protest is based):
 - Applicant does not own all of property for which the permit has been applied;
 - Applicant does not intend to use the property for the purposes for which the application for permit states, and the intended use will threaten the quality of water and the public health, safety and welfare that minimum stream flow requirements are intended to protect
 - Applicant is prohibited from building 4 residences on the property by Boise County zoning ordinances, building ordinances, the subdivision ordinance, and by requirements of the Central District Health Department for sewage disposal
 - Applicant is presently in violation of the existing laws regarding appropriation of waters of the state of Idaho in that it has illegally diverted water from a spring on property which it owns immediately across the Middle Fork of the Payette River from the subject property

August 9, 1999

- Applicant is presently in violation of the Stream Channel Alterations Act and the rules administered thereunder by the Idaho Department of Water Resources
- The diversion rate exceeds guidelines of the Idaho Department of Water Resources
- Federal law prohibits ownership of farmland by nonresident aliens, and Protestant believes Applicant is a Panamanian corporation owned or controlled by nonresident aliens
- Protestant reserves the right to supplement this protest with additional statements of law and fact, provided advance notice is given to IDWR and applicant.

7. What would resolve your protest?

Deny the permit.

I hereby acknowledge that if I, or my designated representative, fails to appear at any regularly scheduled conference or hearing in the matter of which I have been notified at the address above, the department may issue a notice of proposed default against me in this matter for failure to appear. I also verify that I have served a copy of this protest upon the applicant.
