RE: PERMIT NO. 65-13836 and 65-13848

Dear Permit Holder:

The department acknowledges receipt of the proofs of beneficial use forms submitted for the above referenced permits. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the Western Regional Office of the department in Boise at (208) 334-2190.

Re: Permit Nos. 65-13836 and 65-13848

Dear Mr. Woodward:

I am enclosing the original Proofs of Beneficial Use you filed with the Department of Water Resources for the above-referenced water right permits. We received your Proofs of Beneficial Use forms and filing fee on April 28, 2000, however, the department previously received Proofs of Beneficial Use for these permits on February 23, 1999. Therefore, I am requesting from Fiscal that a check be issued in the amount of \$100.00 to refund the filing fees you paid. Your refund check will be processed and mailed to you within 7-10 days.

Also enclosed, for your information, are copies of the February 23, 1999 proofs for these permits. I have processed these proofs and I am sending acknowledgement letters under separate cover. If you have any questions, please contact me at (208)327-7953.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13836

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. **A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below.**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

CERTIFICATE OF SERVICE

All documents intended to be part of the Department record in connection with a preliminary order shall be served upon the representatives of each party of record. Every document filed with and intended to be part of the agency record must be attached to or accompanied by proof of service by the following or similar certificate.

I HEREBY CERTIFY (swear or affirm) that I have this day of _____, served the foregoing (name(s) of document(s)) upon all parties of record in this proceeding, (by delivering a copy thereof in person: (list names)) (by mailing a copy thereof, properly addressed with postage prepaid, to: (list names)).

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when (a) the petition for reconsideration is disposed of, or (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

RIGHT TO HEARING

Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department is otherwise provided by statute, any person aggrieved by any decision, determination, order, or action of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the Department, who is aggrieved by a denial or conditional approval ordered by the Department, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the Department to contest the denial or conditional approval upon filing with the Department, within fifteen (15) days after receipt of the denial or conditional approval, a written permission stating the grounds for contesting the action by the director and requesting a hearing.

APPEAL OF FINAL ORDER TO DISTRICT COURT

If a preliminary order becomes final, any party aggrieved by the final order or orders previously issued in the case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which (a) a hearing was held, or (b) the final agency action was taken, or (c) the party seeking review of the order resides, or (d) the real property or personal property that was the subject of the agency action is located. The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. See Sections 67-5270 through 67-5273, Idaho Code.

FILE PRESENTATION

This application was processed prior to the January 12, 2000 memo "Changes to Water Right Applications." The old technique of making application changes was used.

To avoid additional processing delay, the file is forwarded as "one in the pipeline" with respect to that memo. The regional office anticipates that this will be acceptable for this limited group of applications.

AGREEMENT AND
WITHDRAWAL OF PROTEST

The Bureau of Land Management (BLM) filed application for water right nos. 65-13836 and 65-13848 with the Idaho Department of Water Resources (IDWR). The applications sought to appropriate water from Little Willow Creek for instream stock watering. Each application sought approval to divert 0.28 cubic feet per second (cfs). The applications were protested by the Little Willow Irrigation District.

At the time and place scheduled for a hearing on March 1, 2000, the parties reached an agreement. The terms of the agreement are as follows:

1. BLM will reduce the flow rate and daily volume sought by application no. 65-13836 to 0.02 cfs and 13,000 gallons a day.
2. BLM will reduce the flow rate and daily volume sought by application no. 65-13848 to 0.02 cfs and 13,000 gallons a day.
3. The source for both applications will be Little Willow Creek, tributary to the Payette River, instead of Paddock Reservoir.

The following condition will be placed on any permit and subsequent license:

Water shall not be diverted offstream from Willow Creek or Paddock Reservoir under this right, nor shall any structure for diversion or stock watering be constructed under this water right.

Little Willow Irrigation District agrees to withdraw its protest based on the changes and conditions listed above.

Gentlemen:

Enclosed is a draft agreement and withdrawal of protest document. Please review the document and communicate with each other regarding any possible changes you feel are necessary. I would appreciate some initial review prior to the meeting of the Little Willow Irrigation District scheduled for March 14, 2000.

If the draft agreement is acceptable, I ask that Little Willow Irrigation District sign the agreement first and forward it to the Bureau of Land Management for signature. Upon signature by both parties, I ask that the document be forwarded to me. When I receive it, I will then process the applications.

Re: Protest by Little Willow Irrigation District of Applications for Permit Nos. 65-13836 and 65-13848

Dear Mr. Spackman:

The sole purpose of the referenced applications by the Bureau of Land Management (BLM) is to provide water incidental to stock grazing on public lands adjacent to Paddock Valley Reservoir. The BLM has no other intent for securing these water rights. As a means for resolving the Little Willow Irrigation District protest of the applications for permit, the Bureau of Land Management (BLM) requests that the Idaho Department of Water Resources amend the applications as follows:

Permit Application No. 65-13848

1. Reduce the maximum diversion rate from 0.28 CFS to 0.02 CFS, not to exceed 13,000 gallons per day (GPD).
2. Change the source from "Paddock Valley Reservoir" to "Little Willow Creek tributary to the Payette River."
3. Remove wildlife as a purpose of use.

Permit Application No. 65-13836

1. Reduce the maximum diversion rate from 0.28 CFS to 0.02 CFS, not to exceed 13,000 GPD.
2. Change the source from "Paddock Valley Reservoir" to "unnamed stream tributary to Little Willow Creek."

MICROFILMED

JUN 26 2000

3. Remove wildlife as a purpose of use.

The reduced diversion rate will still provide ample water for stock and will have a minimal effect on downstream users. Changing the source from the reservoir to instream will eliminate any right, real or perceived, of the United States to water stored in Paddock Valley Reservoir.

We believe that the requested amendments to our applications address the principal concerns expressed by the Directors of the Little Willow Irrigation District at the prehearing conference.

If you have any questions or comments regarding this matter, please contact Bob Mallis of this office at (208) 384-3348.

On February 23, 1999, the Bureau of Land Management filed with the Idaho Department of Water Resources (IDWR) application for permit nos. 65-13836 and 65-13848. The application was protested by Little Willow Irrigation District. The pre-hearing conference held by IDWR on Tuesday, August 24, 1999, did not resolve the matter of protest.

The Department has scheduled the matter for hearing on **Wednesday, March 1, 2000, at 9:00 a.m. at the City of Fruitland, 200 S. Whitley, Fruitland, Idaho 83619.** The hearing will be held in accordance with provisions of Chapters 2 and 17, Title 42 and Chapter 52, Title 67, Idaho Code and the adopted Rules of Procedure of the Department. A copy of the rules may be obtained from the IDWR upon request. The presiding officer at the hearing will be Gary Spackman.

If you plan to offer exhibits for the record, note that IDAPA Rule of Procedure 37.01.01.606 requires that you provide a copy of exhibits to each party and to the presiding officer.

The hearing will be conducted in a facility which meets the accessibility requirements of the Americans with Disabilities Act. If you require special accommodations in order to attend, participate in or understand the hearing, please advise the department within ten (10) days prior to the hearing.

All parties to the matter will have the opportunity to respond and present information and argument on all issues involved.

CONFERENCE AND HEARING PROCEDURE

APPLICATION FOR PERMIT

Section 42-203A, Idaho Code, requires the department to consider the following issues in connection with an application for permit:

- 1) Will the proposed appropriation injure other water rights?
- 2) Is the proposed water supply sufficient for the purpose for which it is sought to be appropriated?
- 3) Was the application made in good faith or for delay or speculative purposes?
- 4) Does the applicant have sufficient financial resources with which to complete the proposed project?
- 5) Is the proposed appropriation in the local public interest, which is defined as the affairs of the people in the area directly affected by the proposed use?
- 6) Is the proposed use contrary to conservation of water resources within the state of Idaho?

BURDEN OF PROOF

The applicant has the initial burden of proof on issues 1, 2, 3, 4, & 6 above and must provide evidence for the department to evaluate these criteria.

The initial burden of proof on issue 5 above lies with both the applicant and protestant as to factors which they are most knowledgeable and cognizant. The applicant has the ultimate burden of persuasion, however, for this issue.

PROCEDURE

The department generally conducts an informal conference with the parties to determine the issues and to try to settle a protested matter before a hearing is scheduled. If a hearing is held, the department will issue a written decision based on the hearing record.

JUN 26 2000

CONFERENCE

The purpose of a prehearing conference is to provide the opportunity for the parties and the department to familiarize themselves with a contested matter and to attempt to resolve the matter.

At the conference, the department may also formulate and simplify the issues, identify documents to avoid unnecessary proof, exchange proposed exhibits or prepared testimony, limit witnesses, discuss settlement offers, schedule hearings, establish procedure at hearings and address other matters that may expedite orderly conduct and disposition of the proceeding or its settlement.

HEARING

The department will tape record the hearing. Copies of a hearing tape are available upon written request and the payment of the cost of reproducing the tape.

The hearing likely will be conducted by a hearing officer appointed by the Director rather than the Director himself. If so, the hearing officer will prepare a recommended order for the Director's consideration. Parties can file exceptions to a recommended order, briefs in support of the exceptions or may request oral argument. Parties may seek judicial review of any final order issued by the Director.

Parties may, by written stipulation, waive their right to a recommended order, particularly when a shortened decision process is desirable or necessary. Such a waiver does not eliminate any rights of the parties in connection with the final order of the Director and judicial review of the order.

EXHIBITS

A party who plans to offer an exhibit as part of the hearing record must provide a copy of the proposed exhibit to the parties and to the hearing officer prior to any scheduled hearing.

AMERICANS WITH DISABILITIES ACT

Any hearing scheduled will be conducted in a facility which meets the accessibility requirements of the Americans with Disabilities Act. If you require special accommodations in order to attend, participate in or understand the hearing please advise the department within ten (10) days prior to the hearing.

On February 23, 1999, the Bureau of land Management filed with the Department of Water Resources (IDWR) applications for permit nos. 65-13836 and 65-13848 to appropriate the public waters of the State of Idaho. The applications were protested by Little Willow Irrigation District.

IDWR scheduled a prehearing conference for the protest to be held on **Tuesday, June 29, 1999**, and at the request of the applicant, the prehearing conference was cancelled and is now rescheduled for **Tuesday, August 24, 1999, at 10:00 a.m. at the Washington County Courthouse, jury room, 485 E. 3rd, Weiser, Idaho 83672**. The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Procedure of the Department of Water Resources, and Rules 40 and 45 of the adopted Rules and Regulations of Water Appropriation of the Department of Water Resources.

The conference will be conducted in a facility which satisfies the accessibility requirements of the Americans with Disabilities Act. If you require special accommodations in order to attend, participate in or understand the conference, please advise the IDWR within (10) days prior to the conference.

CONFERENCE AND HEARING PROCEDURE

APPLICATION FOR PERMIT

Section 42-203A, Idaho Code, requires the department to consider the following issues in connection with an application for permit:

- 1) Will the proposed appropriation injure other water rights?
- 2) Is the proposed water supply sufficient for the purpose for which it is sought to be appropriated?
- 3) Was the application made in good faith or for delay or speculative purposes?
- 4) Does the applicant have sufficient financial resources with which to complete the proposed project?
- 5) Is the proposed appropriation in the local public interest, which is defined as the affairs of the people in the area directly affected by the proposed use?

Re: Applications for Permit Nos. 65-13836 and 65-13848

Dear Applicant:

Enclosed is a protest filed against the issuance of a permit pursuant to the above-referenced application.

The following are the criteria the department must consider in either approving or denying an application for permit (per Section 42-203A, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

The department suggests you contact the protestant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest. Direct, sincere conversation between the parties prior to initiation of formal proceedings can often resolve a protest.

This office will shortly schedule a conference if the matter is not resolved informally. At the conference, the department will review possibilities for resolution of the protest. If the matter cannot be resolved at that time, a formal hearing will be arranged for a future date.

Please contact this office if you have questions regarding this procedure.

Sincerely,

Gary Spackman

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced applications.

The following are the criteria the department must consider in either approving or denying an application for permit (Section 42-203A, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?

5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

The department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest. Direct, sincere conversation between the parties prior to initiation of formal proceedings can often resolve a protest.

This office will shortly schedule a conference if the matter is not resolved informally. At the conference, the department will review possibilities for resolution of the protest. If the matter cannot be resolved at that time, a formal hearing will be arranged for a future date.

If this office can be of further assistance, please contact us.

Steve,

Glen and Jim have asked me to inquire why the source for applications 65-13836 and 65-13838 is listed as Paddock Valley Reservoir Normally a reservoir is not considered a source of public water. I'm sure it was just an oversight, but the source be probably be changed to Little Willow Creek in the database. Thanks.

 PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

✓ WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.
