PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No 65-13815 Telephone No. 208-634-0078

2. Name of Permit Holder(s): John Rost

3. Mailing Address: 14073 MORELL RD

City M'CALL State ID Zip 83638

4. Source of Water Groundwater If GROUNDWATER (well), Date Drilled. mo. 05 / yr. 95

Well Driller: MENASCO Drilling Permit Number: 65-95-W-0108-000

5. Use(s) (as authorized by the water right permit).

Domestic (No. of households): 1 Stockwater (No. and type of stock): _____

Irrigation (No. of acres): 5.3 Other _____

6. Total rate of diversion and/or volume for which proof is submitted: .15 cfs OR _____ acre-feet

7. Measuring Device Requirement. (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes _____ or No X

Has the measuring device been installed?

Yes _____ or No X

8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: John Rost Telephone Number: 208-634-0078

Address: 14073 MORELL RD M'CALL ID 83638

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 2004.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
5. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted for irrigation purposes under this right and shall only divert groundwater under this right for irrigation purposes when water from the appurtenant surface water rights cannot be delivered to the right holder.
6. This right shall not be used for irrigation purposes if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.

Department of Water Resources

Permit To Appropriate Water

NO. 65-13815

CONDITIONS OF APPROVAL AND REMARKS

7. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
8. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
9. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary for this purpose will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
10. Domestic use is for 1 home and does not include lawn, garden, landscape, or other types of irrigation.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the signature of the Director, affixed at Boise, this

29th day of March, 1999.

Comments: Date: 12/18/1998 User-ID: DNELSON

Subject: ADDITIONAL INFORMATION

Water rights 65-03119 and 65-05073 diverted from Boulder Creek seem to be associated with this application. However, the owners property does not border Boulder Creek and he currently does not have an easement to transport this water to his property. The owner will need to irrigate this land with groundwater until he can attain an easement (if possible) to transport the water from Boulder Creek to his property. At that time this groundwater right will be used as a supplemental water supply.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13815

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.state.id.us.

If you have questions about the field examination, please contact the Western Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 65-13815

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 01, 2004. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Administrative Assistant
Water Allocation Bureau

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13815

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. **COPIED**

APR 13 1999

to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script, appearing to read "Shelley W. Keen".

MICROFILMED

APR 13 1999

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

APR 13 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Debbie Iffland

FROM: Dan Nelson

DATE: 2/26/1999

SUBJECT: Upgrading Domestic Well to Irrigation Well

Debbie, could you please perform the necessary data entry to upgrade well drilling permit 65-95-W-0108-000 from a domestic well to an irrigation well. The upgrade has been paid so all that really needs to be done at this point is to change the well drilling application. If you have any questions please don't hesitate to come talk to me.

When you are done could please bring the file back to me so we can send it to the State Office for processing.

Thank you very much,

Dan Nelson

Dear Debbie,

Per our telephone conversation on 2/26/1999 you told me that in order to change the codes for receipt that was incorrectly coded in, I needed to email you. The receipt number in question is W0247676. The following is how the final information should read:

RECEIPT - # W0247676
FROM - ROST, JOHN
FUND - 0229
DETAIL - 21
PCA - 62134
SUB OBJECT - 1205

This check was receipted to application for permit when it should have been receipted to well drilling for a well upgrade.

Thank you for taking care of this, I really appreciate it.

Dan Nelson

RE: WELL DRILLING FEE DISCREPANCY

On this date, I spoke with Mrs. Rost to inform her and her husband, John L. Rost that well that they were planning to use for their application for permit (65-13815) was drilled as a domestic well under the well drilling program. I also informed them that they could not use this well for irrigation until the departments records were updated to list this well as a domestic & irrigation well. This would require a \$ 200.00 fee instead of the \$ 35.00 fee that they have paid. Therefore, Mr. Rost would need to pay an additional \$ 165.00 to update the departments records (\$ 200.00 - \$ 35.00 = \$ 165.00 fee).

I also informed them that we could advertise their application for permit, but could not send it on for approval until we receive their payment. I asked them to submit their payment by February 1, 1998.

RE: STATUS OF APPLICATION FOR PERMIT

Mr. Rost called on the above date at approximately 8:45 am to determine the status of his application for permit. I told him I would look up the permit and call him back. I called Mr. Rost back at approximately 9:15 am and informed him that his application has been advertised and is ready to send to the state office when we receive the \$ 165.00 well permit upgrade fee from a domestic well to an irrigation well.

Mr. Rost stated he would pay the upgrade fee of \$ 165.00, but that he was very upset that he had to pay this upgrade. He felt that the well permit for domestic should be the same as well permit for irrigation and there should be no difference in fee amounts.

RE: OVERLAPPING WATER RIGHTS FOR APPLICATION OF PERMIT

On this date I called John L. Rost to verify overlapping water rights for his property. The overlapping water rights, 65-03119 and 65-05073, diverted from Boulder Creek are owned by a Mr. Morell and cover 31 acres in the same NE $\frac{1}{4}$, SE $\frac{1}{4}$ of section 25, township 18N, range 03E that Mr. Rost's property is located in. Mr. Rost confirmed that the Morell family did own his property at one time and thought they had raised hay on his property. According to Mr. Rost he thought that they had irrigated his property by using a pressurized sprinkler system. Mr. Rost also stated that his property does not border Boulder Creek so he would have to attain an easement to get the water from Boulder Creek to his property. Mr. Rost stated that he had just purchased the property and had not had time to work on an easement agreement with the Morell family yet.

I told Mr. Rost that if these water rights were associated with his property, that his groundwater well would be supplemental to his surface water rights out of Boulder Creek and that he would have to use his surface water rights first if possible. Mr. Rost stated that he would prefer to use the surface water for his property, but was not sure how or how long it would take him to get an easement if he could, to bring Boulder Creek water to his property. I told Mr. Rost that he would not be allowed to sell his surface water rights once the groundwater rights were established as a supplemental right. Mr. Rost said he understood and to go ahead with the processing of his groundwater right.

Application No.
(if known)

65-

☐ IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

☐ PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

☒ WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

APPROVED

This Permit is _____

Date

5-26-95

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY

GENERAL CONDITIONS:

1. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum of 50 feet and 100 feet respectively from a septic tank.
3. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
7. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

SPECIFIC CONDITIONS:

USE FROM THIS WELL IS
LIMITED TO "DOMESTIC"
PURSUANT TO I.C. 42-111.
