FOR OFFICE USE ONLY

Amt. of Fee \$: 50.00Receipt No. 050315Receipt By: SmayDate Received: 9-8-00

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 65-13806 Telephone No. 208-939-85242. Name(s) of Permit Holder(s): NORMAN C. BLEMLER3. Mailing Address: 114. Source of Water: MIDDLE FORK
PAYETT RIVER GROUNDWATER (well), Date Drilled: mo. / yr. a. Well Driller: Drilling Permit Number: - - - b. OPTIONAL:
Pump Horsepower: Pressure (psi): Dynamic pumping level (ft):

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): Stockwater (No. and type of stock): Irrigation (No. of acres): 1 Other: 6. Total rate of diversion and/or volume for which proof is submitted: 1.03 cfs OR acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes or No XHas the measuring device been installed? Yes or No XFlow Measurement Port: Is a flow measurement port required? Yes or No XHas the measurement port been installed? Yes or No X8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: NORMAN BLEMLER Telephone Number: HOME 939-8524
OFFICE 377-2062Address: 1138 PEBBLE BEACH EAGLE, IDAHO 83616

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Norman C. Blemler Date: 9-5-00

Permit To Appropriate Water

NO. 65-13806

Proposed Priority: May 26, 1998

Maximum Diversion Rate:

0.03 CFS

This is to certify, that **NORMAN C BLEMLER**

1138 PEBBLE BEACH WY

EAGLE ID 83616

has applied for a permit to appropriate water from:

PAYETTE RIVER, MIDDLE FORK

tributary of **PAYETTE RIVER**

and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
-----------------------	----------------------	--------------------------

IRRIGATION	04/15 to 10/15	0.03 CFS
------------	----------------	----------

LOCATION OF POINT(S) OF DIVERSION:

SESE , Sec. 27, Township 10N, Range 04E
BOISE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
10N	04E	27	SESE	1.0		1.0

Total number of acres irrigated: 1.0

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 2000.
2. Subject to all prior water rights.
3. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
4. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion.
5. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
6. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary for this purpose will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13806

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the Western Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

Encl.

RE: PERMIT NO. 65-13806

Dear Permit Holder:

I have enclosed a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the time within which to submit proof of beneficial use to **January 1, 2001**. Please note that the department granted the extension based on due diligence. It is important that you work diligently towards completion of the project since the department **will not** be able to grant future extension requests based on due diligence.

Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact this office or any regional office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please contact me at (208)327-7953, if you have any questions regarding this matter.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 65-13806

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 2000.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13806

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control on your diversion.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

FEB 18 1999

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Application for Permit No. 65-13806 in the Name of Norman C. Blemmer

Dear Sir:

Enclosed is a copy of the above-referenced application for permit which may be of interest to your agency. Please review the application and submit any comments you may have.

This office normally completes the processing of an application within a six-week period and is required to take final action shortly thereafter, however, if your agency desires to file a formal protest against the approval of this application(s), your written protest along with the \$25.00 protest fee must be received in this office by December 7, 1998.

If you have any questions regarding the applications, please contact this office.

Sincerely,

Gary Spackman

(if known)NO # YGT (S.L. 10/26/98) IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

 PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

X WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

— ATTN. NORM BLEMLER —

RE: APPLICATION FOR PERMIT <INSERT # IF ISSUED>

Dear Applicant:

You have filed the above referenced application for permit to appropriate water for a consumptive use. If the appropriation is completed as described in the application, it may result in some reduction in flows in the Snake River. As you are undoubtedly aware, various actions are being taken throughout the Snake River and Columbia River Basins to protect endangered and threatened anadromous fish. These actions include the acquisition of water supplies to maintain or enhance streamflows during migration periods.

Federal funds are being used to obtain the rights to both natural flow and stored water to augment flows in order to meet flow targets in the Snake and Columbia Rivers. While the necessity and value of flow augmentation has not yet been established, the State of Idaho has cooperated with the other states in the Pacific Northwest and with federal agencies to allow limited flow augmentation on a trial basis while additional data are gathered to determine the most appropriate way to stabilize and enhance fish populations.

Under Idaho law, an application to appropriate water cannot be granted unless the six criteria listed in Section 42-203A, Idaho Code, are satisfied. One of these criterion is that the proposed use must be in the "local public interest" where the local public interest is defined as "the affairs of the people in the area directly affected by the proposed use." If granting an application to appropriate would reduce flows in the Snake River such that additional water would have to be secured from other sources for flow augmentation, it may be difficult to show that granting the application would be in the local public interest. As a result, the Idaho Department of Water Resources (IDWR) has delayed processing applications which, without mitigation, may deplete flows in the Snake River.

Proposed appropriations of water, such as that described in your application, may also have value with respect to the local public interest and should be given consideration, provided salmon recovery efforts would not be affected and the appropriation would not result in additional flow augmentation being required. Consequently, IDWR is processing applications to appropriate water when the applicant either:

- (1) can demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish;

MICROFILMED

FEB 18 1989

<APPLICATION #>

<DATE>

Page 2

- (2) proposes adequate mitigation (or make-up water) as part of the proposed appropriation to offset anticipated depletions to flows in the Snake River during periods of anadromous fish migration; or
- (3) agrees to provide mitigation as needed in the future if it is determined that not mitigating depletions caused by the applicant's appropriation would result in additional water being required from other sources to augment flows during migration periods of anadromous fish.

The purchase or rental of storage water, which can be used for flow augmentation, may be the most available form of mitigation that could be used for mitigation, should mitigation be necessary. Under alternative 3 above, mitigation is not required when the application is processed, but may be required in the future based upon a finding by IDWR that depletions to Snake River flows resulting from appropriations made under permits issued after January 1, 1998 have increased the amounts of water required from other sources to augment flows for migrating anadromous fish. This alternative would entail including the following condition of approval if the application for a permit to appropriate water is approved:

The Director retains jurisdiction over this permit and any subsequent license to require the right holder to provide purchased or leased water from natural flow or storage, or other mitigation acceptable to the Director, to offset depletion of Lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit and any subsequent license.

For applications where one of the three conditions listed above is met, and the application is otherwise of proper form, IDWR will process the application. Alternatively, an applicant may choose to have IDWR continue to delay processing an application for permit until a later date. In that case, IDWR can hold your application pending changes in salmon recovery strategies, such as the potential elimination of flow augmentation requirements, and corresponding changes in IDWR policies. The priority date (seniority) of the proposed appropriation is protected for applications held because of IDWR policies. If you choose to have IDWR continue to hold your application at this time, you do not need to reply to this letter.

Please contact me if you have any questions about your application.

Sincerely,

<NAME>
