Department of Water Resources
Water Right License

WATER RIGHT NO. 65-13777

Priority: March 05, 1998

Maximum Diversion Volume: 6.0 AF

It is hereby certified that KENNETH PRATT And LANETTE PRATT
3868 CASSIE DR SW
TUMWATER WA 98512 have complied with the terms and
conditions of the permit, issued pursuant to Application for Permit dated March 05, 1998; and have
submitted Proof of Beneficial Use on October 05, 2000. An examination indicates that the works have a
storage capacity of 6.0 af of water from:

SOURCE

UNNAMED STREAM ~~Tributary:~~ NORTH FORK LITTLE SQUAW CREEK

and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>ANNUAL DIVERSION VOLUME</u>
IRRIGATION STORAGE	01/01 to 12/31	6.0 AF
IRRIGATION FROM STORAGE	05/01 to 10/31	0.5 AF
WILDLIFE STORAGE	01/01 to 12/31	6.0 AF

LOCATION OF POINT OF DIVERSION:

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, Karl J. Dreher, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 65-13777 with the following:

CONDITIONS OF APPROVAL

1. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 65A.
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
3. The right holder shall install/maintain permanent measuring devices in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.
4. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
5. When water is not available to fill this right, the right holder shall cease diversion.

Witness my hand this 15TH day of October, 2002.

RE: License No. 65-13777 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a copy of the approved Application for Amendment.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

CERTIFICATE OF SERVICE

I hereby certify that on October 16, 2002 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved License) to the person(s) listed below:

RE: WATER RIGHT NO.

65-13777

**KENNETH PRATT
LANETTE PRATT
3868 CASSIE DR SW
TUMWATER WA 98512**

**Kari Lynn Townsend
Secretary**

MICRO. 2002
MAR 1 2002

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Comment Report

65-13777

1 kwalker 9/23/2002 Place of Use

Comment: Examiner has identified the place of use as within the SENE, S35 but the GIS map attached to the exam shows the ponds within the SWNE, S35. Since the irrigation occurs around the pond the place of use for irrigation is also within the SWNE, S35. Made recommendation for SWNE, S35.

We have also prepared recommendations that do not include a live flow for irrigation purposes. The permit holder has been using a bucket to irrigate the plants around the pond. There is no live flow water used for this purpose only water from the pond with the bucket

2. kwalker 10/7/2002 Amount of Water

Comment: The permit holder only uses 2 5-gallon buckets to irrigate the acre around his ponds. The storage capacity of the ponds was determined to be 6.0 acre feet. In converting the amount of water needed from storage we found that it would take more than 32,000 buckets for 0.5 acre feet that we have recommended for license. .5 af x 325850 gallons = 162925 gallons/5 gal bucket/2 buckets = 16292 trips with his buckets. Over the 184 day irrigation season he would need to apply 88 buckets of water a day. This is unrealistic but if right holder changes his irrigation system from buckets he would need enough water to irrigate his acre.

3 CZIMMERM 1/11/1999 DIVERSION DESCRIPTION

Comment: Half culvert spillway that will pass a 500 storm event.

4. VAULT 10/10/2000 Proof of Beneficial Use Rcvd

Comment: Proof of Beneficial Use Rcvd

Full storage volume is recommended for irrigation because the water can be carried over to future years.

*S. Keen

RE: Water Right Permit No. 65-13777

Dear Permit Holders:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

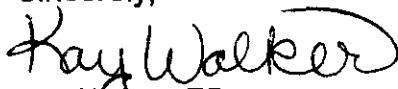

Based on the examiner's report, the following elements were developed differently than described on your permit:

- ☒ Point of Diversion
- ☒ Place of Use

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at 208-327-7944.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: Pond sizes: large pond = 300' x 200'

small pond = 60' x 60'

Both gradually slope to 10' deep.

NARRATIVE/REMARKS/COMMENTS

Two unnamed streams supply water to 6 af of pond area developed around the streams' confluence. The smaller pond is located on the West Fork and the large pond is located on the confluence. The ponds gradually slope to a 10' depth. Applicants planted 250 rainbow trout in the large pond. A 2' Cipolletti weir has been installed at the pond's outlet that measures the amount of water tributary to the N. Fk., Little Squaw Creek. At the time of the exam, one acre of non-native vegetation around the pond was being irrigated via two 5 gallon buckets. The vegetation included: Marigolds, petunias, snap dragons, zinnias, siberian peas, sunflowers, wheat grass, blue grass, maple trees, mtn ash, doug firs, and other tree varieties. Applicant had originally filed for 50 acres of irrigation below the pond, which had not been developed. No other water rights are used.

Have conditions of permit approval been met? X yes ___ no

F. FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method:

Two 5 gallon buckets used for irrigation

Allow .02 cfs

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 1 \times 3 = 3$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .02 \times 200 \times 1.9835 = 7.9$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 3$$

2. Volume Calculations for Other Uses:

$$300' \times 200' \times 10' \times .4/43560 = 5.51 \text{ afa}$$

$$60' \times 60' \times 10' \times .4/43560 = .33 \text{ afa}$$

Allow 6 afa

.4 is the correction factor used for the sloping depth.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	4/15	10/31	.02	3.0
Irrigation Storage	1/1	12/31		3.0
Irrigation Fr Storage	4/15	10/31		3.0
Wildlife Storage	1/1	12/31		6.0
Total			.02	6.0

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13777

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah J. Gibson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13777

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at **MICROFILMED**

FEB 18 1999

days prior to the commencement of work in the stream.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

FEB 18 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application for Permit No. 65-13777

Dear Mr. Herr,

Enclosed is a copy of an application for a water right within your water district. This application represents development for a irrigation and wildlife storage facility. A standard condition put on approved permits for storage located within a water district is:

The right holder shall install/maintain permanent measuring devices in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.

The purpose of this condition is to give you the ability to regulate the diversions. It is possible, however, that measuring devices may not be necessary for the regulation of some small reservoirs.

The purpose of this letter is to seek your comment on including this condition on the permits. Please review the applications and the condition. I will hold processing on the applications for 30 days pending your response. For your convenience, I have provided a self-addressed pre-posted envelope.

If I do not receive a response from you within the 30 day period, I will assume that you agree with including the condition on the permits. If you have questions or need additional information, you may contact me directly at (208) 327-7944.

Respectfully,

A handwritten signature in cursive script that reads 'Cindy Zimmerman'.

RE: Pratt (Proposed) Dam

Dear Mr. Pratt:

The Department has received your application for construction of a small dam, which is to be located in Section 35, Township 11 North, Range 2 East B.M., in Valley County. The dam, as proposed, is too small to be regulated by the Department under the Safety of Dams Program, since it will have a hydraulic height of less than 10 ft and will store less than 50 ac-ft. No action will be taken on the application, and it will be used for information purposes only. Since the dam is too small to be regulated, as proposed, you are not required to meet the construction standards set forth in the rules. However, we recommend the dam be constructed to meet the Safety of Dams Standards and the following guidelines:

- A water right has been filed for storage at the dam and is currently being processed. Construction should not proceed until a water right permit is issued.
- The application does not indicate a cutoff trench depth, to be excavated under the dam. The trench should be excavated to an impervious layer (clay or rock), or to a depth of approximately 1/2 the height of the dam to prevent leakage under the dam.
- The material to be used for backfill of the cutoff trench and for construction of the core of the dam should be clayey material placed in lifts not exceeding 6 inches, before compaction.
- The fill should be compacted by means of a loaded sheepfoot or pneumatic roller to the required density to be determined in the field. An acceptable range of moisture content should be established and maintained throughout construction.
- The core material should be free of organic material, frozen or cloddy material and rocks greater than 4 inches in maximum diameter.
- For stability, the upstream slope of the dam should be no steeper than 3:1 (3 ft horizontal to 1 ft vertical) and the downstream slope should be no steeper than 2:1. The 15 ft crest width indicated on the application is satisfactory.

MICROFILMED

1998

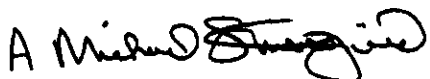

Kenneth L. Pratt II
RE: D65-13777
Page 2

Rule 50.11 indicates that for a small, low risk dam, it must be capable of passing an inflow design flood (IDF) that has a 1 in 50 chance of occurring in any given year (Q50). Since the drainage area above the dam appears to be small, approximately 85 acres, the IDF is estimated to be 20 cfs. In order to pass the IDF with adequate freeboard, the spillway should have a depth of at least 3.0 ft and a bottom width of at least 10 ft, with sideslopes of 1.5:1 or flatter, for stability.

As previously mentioned, the dam is not required to be constructed to meet the construction standards; however, if the dam is placed on the active inventory for any reason, modifications to the dam may be required if the dam was not constructed properly. The owner of the dam is liable for any damage that may be caused by failure of the dam.

Should you have any questions, please contact John Westra, phone (208) 334-2190 in our Western Regional Office in Boise. Please let Mr. Westra know when construction commences, so that inspections can be scheduled at specific times during construction, if necessary.

Sincerely,

A. Michael Stubblefield, P.E.
Dam Safety Section

Dear Legal Dept.:

Enclosed is a copy of a legal notice and a copy of the affidavit for the above-referenced application for permit. You will notice that there is a discrepancy between the two. The section number in the place of use was omitted.

Please republish the legal ad with section number 35 added to the place of use.

An affidavit of the corrected publication should be submitted to the department by July 20, 1998, at which time I will forward the bill for the first publication to our accounting section.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Sue'.

RE: Application For Permit to Appropriate Water

Dear Mr. Pratt:

The Department recently received an Application for Permit for surface water storage. A 12 ft high dam and a 50 acre-ft storage reservoir is being proposed. Under the Statutes, dams which are 10 ft or more in height, or store 50 acre-ft or more are under the regulation of the Department of Water Resources.

Enclosed is a copy of the Rules and Regulation for Safety of Dams and as Application for Construction of a Small Dam. Please fully complete the application, and return it to the Department along with the appropriate fee for approval. (fee is \$1.00 per acre-ft of reservoir storage). You may want a consultant or local NRCS office to assist you in developing the design specifications requested by the application.

The 12 ft dam and reservoir would be classified small in size and low risk hazard. The release capability of the dam should equal or exceed a Q50 inflow design flood event. On page 25 of the attached Rules, the design criteria for small dams is outlined. Rule 050 (page 13) and Rule 055 (page 22) also are applicable to small dams.

Construction of the dam shall not proceed until the application is approved by the Department.

Should you have any questions, please contact me at the Western Regional Office, phone 334-2190, or Mike Stubblefield at the State Office Dam Safety Section, phone 327-7952.

Sincerely,

John Westra

RE: APPLICATION FOR PERMIT

Dear Kenneth and Lanette:

You recently filed the above referenced application for permit that includes a consumptive use. Your proposed development might impact the water supply related to fishery resources sometime in the future.

Applications that include consumptive use can be processed if applicants are willing to accept a condition of approval that can require mitigation at a later date if the need for mitigation is clearly documented. Mitigation can include steps such as purchasing storage water to offset adverse impacts to fishery resources.

Enclosed is a response form to be completed and returned if you are willing to accept this condition of approval. Please note that mitigation is not required at this time but might be in the future.

Also enclosed is a withdrawal form to be completed and returned if you are not willing to accept the mitigation condition at this time. You will receive a refund for the filing fee if you withdraw the application.

Please let me know if you have any questions about your application.

Sincerely,

Lori Graves
Water Rights Agent
