RE WATER RIGHTS 65-13747/65-13748

Dear Water Right Holder(s)

The Department of Water Resources (the Department) has issued the enclosed licenses confirming that water rights have been established in accordance with the permits referenced above. The licenses are preliminary orders issued by the Department pursuant to section 67-5243, Idaho Code. They can and will become final orders without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

If you have any questions, please call me at 208-327-7946

Sincerely,

Shelley W. Keen

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

11/19/99

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which

- i A hearing was held,
- ii The final agency action was taken,
- iii The party seeking review of the order resides, or
- iv The real property or personal property that was the subject of the agency action is located

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: File 65-13748

FROM: Sharla

DATE: May 19, 1999

RE: Recommendation Adjustment(s)

The adjustments to licensing recommendations for Permit 65-13748 are as follows

H RECOMMENDATIONS

Stockwater Storage	1/1 - 12/31	0.6 af
Wildlife Storage	1/1 - 12/31	0.6 af

Dam Safety record show that this reservoir has a storage capacity of 0.9 af. A previous license (65-12394) was issued for 0.3 af; this license will pick up the remaining capacity of 0.6 af.

RE Westside No 1 Dam (Project #5596)
Spring Creek Dam (Project #8961)
French Spring Dam

D65-13747
D67-7954
D67-8009

Dear Mr Fend

During October 1998, we examined the referenced dams Westside No 1 Dam is located in NWNW, Section 17, T10N-R1W, Spring Creek Dam is located in SENW, Section 19, T12N-R1E, and French Spring Dam is located in SESE, Section 4, T10N-R1W, B M, in Washington County. The site examination revealed they are in good condition and adequately maintained. The Department has determined that the downstream risk (development that would be affected if the dam failed suddenly) is presently low for all of the dams. The size of the dams is small, since they all store less than 10 ac-ft. Therefore, the projects are excluded from the Department's regulation in accordance with the provisions in Section 42-1711, Safety of Dams Statutes, Idaho Code. Approximately every 5 years the sites will be re-examined to determine if the size of the dams is sufficient, or they pose enough of a risk to downstream development, to be regulated by the Department.

During the October 1998 site inspections, several other small dams were also inspected, Westside No 2 Dam (BLM Project #5597), Coyote Basin Dam (BLM Project #9084), and Cabin Creek No 1 Dam (BLM Project #9083). These dams were generally in good condition and well maintained, however, since they were all less than 10 feet in height and store less than 50 ac-ft, they are too small to be regulated by IDWR for Dam Safety and future inspections will not be conducted.

For continued safe operation of the dams, we recommend routine maintenance be performed, as needed. Routine maintenance should include removing woody vegetative growth from the embankments (spray/cut and remove brush and trees). Also, maintain the cross section of the dams and eradicate rodents and burrowing animals as necessary. We recommend all large animal burrows be backfilled with suitable soil material, compacted in place. Eroded areas, which may develop on the embankment, should be repaired by adding fill or granular material, and/or rock riprap as needed to maintain the integrity of the dam. The spillway capacity should be preserved by

MICROFILMED MICROFILMED

John Fend
RE D65-13747, D67-7954/8009
Page 2

maintaining the cross section and a depth of at least 3 0 feet
Also, debris and growth should be removed from the channel as
necessary to maintain adequate discharge capacity

Should you have any questions, please contact John Westra, phone
334-2190, in our Western Regional Office in Boise

E NARRATIVE/REMARKS/COMMENTS

- 1 This was done as a office exam at the BLM office in Boise.
2. This dam and reservoir is a re-construction of the old dam under WR 65-12394 to increase the storage. The old dam was 5' high, and had 0.25 AF of storage. The new dam and reservoir was constructed in Oct, 1992 on the same site.
3. The water project is called West Side Pond #2, BLM Project 5597.
- 4 The water is used by range cattle on the Foothills Allotment # 362 with the following grazing periods:

86 Head	4/15 to 5/15
160 Head	5/16 to 6/15
208 Head	6/16 to 9/30
5. There are a max. of 208 Head, not 200 Cattle and 20 Horse shown in the Permit & Pack

Have conditions of permit approval been met? ☒ yes ☐ no

MICROFILMED
JUL 09 1993

Additional Computation Sheets Attached

For 208 Head, Allow 0.07 cfs

$$\text{Res Capacity} = \left[(112 \times 240') / (150') (13.8' - 5.0') \right] \frac{AF}{(66 \times 66 \times 10)}$$

$$= 364 \text{ AF storage}$$

G VOLUME CALCULATIONS

1 Volume Calculations for Irrigation

$$V_{1.2} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$V_{DQ} = \text{Smaller of } V_{IB} \text{ and } V_{DB} =$$

2 Volume Calculations for Other Uses *stock water*

$$1) AFA = \left(\frac{12 \text{ GPD}}{\text{Head}} \right) \left(\frac{208 \text{ Head}}{1} \right) \left(\frac{105 \text{ Days}}{\text{Ann}} \right) \left(\frac{AF}{325850621} \right) = 0.80 \text{ AFA}$$

$$2) AFA = (12)(160)(30) \left(\frac{AF}{325,852} \right) = 0.20 AFA$$

$$3/ AFA = (12)(86)(30) \left(\frac{AF}{325,852} \right) = \frac{0.10 AFA}{1.10 AFA}$$

H RECOMMENDATIONS

1 Recommended Amounts

Allow the OBAFA
in permit

PROOF ACKNOWLEDGMENT LETTER

RE. PERMIT NO 65-13748

Dear Permit Holder

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's Western Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary, Water Allocation Bureau

PERMIT APPROVAL NOTICE

RE. PERMIT NO. 65-13748

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use" Please read the instructions carefully since you must take further action to develop this permit into a licensed water right Also enclosed is a form entitled "Proof of Beneficial Use" If your project is already completed, you should complete and submit this form immediately.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Please contact the regional office nearest you for details.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946

Sincerely,

Shelley W Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record

Section 67-5246(5), Idaho Code, provides as follows

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which.

- i A hearing was held,
- ii The final agency action was taken,
- iii The party seeking review of the order resides, or
- iv The real property or personal property that was the subject of the agency action is located

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273 Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

DEC 29 1997

Department of Water Resources

APPLICATION FOR PERMIT FOR WATER RIGHT

NO 65-13747 / 65-13748

RECOMMENDATION OF WATERMASTER

I Mark Limbaugh, watermaster of the Payette River of Water District No 65, County of Washington, State of Idaho whose address is 102 N. Main, Payette, Idaho 83661, have read the attached copy of the application for permit for a water right in the name of U S Dept of Interior/Bureau of Land Management

- A I hereby endorse the above numbered application and recommend that the Director of the Department of Water Resources approve the application subject to the following conditions: The standard condition requiring installation of permanent measuring devices on these reservoirs is hereby waved due to the relatively small size of the reservoirs proposed in the applications If, however, existing senior water rights are harmed by these diversions during critical periods, then this requirement may be reinstated at that time

OR

- B I do not endorse approval of the above numbered application for water right as requested for the following reasons

Dated at Payette, Idaho this 23rd day of December, 1997

RE Applications for Permit Nos 65-13747 & 65-13748

Dear Mr. Peterson,

Enclosed are copies of applications for water rights within your water district. These applications represent development for stockwater and wildlife storage facilities. A standard condition put on approved permits for storage located within water districts is

The right holder shall install/maintain permanent measuring devices in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.

The purpose of this condition is to give you the ability to regulate the diversions. It is possible, however, that measuring devices may not be necessary for the regulation of some small reservoirs.

The purpose of this letter is to seek your comment on including this condition on the permits. Please review the applications and the condition. I will hold processing on the applications for 14 days pending your response. For your convenience, I have provided a self-addressed pre-posted envelope.

If I do not receive a response from you within the 14 day period, I will assume that you agree with including the condition on the permits. If you have questions or need additional information, you may contact me directly at (208) 327-7944.

Respectfully

Cindy Zimmerman

ADDITIONAL INFORMATION

Allow Refill/loss component for instream storage

Although storage amount is minor, dam size is fairly significant.

Overlap - i.e. 65-12344 = .3 of the project site (see above comments) FRA claim appears to be wrong Q2 can be fixed later
