Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 6513736 Telephone No. 208-634-7015

2. Name(s) of Permit Holder(s): Lazy 7, Inc.

3. Mailing Address: 207 N. 3rd Street McCall, ID 83638

4. Source of Water: Groundwater If **GROUNDWATER** (well), Date Drilled: mo. 10 / yr. 97

a. Well Driller: Menasco Drilling Drilling Permit Number: 65 - 97 - W - 0378

b. **OPTIONAL:**
Pump Horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft): _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: 4 bay carwash and adjacent office

6. Total rate of diversion and/or volume for which proof is submitted: .15 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes x or No _____

Has the measuring device been installed? Yes x or No _____

Flow Measurement Port: Is a flow measurement port required? Yes x or No _____

Has the measurement port been installed? Yes x or No _____

8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Duane or Alberta Smith Telephone Number: 208-634-7015

Address: 207 N. 3rd Street McCall, ID 83638

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

RE License No. 65-13736 - Issuance of License

Dear Water Right Holder(s).

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

Enclosure(s)

MICROFILMED

JUN 24 2002

CERTIFICATE OF SERVICE

I hereby certify that on June 21, 2002 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved License) to the person(s) listed below:

RE: WATER RIGHT NO. 65-13736

**LAZY 7 INC
207 N 3RD ST
MC CALL ID 83638**

**Kari Lynn Townsend
Secretary**

MICROFILMED

JUN 26 2002

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MICROFILMED

E. NARRATIVE/REMARKS/COMMENTS

1.) The water for this permit is groundwater diverted by a 3HP Grundfos pump. The water travels in 2 directions. The direction is due west to the car wash. At the car wash the water is used in one of three manual car washes or one automatic car wash. The owner's employee Charla Diggs supplied me with a letter that states the car wash (automatic) used 36-42 gallons of water per wash. The Ms. Diggs stated she thought that manual wash uses the same amount of water if not less. After looking at the system, I agree with her analysis.

The second direction the water travels is to an office located south of the well. The water use in the office services 5 employees on different shifts. The owner also allows customers of the storage units at the same place of use to use the bathrooms. Ms. Diggs stated that a maximum of 5 people per day use these facilities.

2.) The only over lap is the city of McCall municipal water. Both systems are connected to the city's water. However, due to the cost of using city water the owners only use it in case of emergencies.

Have conditions of permit approval been met? ☒ yes ☐ no

SEAL

VOLUME CALCULATION SHEET

Permit #
05-13736

DOMESTIC USE:

The employee that helped me with the exam stated that their approximately 5 workers on different shifts and a maximum of 5 customers from the storage units that use the office for bathroom purposes. I used the 15 gpd per worker and highway rest area per patron charts in the Field Examiners handbook for the total in office use. The owners also water some shrubs and 1 tree, there is no lawn area.

DOMESTIC VOLUME:

$$\frac{(3 \text{ ft} \times 25 \text{ ft shrubs}) + (3 \text{ ft} \times 3 \text{ ft tree})}{43560} = .002 \text{ acres of irrig.}$$

$$.002 \text{ acres} \times 184 \text{ days} \times 3.0 \text{ af/a} = 1.1 \text{ afa for domestic irrigation}$$

PLEASE NOTE: The limitation for 1/2 acre of domestic irrigation is .6 afa. Therefore, this irrigation component should be limited to .6 afa.

$$5 \text{ workers} \times 15 \text{ gpd/worker} = 75 \text{ gpd for office staff}$$

$$5 \text{ customers/day} \times 5 \text{ gal/use} = 25 \text{ gpd for customer use}$$

$$\frac{(75 \text{ gpd} + 25 \text{ gpd}) \times 365 \text{ days}}{325850} = 1 \text{ afa in office use}$$

TOTAL VOLUME FOR DOMESTIC USE =

$$(1 \text{ afa office use}) + (.6 \text{ afa domestic irrig.}) = 1.6 \text{ afa dom volume}$$

COMMERCIAL USE:

I was given a letter that states that the automatic car wash system for this car wash diverts approximately 36-42 gallons of water per vehicle. There were too many nozzles on this system and too many pipes to verify this statement. However, these numbers do seem reasonable. The employee that helped me stated that the manual car wash systems use approximately the same amount of water if not a little less. I am confident that 42 gallons per car will give a good representation of the total water use for both the manual and automatic car washes. The employee used the gross income from the car wash divided by the cost per wash to determine the amount of cars washed per year of 15,000 cars.

CARWASH VOLUME:

$$\frac{(42 \text{ gallons/car}) \times (15000 \text{ cars/year})}{325850} = 1.9 \text{ afa comm. volume}$$

Green Bay, Wisconsin 54303 USA

February 10, 1998

To Whom It May Concern,

The Laserwash® 4000 in-bay automatic car wash machine uses approximately 36 to 42 gallons of water per vehicle, depending upon how each wash package is set up. This is an average amount. The deluxe package uses more water and the basic wash uses less.

Most of the water goes to the sewer, but 15% to 20% either leaves with the vehicle or is atomized into the air. So, on average, about 5 to 7 gallons per vehicle does not go to the sewer.

These amounts were calculated in actual tests run in over 20 washes.

If you have any questions, please call me at 800-227-3373.

David Johnson

PROOF ACKNOWLEDGMENT LETTER

RE PERMIT NO 65-13736

Dear Permit Holder

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248 Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination please contact the **WESTERN** Regional Office of the department in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE PERMIT NO 65-13736

Dear Permit Holder

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1998 (See last page of your approved permit or your last approved extension request). Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO 65-13736

Dear Permit Holder

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name.

Shelley W. Keen
Water Rights Supervisor
