RE: License No. 65-13681 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a copy of the approved Application for Amendment.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

for Shelley W. Keen

5 RED FOX LN
LOWMAN ID 83637**

**Kari Lynn Townsend
Secretary**

MICROFILMED

JUL 10 2002

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE Water Right Permit No. 65-13681

Dear Permit Holders.

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

Other - Change domestic diversion rate from 0.02 cfs to 0.04 cfs

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at 208-327-7944.

Sincerely,

KAY WALKER

Comment Report

65-13681

1. kwalker 6/17/2002 License Recommendations

Comment: Permit holder went into Western Region in 1998 and stated that the well he had drilled only produced enough water for his home. He did not have enough water to irrigate the 13 acres he had applied for so no irrigation use was developed.

Examiner has recommended we allow 0.04 cfs for domestic use under this right which can be allowed since no irrigation use was developed. Examiner also recommends we allow right holder to irrigate lawn with this well. I have prepared license to reflect examiners recommendation.

2. LGRAVES 8/5/1996 DIVERSION DESCRIPTION

Comment: 6" x 300' well with pump. 65-13682 also filed by applicant for S Fork, Payette River to serve same P/U as this application.

lapsed*

Ray,
I think we need an amendment
to change .02 cfs from
irrigation to domestic.
Also, see changes on #2.

Shelly

P.S. - I think it would be a
good idea to note in the
file that 65-13682 lapsed.
It was the SW component.

NOV 15 2002

E. NARRATIVE/REMARKS/COMMENTS

1. This permit was for domestic, fire protection, and 13 Ac. of irrigation. After drilling the well and pump testing, Paul Rekow decided that the well production was only sufficient to meet the domestic needs. He did not pay ~~the~~ any Proof of Beneficial use fee, and the water right is considered to be domestic only, with fire protection up to 0.04 cfs diversion rate. See enclosed File Memo of 12-14-98; Steve Lester.
2. The home site is under construction and is located at 60 Maranatha Rd., Cowman. The Rekow's are staying at their brother's place at 5 Red Fox Dr. until the home is complete.
3. At the home site, the well, well house, pipelines, and home foundation was completed at the time of the exam. The water was being used for construction of the home.
4. Since there will be no irrigation of the 13 Ac., then the domestic use should include irrigation of the yard/garden. Note Cond. 10. There is no surface water development at the site - Cond. 5.

Have conditions of permit approval been met? ☒ yes ☒ no No 13 Ac. of irrigation. Use is just for domestic and fire protection.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13681

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **WESTERN** Regional Office of the department in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH

Senior Secretary, Water Allocation Bureau

MEMORANDUM

RECEIVED

DEC 15 1998

Department of Water Resources

TO: FILE

FROM: STEVE LESTER *SL*

DATE: DECEMBER 14, 1998

RE: PERMIT 65-13681, PROOF FILING & FIELD EXAMINATION

This memo serves to clarify the limits inferred by the filing of proof of beneficial use, the permit holder's office visit to Western Region on 12-10-98, and the licensing field examination to be conducted once the proof filing is considered acceptable. Mr. Rekow and I discussed this at length during his recent office visit in response to IDWR's letter dated 11-6-98 regarding the proof filing.

He told me that the well drilled pursuant to this right and drilling permit 65-97-W-0267-000 only produces about 10-12 gpm. The well is only productive enough to meet the domestic need described by the water right. He did not pay any proof of beneficial use fee for this reason. Additionally, he did not pay any drilling permit upgrade fee (domestic well upgrade to irrigation well) for the same reason.

I informed him that the water right will therefore be limited to the amount of water exempted from the proof filing fee. That is also the amount of water exempted from water right permit requirements defined in I. C. § 42-111 for a domestic well. The field examination can be conducted via the in-office method in which IDWR includes information from the county assessor's office to document the extent of beneficial use for this well. The license recommendation can also include fire protection up to .04 cfs (18 gpm diverted from the well). Mr. Rekow provided the following information in that regard:

obtained local building permit for site (60 Maranatha Rd, Lowman), well completed, used to construct the foundation and related infrastructure.

He also mentioned possible changes in the distant future. Perhaps one or two additional homes will be built and served by this well. We discussed the water right options available to him and/or other owners if such development occurs. The best advice for him at this time is to revisit the issue prior to development of other homes that might be served by this well.

A copy of this memo will be provided to him at his request. Also, he indicated that a Lowman address (5 Red Fox) will be more appropriate. A change in address form will also be sent to him. Both of these steps will be handled by the Regional office.

RE: Water Right No. 65-13681
Drilling Permit No. 65-97-W-0267-000

Dear Permit Holder:

I have enclosed a copy of the above referenced drilling permit and a copy of the Proof of Beneficial Use statement you submitted in connection with the above referenced water right. The proof statement indicates that water is being diverted for domestic, irrigation and fire protection use, with a total rate of diversion of 0.22 cfs. Please be advised that you are not authorized to divert more than 0.20 cfs, per the conditions of your water right permit. Additionally, a license examination fee of \$50.00 is required to be submitted alone with the proof statement before the proof can be accepted by the department. I have enclosed a copy of the license examination fee schedule for your reference.

The drilling permit issued for this water right only authorizes a single family domestic use. Single family domestic use constitutes the diversion of 0.04 cfs or less and/or the use for one home and irrigation of up to ½ acre of land.

The fee for your domestic well drilling permit was \$75.00. However, because of the use and amount you have indicated, the drilling permit is no longer considered domestic and must be upgraded to non-domestic status. The fee for a non-domestic (above 0.04 cfs or 13,000 gpd) drilling permit is \$200.00.

Before the department can accept the proof of beneficial use as filed, you will need to submit the additional \$125.00 fee to upgrade the drilling permit and the \$50.00 license examination fee. Please submit the fees within **60 days** of receipt of this letter and address your correspondence to my attention.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13681

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13681

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "Conditions of Approval and Remarks" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address on or after July 1, 1996, you must notify the department immediately.

address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name.

APPROPRIATION APPLICATION ANALYSIS SHEET

INITIAL REVIEW BY: 6 DATE: 8/5/96 APPLICATION: 65-13681

REQUIRED INFORMATION

☒ Name: (If applicant is a corporation or partnership, names and addresses for the director, officers, and other partners must be included.)
☒ Address:
☒ Source: (See USGS Quad for names of water sources)
☒ Point of Diversion: (10 acres for spring, lot & block descriptions for Subdivisions, local name)
☒ County:
☒ Quantity: (flow and/or volume)
☒ Period of use:
☒ Nature of proposed use: (Include description of use)
☒ Description of diverting works:
☒ Time required for beneficial use of water:
☒ Place of use or acres irrigated:
☒ Map: (show T, R, S, QQ &/or QQQ)
☒ Subdivision plat: (for > 1 home in restricted area. $\geq$ 5 homes in non-restricted area)
☒ Signature: (If applicant is corp., partnership, or municipality, title of signatory is required)
☒ Fee:
☒ Yes ☐ No* In form to receipt:

Gov't. Lots:
☒ P/D
☐ P/U

ADDITIONAL INFORMATION

YES NO

☒ ☐ Overlapping place of use: (Describe source & relationship to present application on next page.)
☒ ☐ Overlapping point of diversion.
☐ ☐ Field check required: Field check by: _____
☐ ☐ Field report attached:
☐ ☒ Critical groundwater area:
☐ ☒ Groundwater management area:
☐ ☒ 1992 moratorium:
☐ ☒ Copy to SCA staff: (perennial stream, non-pump diversion &/or any mining).
☐ ☒ Copy to Dam Safety staff: (for any storage)
☐ ☒ Mitigation plan: where ground water replaces surface water for irrigation, request additional information &/or mitigation plan to address reduced aquifer recharge
☐ ☒ Send power requirement letter:
☐ ☒ Send fish farm requirement letter:
☐ ☒ Power residency affidavit:
☐ ☒ Power efficiency form:
☐ ☒ Diversion greater than 5 cfs or 500 af or irrigation greater than 200 acres: (If yes, attach Large Diversion supplementary analysis sheet.)
☐ ☒ *REQUEST ADDITIONAL INFORMATION FROM THE APPLICANT
