This is a detailed topographic map of the Lowman area in Idaho. The map features contour lines indicating elevation, with major contours labeled every 200 feet (e.g., 4600, 4800, 5000). Key landmarks and features include:

- Water Features:** Clear Gulch, Clear Creek, and a stream labeled "Fork".
- Infrastructure:** A road labeled "Mile 108" and a "Gaging Station".
- Landmarks:** "Borro Pit", "Mountain View Campground", and "Lowman Ranger Station".
- Topography:** The terrain is rugged with numerous contour lines. A specific area is highlighted with a box and labeled "GOVT LOT 5".
- Map Orientation:** The map is oriented with North at the top. The text "N A T I O" is visible at the bottom right, likely part of "NATIONAL".
- Grid and Scale:** The map includes a grid with coordinates (e.g., 4884, 4883, 4882, 4881, 4879) and a scale bar indicating distances in miles (e.g., 0.23 MI, 0.5 MI).

RE: WATER RIGHT NO. 65-13665

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

MICROFILMED

FEB 18 1999

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

E. NARRATIVE/REMARKS/COMMENTS

1. This permit is for the irrigation portion of the domestic use for one home. Water use in the house - internal domestic - is provided by a 6" well near the house. The buried pipeline from the well to the house also has a 1" hydrant on it for fire protection and yard use.

2. A 3 HP portable pump unit is located on the bank of Clear Creek, and provides water for irrigation of the $\frac{1}{2}$ Ac. under the domestic permit. The pump unit has a $\frac{3}{4}$ " and a $\frac{5}{8}$ " hose connection. Two hoses with sprinklers are used for irrigation of the yard. The intake line is $1\frac{1}{2}$ " PE pipe.

3. The pump unit was started, and the water measured with a five gallon bucket and found to be 30 GPM = 0.07 cfs.

4. The home is located on Lot 1, Block 2, Segregation Plot, Lawman Inn Pasture.

5. A second home is also located on the lot, but no water is provided to this home from the well. A garage is also located on the lot. The owner may apply for multiple domestic from the well if he decides to furnish

RE: PERMIT NO. 65-13665

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH

RE: Permit No. 65-13665

Dear Permit Holder:

I have returned a copy of the Proof of Beneficial Use Statement you submitted in connection with the above referenced water right. The proof form is not acceptable until it is accompanied by the appropriate license examination fee.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license examination fee. They are:

1. The water right must use a **groundwater** (well) source, and;
2. The rate of diversion must be .04 cfs or 4.0 AF or less.

You do not meet requirement #1 since you divert water from a surface water source (Clear Creek). Therefore, a license examination fee of \$50.00 applies to the permit.

Please return the copy of the proof form along with the \$50.00 license examination fee to my attention within thirty (30) days of receipt of this letter.

If you have any questions regarding this matter, please contact me at (208)327-7900.

Sincerely,

JULIE L. YARBROUGH

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13665

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "Conditions of Approval and Remarks" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Sincerely,

Shelley W. Keen
