CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for irrigation of the lands above.

RE: WATER RIGHT NO. 65-13626

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name.

Documentation submitted for licensing amendment of 65-13322 revealed 2 acres irrigated, but not included in license 65-13322.

This permit covers those 2 additional acres (see attached amended license recommendations for 65-13322).

A total of 7 acres are irrigated with the system as described in licensing exam for 65-13322. No other water pts are used.

see file 65-13322 for planimetered acres, system description, + pictures.

AMENDED

WATER RIGHT NO. 65-13322

CONDITIONS/REMARKS:

6. A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works.
7. The availability of water for this right is subject to all prior water rights of Lake Reservoir Co.
8. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.
9. Domestic use is for 6 homes.
10. Domestic use does not include lawn, garden, landscape, or other types of irrigation.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

RE: Recommendation for an Amended License

=====

I am recommending that license 65-13322 be amended to correct the place of use. The right holder has submitted information which indicates that the distribution of irrigated acres among the tracts is different than earlier reported and licensed. This license covers five of the seven irrigated acres. Application 65-13626 has been filed to cover the two acres not authorized by this right.

The right holder has submitted a licensing amendment for the altered place of use description. Changes to the amendment application were made by Jim Crawford, who has power of attorney for J. B. Scott. A copy of the power of attorney authorization is in file 65-13626.

RECEIVED

AUG 25 1995

MEMORANDUM

TO: File 65-13322 / J. B. Scott
FROM: Brenda Chapman
DATE: March 23, 1995
RE: Amended License Recommendations

=====

The "amended license" recommendations for the above referenced water right are based on the information below:

PLACE OF USE: After verifying with a planimeter that there are 7 acres being irrigated on the "Site Survey" 1991 engineering map that Mr. Crawford supplied us with, a recommendation is being made to amend the license as follows:

SESW $\frac{1}{4}$ $\frac{1}{4}$ of Section 26 = 2.0 acres *licensed*
SWSE $\frac{1}{4}$ $\frac{1}{4}$ of Section 26 = 2.2 acres *"*
NWNE $\frac{1}{4}$ $\frac{1}{4}$ of Section 35 = 2.8 acres *.8 "*

Therefore, a licensing amendment will need to be solicited to add the Section 35 acres.

FLOW CALCULATIONS

The irrigation rate for 7 acres will be increased to .14 cfs and the number of domestics to be reduced to the original permitted amount of 3. The domestic rate will then be reduced to .06 cfs.

VOLUME CALCULATIONS

Volume adjustments are necessary based on the above items.

E. NARRATIVE/REMARKS/COMMENTS

THIS SYSTEM USES $4\frac{1}{2}$ HP PUMPS THAT ARE SUBMERGED 40-60' IN BIG PAULHE LAKE. THE OWNER HAS THE LINES BURIED AS THEY APPROACH THE SHORE AND HAS THEM CONNECT IN A MANIFOLD / FLOW REGULATED SYSTEM. THIS SYSTEM MONITORS FLOW NEEDS AND ADJUSTS OUTPUT TO SUIT DEMAND. THE PUMPS PULL AN AVG OF 25 GAL/MINUTE, BUT HAVE THE POTENTIAL TO RUN 70 GAL/MIN. THE 5 (APPROX) ACRES ARE IRRIGATED. THERE ARE 6 DOMESTICS THAT USE THE SYSTEM (THE MAIN HOUSE & 5 GUEST HOMES). THE SYSTEM RUNS AT @ 35 PSI. THE 4 INTAKE LINES FROM THE LAKE PUMP INTO THE MANIFOLD WHICH DIRECTS WATER INTO A 3" MAIN WHICH DISTRIBUTES THE WATER TO THE VARIOUS LOCATIONS WHICH INCLUDES THE DOMESTICS, THE IRRIGATION SETS & THE SHOP.

* NOTE: BECAUSE OF THE NATURE OF THE SYSTEM, THEORETICAL CALCULATIONS TO DETERMINE THE FLOW OF THE SYSTEM ARE THE ONLY MEANS TO DETERMINE THE SYSTEM CAPACITY.

AVERAGE ALSO HAS TO BE APPROXIMATED. THE IRRIGATED SECTIONS OF THIS PROPERTY DO NOT FOLLOW COORDINATED AND/OR MEASUREABLE SHAPES THAT MAY BE PAID.

* NOTE: AVERAGE SPLIT BETWEEN THE SESW $\frac{1}{4}$ of 26 & the SWSE $\frac{1}{4}$ of 26 ARE ESTIMATED. ONLY 4 ACRES INSTEAD OF 6 ARE FOUND IRRIGATABLE IN THE SESW $\frac{1}{4}$ of 26 EVEN THOUGH THE OWNER SAYS AROUND 6. THUSLY, 1 ACRE CAN BE ASSIGNED TO BE IN THE SWSE $\frac{1}{4}$ of 26 AS RELATED VIA THE PERMIT.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13626

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Please be advised that there is insufficient natural flow available from the source identified on your permit to provide water throughout the entire season. You may want to arrange for a supplemental supply from a different source.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Sincerely,

Shelley W. Keen
