Subject: LOCATION & SOURCE

Existing P/D per 65-03580 -04031A & B & X. P/U in township 14N, not 13N per look at topo & per conversations with consultant, Sherl Chapman, during his office visit to file application. Note that 13N for sections is too far to south to make sense per hand-drawn map in original application (acres are east & northeast of P/D, not south & southeast if used 13N).
Note that P/D in Cascade Reservoir but seeking live flow when available from input via North Fork Payette River. To remain consistent with previous Davis rights from same system & to portray actual intent, source is listed as river, not as the reservoir.

RE: WATER RIGHT NO. 65-13619

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: WATER RIGHT NO. 65-13619

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that your place(s) of use is in a location other than what was described on your permit. Therefore, before a license can be issued, the permit must be amended to depict your water right as it was actually developed.

The enclosed Application for Amendment form depicts the place(s) of use and other information as it will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7944.

Sincerely,

Re: Licensing Recommendations
.....

I met with Phil Davis, Sheryl Chapman and Sue Bock at Western Region on October 26, 1999, to go over the licensing recommendations for the above rights and they also went over their SRBA recommendations. We discussed the licensing amendments and found changes need to be made.

Permit 65-12202 – Mr. Davis would like to have 1300 acre feet under this right which is the amount Steve recommended with additional exam fee submittal. Mr. Davis will be submitting an additional \$100.00 to increase the exam fee paid so that we can allow more water under this earlier priority right – per Steve's memo of 2/28/91 this is an acceptable way to allow the increased amount of storage water and the amount that was developed at time of the exam. Late exam fee submitted 11/2/99 under Receipt No. C047006.

Mr. Davis took an assignment of permit form for Permit Nos. 65-07777 & 65-12202 which were in his father's name. He said these permits should be in the name of Davis Cattle Company like the rest of these permits. He will have his father sign the assignment form and return it when he submits the additional exam fee. Mr. Davis returned the assignment form changing the names to Tom J. Davis &/or Davis Cattle Company.

Permit 65-13019 – Reduce the amount of water to 1360 acre feet after receiving the additional exam fee for 65-12202.

Permit 65-13619 – They were happy with the recommendations for this permit. I held onto the application for licensing amendment so we could send them all out for signature together.

Re: Licensing Recommendations
.....

In review of this permit, I found that the SRBA had created a permissible place of use for the lands associated under this permit. I contacted our regional office to be sure that the lands under this permit were included and Sue Bock stated that Mr. Davis had shown them all of his irrigated acres when they went over the permissible place of use. The lands recommended for licensing by the certified examiner were so close to the lands recommended under SRBA review that I have used those recommended lands for the place of use for this license. This right shall be limited to the irrigation of 198 permitted acres within the 4831 acre permissible place of use.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13619

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form and beneficial use field report submitted for the above referenced permit. The next step in the process of developing a water right is for department personnel to review the field report for licensing.

Enclosed is an order reinstating your permit since proof was submitted after the proof due date of September 1, 1996. Please note that the priority date has been advanced to May 15, 1995. Additionally, please note that the department has voided the proof submitted on October 10, 1995, and will refund the \$175.00 license exam fee. The refund should arrive in seven (7) to ten (10) business days.

If you have any questions concerning this matter, please contact me at (208)327-7953.

Sincerely,

JULIE L. YARBROUGH

TO: Water Right File 65-13619

FROM: Julie Yarbrough

RE: Conversation w/Sherl Chapman

DATE: January 24, 1997

I spoke with Sherl Chapman 1/23/97 concerning the Sept. 5, 1996, submittal of a proof and beneficial use field report for this permit. Proof and the license examination fee ^{were} ~~was~~ filed in 1995, however, the proof received date was not entered into the data base and a proof due notice was sent on June 30, 1996, with a proof due date of September 1, 1996. I informed Sherl of the situation and that the department would refund the exam fee, void the proof submitted in 1995, and accept the latest proof filing and field report. Sherl informed me that that would be acceptable.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13619

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13619

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Please be advised that there is insufficient natural flow available from the source identified on your permit to provide water throughout the entire season. You may want to arrange for a supplemental supply from a different source.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.
