E. NARRATIVE/REMARKS/COMMENTS

1. This permit is for spring water used for domestic, 1 home; stockwater; and 5.0 Ac. of irrigation. The spring water is obtained from ~~an~~ existing spring development under WR-65-13165 held by Roy Woodie on his property for a stockwater system. Water is piped from the spring development to a round galv. stock trough on the property line with Roy Woodie and Dave Little. Brent Hyde has an agreement with Roy Woodie to obtain water from his stockwater system, and to cross Dave Little's property with his pipeline to his 5.4 Ac. tract (Plu).

2. Brent Hyde's pipeline begins at the stock trough and has 50' of 1" steel pipe, 1400' of 1" PVC pipe, and 2900' of 2" PVC pipe. The pipeline has 2 Air Valves, and 3 shut off w/ drains, and conveys the spring water to the Plu - 5.4 Ac. Tract.

3. At the plu, a pipe stand with hose bibs provides water for the house and irrigation. A 1" PVC ^{pipe} off the 2" PVC mainline provides water to 2 stock troughs. The upper stock trough ~~to~~ has a pipe stand with hose bibs for irrigation in this area. The pressure was measured at the house by the owner and found to be 100-150 psi. The upper PVC pipe on the mainline is 160 psi rated,

Have conditions of permit approval been met? ☐ yes ☐ no

and ~~the~~ most of the 2" PVC mainline pipe is Sched. 40 to handle the high pressure. This high pressure is more than adequate to sprinkle irrigate the 5.0 Ac. of land. Although the flow at the plu is adequate for this permit, the yield of the spring is not known.

(Very high pressure pipeline)

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13604

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

If you have questions concerning the field examination, contact the **WESTERN** Regional Office in Boise, at (208)334-2190.

Sincerely,

CONFERENCE AND HEARING PROCEDURE

APPLICATION FOR PERMIT

Section 42-203A, Idaho Code, requires the department to consider the following issues in connection with an application for permit:

- 1) Will the proposed appropriation injure other water rights?
- 2) Is the proposed water supply sufficient for the purpose for which it is sought to be appropriated?
- 3) Was the application made in good faith or for delay or speculative purposes?
- 4) Does the applicant have sufficient financial resources with which to complete the proposed project?
- 5) Is the proposed appropriation in the local public interest, which is defined as the affairs of the people in the area directly affected by the proposed use?
- 6) Is the proposed use contrary to conservation of water resources within the state of Idaho?

BURDEN OF PROOF

The Applicant has the initial burden of proof on issues 1, 2, 3, 4, & 6 above and must provide evidence for the department to evaluate these criteria.

The initial burden of proof on issue 5 above lies with both the applicant and protestant as to factors which they are most knowledgeable and cognizant. the applicant has the ultimate burden of persuasion, however, for this issue.

PROCEDURE

The department generally conducts an informal conference with the parties to determine the issues and to try to settle a protested matter before a hearing is scheduled. If a hearing is held, the department will issue a written decision based on the hearing record.

CONFERENCE

The purpose of a prehearing conference is to provide the opportunity for the parties and the department to familiarize

9 1996

themselves with a contested matter and to attempt to resolve the matter. At the conference, the department may also formulate and simplify the issues, identify documents to avoid unnecessary proof, exchange proposed exhibits or prepared testimony, limit witnesses, discuss settlement offers, schedule hearings, establish procedure at hearings and address other matters that may expedite orderly conduct and disposition of the proceeding or its settlement.

HEARING

The department will tape record the hearing. Copies of a hearing tape are available upon request and the payment of the cost of reproducing the tape.

The hearing likely will be conducted by a hearing officer appointed by the Director rather than the Director himself. If so, the hearing officer will prepare a recommended order for the Director's consideration. Parties can file exceptions to a recommended order, briefs in support of the exceptions or may request oral argument. Parties may seek judicial review of any final order issued by the Director.

Parties may be written stipulation waive their right to a recommended order, particularly when a shortened decision process is desirable or necessary. Such a waiver does not eliminate any rights of the parties in connection with the final order of the Director and judicial review of the order.

EXHIBITS

A party who plans to offer an exhibit as part of the hearing record must provide a copy of the proposed exhibit to the parties and to the hearing officer.

AMERICANS WITH DISABILITIES ACT

Any hearing scheduled will be conducted in a facility which meets the accessibility requirements of the Americans with Disabilities Act. If you require special accommodations in order to attend, participate in or understand the hearing please advise the department within ten (10) days prior to the hearing.

At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-1203, Idaho Code):

2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
