E. NARRATIVE/REMARKS/COMMENTS

1. The wildlife pond is called Osprey Point Wetland Site by the Bureau of Reclamation.
2. A 36" wide adjustable flume measures the inflow to the pond and a 3' rectangular weir in the spillway measures the outflow. The dike also has a 12" cmp outlet pipe with a slide gate on the downstream end. The gate was closed at the time of the exam. The outflow in the spillway was 0.63 cfs.
3. The pond is also used to collect sediment and cattle waste to improve the water quality of Cascade Reservoir. The pond empties into the reservoir.
4. The 36" flume is calibrated to read cfs directly off the gage. The inflow was not recorded for this exam.

PROOF ACKNOWLEDGMENT LETTER

RE: Permit No. 65-13537

Dear Permit Holder:

The Department is in receipt of the proof of beneficial use statement and the \$125.00 license examination fee filed in connection with the above referenced water right permit.

This permit authorizes an annual storage volume of 20 acre feet. The license examination fee for a storage volume of 20 acre feet is \$50.00, therefore, I have initiated the process to refund the additional \$75.00 exam fee. The refund should arrive in seven (7) to ten (10) business days under separate cover.

Please be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have any questions concerning the field examination, contact the **WESTERN** Regional Office in Boise, at (208)334-2190.

Sincerely,

Unnamed Stream, Cascade Reservoir

Dear Ms. Yarbrough:

Enclosed is the Proof of Beneficial Use (Form No. 217) for the subject permit. I have also enclosed a check for \$125.00 for the examination. During development of our project as authorized by the subject permit, additional purposes of use have been identified. When you conduct the examination phase, please review the beneficial water use to be for water quality improvement and water quality improvement storage in addition to wildlife and wildlife storage purposes of use.

Sincerely,

Phillip E. Graf

PROOF DUE NOTICE

RE: PERMIT NO. 65-13537

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

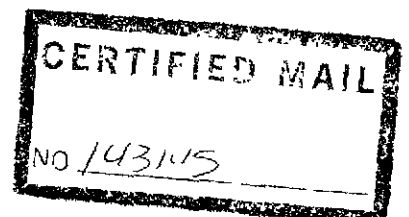

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

MEMORANDUM

Date: March 27, 1995
From: Jim Johnson
To: Glen Saxton
Subject: Application for permit for in-stream wildlife flow

=====

This memo in follow up to our discussion concerning the BOR's attempt to file applications for in-stream wildlife flows.

The two attached applications identify 1.00 cfs wildlife flow and in-stream storage volumes. The applications do not identify specifically how the water for wildlife will be put to beneficial use. See item 8.e.

Cindy Zimmerman has talked to Phil Graf who indicated that no diversion of water from the streams are intended.

I don't believe we can approve an application which would have an affect of an in-stream appropriation, therefore, I would propose one of two actions.

Approve the application for Wildlife Storage volume only, or approve the application with subordination language to allow later in time consumptive or non consumptive uses. I recommend the first alternative.

FYI, BOR has filed one other application for wildlife and wildlife storage, along with other uses, in that approval we used a subordination condition. The file is attached for your reference.

Per Glen's request we should remove the wildlife flow.

Jim.
