The Cadwells applied for an Application for Permit No. 65-13519 today. The above referenced drilling permit was obtained verbally by the well driller as a domestic well. The WR Application is for domestic and irrigation use.

I collected the additional \$165.00 to upgrade the drilling permit to include irrigation under receipt no. C030766. The original fee of \$35.00 is due from the well driller. Please update your drilling permit record...I can't! The application is being sent to Western if you have any follow-up they should know about.

RE: License No 65-13519 - Issuance of License

Dear Water Right Holder(s).

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W Keen

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303)

MICROFILMED
JUN 12 2007

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record

Section 67-5246(5), Idaho Code, provides as follows.

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- I. A hearing was held,
- II. The final agency action was taken,
- III. The party seeking review of the order resides, or
- IV. The real property or personal property that was the subject of the agency action is located

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

E. NARRATIVE/REMARKS/COMMENTS

- No gov't lots were found
- Overlaps for P/U, 65-00165X and 65-11413 are for the Lower Payette Ditch Co. The permit holders have no surface water shares. 65-02491 & 65-08343 different land
- Use is domestic internal/external Use (yard, garden and trees) Trees are both nut & fruit trees.
- I met with Myrtle Cadwell, 04 August 1998 at 9:00 AM.
- The source is groundwater. The pump is a 1 HP submersible pump. I used the odometer wheel to measure the land irrigated. Because of the accuracy of the odometer allow 1.4 acres. The permit holders has not completed the development of the entire 3 Acres. The east portion of their land has not had application of water for beneficial use yet. I informed the owners they would need to file an addition application when the balance of the acreage has been developed.
- The main line comes from the P/U (sw corner of the house) to the basement, the front (NW corner) goes to the front of the house, across the ^{driveway} ~~front~~ (W. to Payette Height Rd) along the west side of the driveway (approx. parallel to Payette Height Rd). The back mainline runs circular around the house. The mainline is 1 1/4" diameter. There are 10 lines with pop-up sprinkles with 6 heads per line, and 4 sprinklers in the garden Area.
- The pump information: Submersible, Grund Fos, Model SP-4", 240 V., 25 gpm
- The SW & NE piece is irrigated with a hose & sprinklers.

$$Q_P = 25 \text{ gpm} \times \frac{1.0 \text{ cfs}}{449 \text{ gpm}} = .056 \text{ cfs}$$

$$Q = \frac{(8,8) \times (H.P) \times (EFF)}{LIFT + (PEI \times 2.31)}$$

$$1.4 \text{ AC} \times .03 \text{ allowed} = .042$$

Since this is a small system, I assumed 40 psi, and 10' below the known static level of 73'.

$$Q = \frac{8.8 \times 1 \text{ HP} \times .7}{83' + (40 \times 2.31)} = .035 \text{ cfs}$$

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is APPROVED Date 6-30-94

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

USE FROM THIS WELL IS

RE: Water Right No. 65-13519
Drilling Permit No. 65-94-W-0244-000

Dear Permit Holder:

I have enclosed copies of the Proof of Beneficial Use form submitted in connection with the above referenced water right along with Permit to Appropriate Water No. 65-13519 and Drilling Permit No. 65-94-W-0244-000. The proof form and your permit to appropriate water indicate water is being diverted for domestic and irrigation of three (3) acres, however, the drilling permit issued only authorizes a single family domestic use. Single family domestic use constitutes the diversion of 0.04 cfs or less and/or the use for one home and irrigation of up to 1/2 acre of land.

You were properly charged \$35.00 for the domestic well drilling permit, however, because of the use and amount you have indicated, the drilling permit is no longer considered strictly single family domestic. The fee for a non-domestic drilling permit is \$200.00.

Before the Department can accept the proof of beneficial use as filed, you will need to pay the additional \$165.00 fee to upgrade the drilling permit to a non-domestic. Please submit the additional fee within sixty (60) days of receipt of this letter. **Please address your correspondence to my attention.**

Please contact me at (208)327-7900 if you have any questions regarding this matter.

Sincerely,

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 65-13519

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1996. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH

RE: PERMIT NO. 65-13519

Dear Permit Holder:

Enclosed is a copy of your approved application for permit.
Please be sure to thoroughly review the "CONDITIONS/REMARKS:"
listing on the permit.

As a permit owner you must commence the excavation or
construction of the diverting works within one year of the date
the permit was issued, and you must proceed diligently until the
project is completed. The date shown under condition no. 1
is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately
60 days prior to the above referenced date requesting you to file
either a Proof of Beneficial Use form or a Request for Extension
