CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

Measured Method:

Additional Computation Sheets Attached

THEORETICAL; .06 cfs $\frac{5 \text{ HP} \times 8.8 \times .70 \text{ EFF.}}{(2.3 \times 35) + 465 \text{ dyn.}} = .06 \text{ cfs SYSTEM CAPACITY}$

IRR. NEED; 2.6 ACRES $\times .02 = .052 \text{ cfs}$ DOMESTIC; Allow .01

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{LR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 2.6 \times 3.5 = 9.1 \text{ AFA}$
 $V_{D.R.} = [\text{Diversión Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .05 \times 246 \times 1.9835 = 24.4 \text{ AFA}$
 $V = \text{Smaller of } V_{LR} \text{ and } V_{D.R.} = 9.1 \text{ AFA}$

2. Volume Calculations for Other Uses:

20 ANIMALS
EXHIBIT 15A
(15 CATTLE; 5 HORSES)

MEMORANDUM

TO: File 65-13491 / Mark Coundides
FROM: Brenda Chapman
DATE: April 5, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	3-15 to 11-15	.05	11.7
Stockwater	1-01 to 12-31	.01	.3
Domestic	1-01 to 12-31	.01	.6

The annual irrigation diversion volume is adjusted to the to the currently used Field Headgate Requirement and Season of Use chart standards.

With the reduction in acres from the original permitted 4.5 to 2.6, the annual irrigation volume needed is reduced by 8.6 af. Increasing the number of stock from 5 horses to 20 head of mixed stock is only an additional .2 af. Therefore, there would not be an increase to the original permitted annual diversion volume.

ACTION OF IDWR

☒ Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

RE: Permit No. 65-13491
Drilling Permit No. 65-90-W-0051-000

Dear Permit Holder:

Enclosed is a copy of the Proof of Beneficial Use submitted in connection with the above referenced water right. It, and your permit to appropriate water (copy enclosed), both indicate that the water is diverted for irrigation, stockwater and domestic purposes. Also enclosed is a copy of the drilling permit applied for prior to your purchase of the property. It indicates the extent of use to be single family domestic only. Single family domestic use constitutes the diversion of 0.04 cfs or less and/or the use for one home.

The previous owner was properly charged \$10.00 for the domestic well drilling permit. However, because of the use you have indicated (irrigation, stockwater and domestic w/a total diversion of 0.12 cfs), the drilling permit is no longer considered strictly single family domestic. The charge for a non-domestic drilling permit at that time was \$100.00.

Before the Department can accept the proof of beneficial use as filed, you will need to pay the additional \$90 fee to upgrade the drilling permit to a non-domestic. The Department will hold your file for 30 days to allow you time in which to submit the additional fee. When you submit the extra fee, please direct all correspondence to my attention.

Additionally, when the permit to appropriate water was issued, it was assigned the wrong permit number. I have assigned the permit a new number, which is 65-13491. Please refer to this new number in any future correspondence.

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to February 1, 1995. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

PROOF DUE NOTICE

RE: PERMIT NO. 63-11425

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11425

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water.

MICROFILMED

MAR 19 1991

Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.
