Affidavit of Publication

STATE OF IDAHO COUNTY OF VALLEY

I, Michael C. Stewart, being duly sworn deposes, and says, I
am the Publisher of The Advocate, a weekly newspaper
published at Cascade, in Valley County, Idaho; and having a
general circulation therein and of legal status in said
county.

The appl. for water rights, a copy of which
is attached hereto; was published in said newspaper once a
week for 2 consecutive weeks in the regular and
entire issue of every number thereof during the period and
time of publication, and was published in the newspaper
proper and not in a supplement; and that publication of
such notice began 7-21, 1993, and
ended 7-28, 1993.

Michael C. Stewart

Michael C. Stewart

Signed this the 30th day of July, 1993

STATE OF IDAHO)

Water Right License

WATER RIGHT NO. 65-13462

Priority: June 29, 1993

Maximum Diversion Rate:

0.05 CFS

Maximum Diversion Volume:

18.2 AF

This is to certify, that LARRY BESKON
DAVE MC COMAS
ROBERTA LYNN BESKON

4746 ANDERSON WAY

NAMPA ID 83687

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 29, 1993; and has submitted Proof of Beneficial Use on September 25, 1995. An examination indicates that the works have a diversion capacity of 0.050 cfs of water from:

UNNAMED STREAM

tributary to ROUND VALLEY CREEK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.05 CFS	18.2 AF

LOCATION OF POINT(S) OF DIVERSION:

SESE , Sec. 36, Township 12N, Range 03E
VALLEY County

Total number of acres irrigated: 11

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
2. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
4. When water is not available to fill this right, the right holder shall cease diversion or shall rent water from the Payette River Rental Pool.

Subject:

ADDITIONAL INFORMATION

Same spring as 65-12932 used for domestic & stock. Excess water at source will be routed to small pond to eliminate swampy area below spring. Will pump from pond to acres. Pond estimated at 20' x 20'x5' or .05 af. Since .11 cfs yields .2 af/day, pond is a detail of system. Pond will be near center of SW 1/4. Will irrig. at minimum level of .01 cfs/ac, hence 11 acres. Any overflow from pond will be returned to unnamed stream tributary to Round Valley Creek.

RE: WATER RIGHT NO. 65-13462

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

APR 14 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: File 65-13462

FROM: Sharla

DATE: February 11, 1999

RE: Clarification of Source

The application originally identified that the source of water to be used for irrigation was the same spring that serves the domestic and stockwater uses under Right 65-12932. The source identified by the examiner to be licensed under 65-13462 is an unnamed stream. Per the photos and narrative found in the field report for 65-12932, the system developed consisted of a springbox diverted to pipeline under the road and to the house. The examiner noted that a portion of the spring water free flows under the road (via a culvert) to the pasture area by the home. In actuality, the sources identified on the license should have been spring **AND** unnamed stream. Some pipe was located in the stream but was not being used for any purpose at the time.

The free flowing water appears to be the source found by the examiner when conducting the field inspection for 65-13462. It is appropriate to name this source an unnamed stream, rather than "spring" which was appropriate for the earlier right utilizing the springbox.

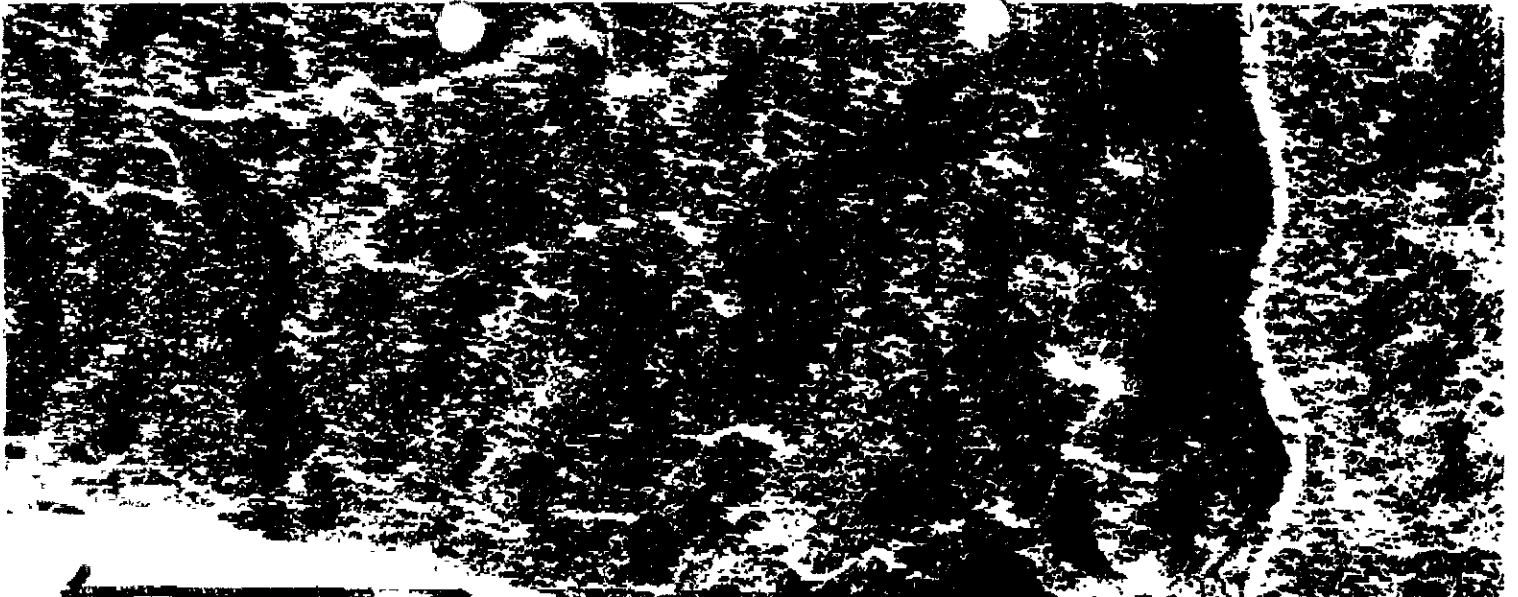

The examiner has used the term "permissible place of use" for this right to describe the irrigation practice of the right holder. This term is not appropriate, however, because the *rotation* that occurs is done to cover the entire 11 acres every season. The right holder does not irrigate 3-4 acres per year and then rotate to another 3-4 acres the next year. All 11 acres are identified for irrigation with ~~an~~ diversion volume reflecting the limitation based on flow rate

Examiner: Lori Graves

Exam Date: 9/14/1998

E. NARRATIVE/REMARKS/COMMENTS

A 150 gallon tank has been positioned in a natural stream bed and is used to collect water from an unnamed stream via 12" culvert and 4" pvc pipe. From the tank, a 1.5" mainline transfers the stream water ~ 1000' via gravity flow to the p/u. To get across Round Valley road, the mainline runs through an existing culvert. Once across the road, the mainline T's off to supply to lines consisting of four 9/16" risers each. There is 100' between each riser. At the time of the exam, the stream diversion was measured from the 4" pvc pipe (prior to tank) at ~ 5 gallons in 14 seconds or .05 cfs. Applicant stated that the flow was abnormally good. He had previously measured it at 9 and 12 gpm the previous season. The home is supplied water from a domestic spring that was licensed under 65-12932. This spring was the source listed for this permit, but was not the source that was developed for this permit. The unnamed stream is visible on the attached topo map. The spring and the stream are

MICROFILMED

1999

separate systems. The spring is used inside the home and the stream is used for irrigation for the lawn and pasture. The 11 acres should be recognized as a permissible place of use, since the system does not have the capacity to irrigate all 11 acres at the same time. The system at the p/u is portable and can be rotated throughout the 11 acres of lawn and pasture. The owner also filed a second permit, 65-13567, on the same stream system for 80 acres, which he acknowledges should be cancelled. This permit is sufficient for what he can actually irrigate. No other rights are used.

Have conditions of permit approval been met? ☒ yes ☐ no

MICROFILMED

F. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method:

$$\frac{5 \text{ gallons} \times 60 \text{ seconds/min}}{14 \text{ seconds}} = 21 \text{ gpm} = .05 \text{ cfs}$$

14 seconds was average time of three measurements

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 11 \times 3 = 33$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .05 \times 184 \times 1.9835 = 18.2$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 18.2$$

2. Volume Calculations for Other Uses:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	4/15	10/15	.05	18.2
Totals:			.05	18.2

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☒ Other

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13462

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 65-13462

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

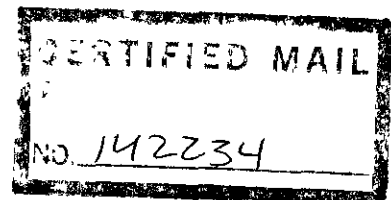

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13462

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control on your diversion.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Same spring as 65-12932 used for domestic & stock. Excess water
at source will be routed to small pond to eliminate swampy area
below spring. Will pump from pond to acres. Pond estimated at
20' x 20' 5' or .05 af. Since .11 cfs yields .2 af/day, pond is a
detail of system. Pond will be near center of SW 1/4. Will irrig.
at minimum level of .01 cfs/ac, hence 11 acres. Any overflow from
pond will be returned to unnamed stream tributary to Round
Valley Creek.
