PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 65-13438 Telephone No. 208 462 3439
2. Name of Permit Holder(s): SHILO RANCH ESTATES HOMEOWNERS ASSN INC
3. Mailing Address: 61 SHILO DR
City GARDEN VALLEY State ID Zip 83622
4. Source of Water: GROUNDWATER If GROUNDWATER (well), Date Drilled: mo. 7 / yr. 94
Well Driller: S.O.S WELL DRILLING Drilling Permit Number: 65 94-C-0175-000
RANCH DRILLING 15038
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): 55 (.34 cfs) Stockwater (No. and type of stock): _____
Irrigation (No. of acres): .55 cfs Other: _____
6. Total rate of diversion and/or volume for which proof is submitted: .2 cfs OR _____ acre-feet
OR MAX PERMITTED
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)
Measuring Device: Is a measuring device required? Yes ☒ or No _____
Has the measuring device been installed? Yes ☒ or No _____
8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: BILL SIPPLE / LARRY COBB Telephone Number: 208 462 3439 / 208 462 3985
Address: 22 MUSTANG WAY GARDEN VALLEY ID 83622
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

REQUEST FOR EXTENSION OF TIME

**TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT**

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 65-13438

Name(s) of Permit Holder: Shilo Ranch Homeowners Assoc. Inc.

Mailing Address: 61 Shilo Drive Garden Valley Idaho 83622

Date Proof is Due: June 1, 1998 Telephone No. 208 462 3439

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Approximatley one mile of main water lines installed under road system
with delivery lines and valves installed (for 34 lots). A lot was obtained
and a well developed and now operational (35 gpm). A second well site has been
located. Old well is ready for abandonment. Costing \$ 38,000.00(est.

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Please see attachment.

Permit holder(s) request an extension to * June 2003
October 1 1998 * per phone conversation w/permit holder 6/4
FEE: \$50.00
William Sipple, President SREHA
(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to June 1, 2002.

Signed this 4th day of June, 19 98

J. Glen Saylor
MICROFILMED, Water Allocation Bureau

JUN 05 1998

REQUEST FOR EXTENSION OF TIME PERMIT # 65-13438

"... unable to complete the remainder of the work for the following reasons":

DWR will not approve and issue a well drilling permit until DEQ approves the engineering plan for well construction and 'Shilo' provides and records a Sanitary Water Easement.

Our engineering firm, Roylance and Assoc., and Monty Marcus at DEQ have not been able to agree on the content and extent of this engineering plan. Roylance had developed what they and 'Shilo' had thought was an acceptable plan but when we applied for a well drilling permit it was determined to be inadequate. We now believe that all the necessary information is in the hands of our engineer and he has indicated that the plan should be ready any time now. 'Shilo' has had their well driller on site numerous times since last fall when we thought we were ready to drill. We will drill immediately upon approval of our permit.

We have also decided to delay the well house and site engineering plan until we actually get the permit to drill. There is no point in spending thousands of dollars for a project that may not fly. This will delay the completion of this project probably until next summer.

'Shilo' has spent a lot of time and money to get the necessary waivers from DEQ just to get this project going and we hope that our bureaucratic problems don't stop us from obtaining the necessary water supply for our subdivision. Monty Marcus advised that your office could contact him and he would verify the bureaucratic issues we have encountered and would recommend an extension.

The Sanitary Water Easement has been agreed upon by the parties involved but Monty Marcus has required us to change the verbiage of the easement and we have had the same problems with our engineer and Monty Marcus as to what needs to be contained in this document. I, also, believe this issue has been resolved and the easement's should be signed and recorded soon.

Trying to get our second well on line has taken almost two years of what seems like constant issues that come up to delay any real progress. 'Shilo' completed a well project similar to this three years ago with very little difficulty. I do not know whether it has been my volunteer effort or Roylance and Assoc. or Monty Marcus but this project has taken much too much time and expense just to supply a small subdivision with the necessary water it needs. We cannot afford to give up this effort at this time and request you give us an extension until October 1, 1999.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1 Approval of said application is subject to the following limitations and conditions:

a SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

Comments: overlaps

Permit 65-12975, by Earl Livingston, has the same P/D, covers 20 of the same houses, and 10 acres.

Permit assignment was sent 3/8/93. Applicant does not want this application trimmed back to only cover the additional 35 homes and acreage because some of the lots will have more than 1/2 acre lawn to irrigate. The 10 acres on permit 65-12975 can cover the excess acreage not exempt from the moratorium. To prevent a dom overlap, applicant plans to amend 65-12975 ~~eliminate~~ the domestic use rather than reduce this application's domestics in order to keep the total irrigation amount.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13438

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Northern** Regional Office of the department in Coeur d'Alene at (208) 769-1450.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

RE: PERMIT NO. 65-13438

Dear Permit Holder:

Enclosed is a copy of the Proof of Beneficial Use (proof) statement you submitted in connection with the above referenced water right permit. On the proof form you have written in paragraph 6 that your total rate of diversion is .2 cfs and added below that "or max permitted". The max permitted is .89 cfs. Therefore, before the department can accept your proof for the maximum permitted, it must be accompanied by the appropriate license examination fee, which would be an additional \$50.

Please return the enclosed copy of the proof form along with the additional \$50.00 license examination fee to my attention in the next **fifteen (15) days** to complete the processing of your proof. If you have any questions regarding the Proof of Beneficial Use process, please contact me at (208) 327-7953, or contact the regional office in Boise at (208) 334-2190 with your water right questions.

Sincerely,

Deborah J. Gibson

PROOF DUE NOTICE

RE: PERMIT NO. 65-13438

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 01, 2002. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Admin. Assistant
Water Allocation Bureau

RE: Water Right 65-13438

Dear Water Right Holder(s):

The Department of Water Resources (IDWR) has issued the enclosed Amendment of Permit approving your application to amend the water right referenced above. Please be sure to review every element of the Amendment of Permit, including the conditions of approval and remarks.

The Amendment of Permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions regarding this matter, you may call me at 208-327-7940.

Sincerely,

Jeff Peppersack, Manager
Water Right Permits Section

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

AUG 10 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: FILE

FROM: DANIEL A. NELSON

DATE: 4/24/1999

SUBJECT: AMENDMENT TO PERMIT 65-13438

I spoke with Gary Spackman concerning the need to advertise this amendment on 6/23/1999 and we both agreed that this amendment did not need advertised. I also spoke with Rob Whitney concerning this amendment and he said that he had no problems with amending the permit. Mr. Whitney also said that the drilling permit for the second well has lapsed and that a new permit dealing with any needed restrictions would need to issued prior to drilling the second well.

WELL DRILLING PERMIT NUMBER INDEX: Permit No. 65-98-W-0022-200 (cont'd)

Conditions of Approval: Approval of this drilling permit does not authorize trespass on the land of another party.

This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

This drilling permit does not represent a right to divert and use the water of the State of Idaho.

If a bottom hole temperature of 85 Degrees F (29.44 C) or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (Digline is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "Dig Line" Number for your area is 1- .

The use of water from this well is for Domestic purposes only which includes irrigation of up to 1/2 acre of land with all combined uses not to exceed 13,000 gallons per day (42-111A1), or for Domestic uses other than for homes, organization camps, public campgrounds or livestock where the diversion rate and volume does not exceed .04 cfs and 2500 gpd (42-111B1).

Pursuant to Section 42-236(4), Idaho Code. All repairs and/or abandonments must meet the requirements of the Department's Rules and Regulations for Well Construction Standards.

As this is a replacement well, the well being replaced shall be abandoned by a plan approved by the Dept. which meets State minimum construction standards 2,12,1.

Specific Conditions: This well will be sealed into an aquitard situated at a minimum depth of 50'. If a sufficient quantity of water is encountered at the 200 to 300' depth and the overlying formations are water bearing or are potential conduits for shallow aquifers to enter into this well bore, the department will be contacted for consideration of sealing to a greater depth to preclude this from occurring.

Permit Remarks: COPY OF PERMIT TO APPROPRIATE WATER, APPLICATION FOR AMENDMENT OF PERMIT, MAP AND VARIOUS WELL REPORTS ASSOCIATED WITH THIS PERMIT ATTACHED. 16 PAGES TOTAL. DW

Conditions of Approval: This drilling permit is valid for two (2) months from the approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.

This permit does not constitute an approval of the District Health

MICROFILMED
AUG 10 1999

WELL DRILLING PERMIT NUMBER INDEX: Permit No. 65-94-C-0175-000 (cont'd)

Conditions of approval:

Department or the Idaho Department of Health and Welfare which may be required prior to construction of this well. The local Health Department should be contacted for septic tank/drainfield locations. Domestic wells must not be drilled closer than 100' from any drainfield and 50' from any septic tank. Public Water Supply wells must not be drilled closer than 100' from any drainfield or septic tank.

The well shall be constructed by a driller currently licensed in the state of Idaho who must maintain a copy of the drilling permit at the drilling site.

Approval of this drilling permit does not authorize trespass on the land of another party.

This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

This drilling permit does not represent a right to divert and use the water of the State of Idaho.

If a bottom hole temperature of 85 Degrees F (29.44 OC) or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

If an annular seal of bentonite is to be utilized, it shall be a high solids (>X30) bentonite. The bentonite shall not contain chemical polymers which effect long term stability of the seal and are often found in drilling fluid grade bentonites, but rather will be specifically recommended by the manufacturer for use as a seal in the construction or abandonment of water wells.

Drilling fluids shall be mixed with water which meets or exceeds drinking water standards.

If a neat cement grout is to be utilized as a seal material, additives such as the following shall be used to reduce dehydration and shrinkage.

Mix water quantity shall strictly follow manufacturer's specifications paying close attention to cement grind and water ratios, (generally between 5 and 6 gallons per sack) eliminating free water.

Water quality of the mix water shall meet drinking water standards.

The use of bentonite added to cement grout to reduce hydraulic conductivity shall not exceed 4% and shall be prehydrated prior to mixing with the neat cement. The bentonite shall not contain chemical polymers which effect long term stability, and are often found in drilling fluid grade bentonites, but will be specifically recommended by the manufacturer for use as a seal material.

The screened, perforated, filterpacked or otherwise open and camingled strata which are to be produced from, shall be of similar hydraulic head,

MICROFILMED
AUG 10 1999

WELL DRILLING PERMIT NUMBER INDEX: Permit No. 65-94-C-0175-000 (cont'd)

Conditions of approval: temperature and quality. If there are notable variations encountered as the well is drilled and/or developed, the Department will be notified for evaluation.

If an annular space of at least 4 inches greater than the outside diameter of the casing is provided a granular bentonite or bentonite chips may be poured at the manufacturer's recommended rate or no greater than 50 pounds in five minutes. The pour shall also be prestited through 1/4 inch mesh screen to reduce the introduction of fines unless the annular space is free of water, ie (above the water table and there is no cascading water). The top of the seal shall be tagged at regular intervals, ie. (30' intervals) during placement with a sinker bar or other appropriate device to ensure the seal is reaching the intended depth. If bridging occurs, the seal shall be tamped to its intended position or the Department will be contacted for evaluation.

RE: Permit No. 65-13438

Dear Permit Holder:

I have enclosed a copy of the approved request for extension of time submitted in connection with the above referenced permit, which extends the time within which to submit proof of beneficial use to **June 1, 2002**. Please note that the department granted the extension based on due diligence. It is important that you work diligently towards completion of this project since the department **will not** be able to grant additional extension requests based on due diligence.

Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact this office or any regional office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please contact me at (208)327-7953, if you have any questions regarding this matter.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 65-13438

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13438

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well

NOTED

MAY 20 1993

so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: IDWR - Public Waters Appropriation Permit
Permit No. 65-13438 - Shilo Ranch Estates

Dear Mr. Tuthill:

The project must be conducted under the design and supervision of an Idaho registered professional engineer. The process to follow is:

1. The engineer must submit a preliminary site evaluation based on proximity of pollution sources. We will evaluate the proposal, conduct a site inspection, and issue a written site approval if warranted. The applicant should give his consultant the enclosed checklist.
2. Detailed plans and specifications must be submitted to this office for review. The well may not be drilled until all approvals are obtained from both DEQ and IDWR. The last approval will come from DEQ; we will not issue approval until final approvals of both IDWR permits (appropriation permit and well drilling permit) have been submitted.

We will pay particular attention to the following items:

1. Construction must be done under the general supervision of the professional engineer. The contract assuring this must be submitted with the application.
2. Certain portions of Ada and Canyon Counties are in an Area of Drilling Concern. Those wells must be constructed to more rigorous standards of construction, testing, and supervision. Those specifications will be reviewed concurrently by this office and John Carlson at IDWR.
3. Numerous water quality parameters must be tested as soon as the well is completed.
4. The applicant must contact this office as soon as fifteen (15) homes are connected to the system.

Sincerely,

Monty G. Marchus

Ranch Estates Homeowners

Dear Sir:

Enclosed is a copy of the above-referenced application for permit which may be of interest to your agency. Please review the application and submit any comments you may have.

This office normally completes the processing of an application within a six-week period and is required to take final action shortly thereafter, however, if your agency desires to file a formal protest against the approval of this application(s), your written protest must be received in this office by April 5, 1993.

If you have any questions regarding the application, please contact this office.

Sincerely,

DAVID R. TUTHILL, JR., P. E.

Dear Legal Dept.:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before APRIL 5, 1993.

Yours truly,

GAIL GARRETT
Secretary

Encl.
