RE:

Response to my 12/28/92 letter:

1 Appl - 8 a.f.

post 11/87 but existing, covers more than 1/2
acre surface area, subject to moratorium.
Will send add'l. \$15 to bring rate up to
.50 yf.

1 Appl - 40.1 af. - split into 2 Apps. due to
moratorium issues:

a) ponds 1-7 28.1 af, pre 11/1987 (see into
submitted today). SCA permit issued ~~4/87~~ 6/87 with
work to be done by 6/90 - but actually completed
work summer-fall of 1987. Original slides available
if needed from applicant.
no div. to storage; \$45 fee will cover 28.1 af,
OK to advertisement & process.

b) pond 8 12 af, exists but post 11/87, ~~covers~~
covers more than 1/2 acre surface area. ~~Hold~~
due to moratorium.

Split from original due to moratorium, no
add'l. fee required. Same \$45 as in a above
covers this filing.

1 af div to storage, 12 af stored, pld SE SW 1/4 S34,

CONTROLLING WORKS CONDITIONS OF)
OF APPROVAL FOR PERMIT NO. 65-13433)
THE NAME OF IDAHO DEPT. OF FISH & GAME)
_____)

ORDER

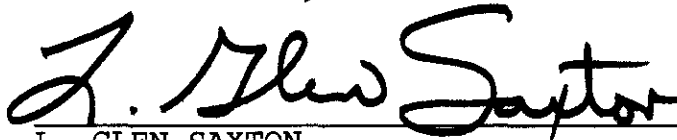

WHEREAS, the Department of Water Resources (department) has issued the above captioned water right permit with a condition of approval requiring the permit holder to install a measuring device and lockable controlling works to facilitate the measurement and determination of the rate of diversion by the department; and

WHEREAS, the department has determined that the rate of diversion for certain surface water uses can be estimated by the department without the use of a measuring device; and,

WHEREAS, the department has determined a lockable controlling works is not necessary at this time;

IT IS THEREFORE, HEREBY ORDERED that the condition of approval requiring the installation of a measuring device and lockable controlling works for the above captioned permit be **WAIVED**. The department retains jurisdiction to require the condition be reinstated in the future upon a finding of need by the department.

Dated this 19th day of October, 1994.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 65-13433

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Additionally, enclosed is an Order waiving the measuring devise condition from your water right permit.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

c: IDWR - Region

RECEIVED

OCT 26 1994

Department of Water Resources:

Concerning permit no. 65-13433 I discussed the installation of a measuring device with your office at 327-7900 and with the security the department of Fish and Game has for the pump, a locked cinder building, a measuring device wavier could be requested .I have checked on such devices and it would be difficult to install and the department would request a wavier at this time.

Thank You
Tim Shelton
Fish and Game

OCT 26 1994

July 31, 1994

STATE OF IDAHO
DEPT OF FISH & GAME
PO BOX 25
BOISE ID 837200025

PROOF DUE NOTICE

RE: PERMIT NO. 65-13433

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13433

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Sincerely,

for JIM JOHNSON
Water Rights Supervisor

STATE OFFICE REVIEW

See below for additional information. By _____ Date _____

ADDITIONAL INFORMATION

Existing diversion (same as 65-00490 from draw ditch) is pond but > 11/87; surface
area greater 1/2 acre; hold due to monitoring.

65-00490 irrigates 15 acres in same area as pond.

NOTE: 65-00490 lists same as Langley Gulch Drain. Per topo, Langley Gulch
is identified ("DRAIN" does not appear in name on topo). I showed
water meter at source with remark to tie it to W.W. in Langley
Gulch.

May need to make 65-00490 & 65-13433 consistent in names

Proper name per topo = Langley Gulch (not Lg drain).

Be sure to see "Comments" in 65-13432.

Steven J. &/or Jeanette L. Mednicoff and 65-13433 in the
Name of State of Idaho, Department of Fish & Game

Dear Watermaster:

Enclosed is an application(s) for a water right(s) within your
water district. Also enclosed are forms for your
recommendation concerning these applications for permit.

Please review the applications and return your recommendations
within two weeks. If you have questions or need information,
feel free to contact this office.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Manager, Western Regional Office

NAME OF PARTY Dale Allen - Fig Region 3
EMPLOYEE Steve Lester

RE: Clarify application:

Add 1.00 cfs Wildlife as clarification of this right - this was overlooked earlier & is typical description used in pond situation. This does not increase the amount of water in insteadaal right - no change in d.o.p.

Modify & proceed with processing now that moratorium is lifted for bas. 65.

RE: Applications for Permit for Payette Wildlife Management Area

Dear Mr. Gebhards:

This office recently received two applications for permit for wildlife ponds in the above-referenced management area. Several items require additional information to complete the applications. Please consider the following points in your response.

APPLICATION NO. 1 FOR 8 ACRE-FEET

1. The smaller application proposes a water right permit for an existing irrigation pump associated with decreed right no. 65-00486. Because water will be pumped to the pond, a diversion rate is needed in the application. The irrigation right allows .50 cfs. A \$30 application fee was paid which covers up to .20 cfs. Do you want to limit the diversion to storage component to .20 cfs with no additional fee needed, or would you prefer to establish a right for .50 cfs, in which case an extra \$15 fee is needed? In the latter case, please remit the fee with your reply.

2. According to the F&G employee delivering the applications, the pond exists but was not in place prior to November, 1987 which is the commencement date of the Snake River Basin Adjudication (SRBA). Also, he stated that the pond covers more than one-half acre of surface area. Due to the drought-related moratorium on new water rights, applications for storage ponds cannot be approved unless the system was in place prior to SRBA commencement (verification needed) or unless the pond covers one-half acre or less. Without information to the contrary, the application must be held pending withdrawal of the moratorium.

3. Based on responses to the above points, the application will be modified if needed and held as explained in item no. 2. Delays related to IDWR decisions do not affect the date of priority of an application. You will be notified of any changes in the moratorium situation.

Page 2

APPLICATION NO. 2 FOR 40.1 ACRE-FEET

The larger application for permit includes storage not covered by license no. 65-12828 plus another pond constructed after the June, 1989 field examination of 65-12828. The examiner found 90.5 acre-feet (af) stored in ponds, of which 62.4 af were covered by the earlier right. The balance of 28.1 af plus added 12 af from a pond built after the exam are filed upon now for 40.1 af.

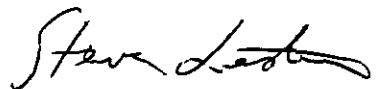

License 65-12828 was issued for waste water and pond water. If an excavated site results in an existing pond but is now being filed upon to obtain an after the fact right, the source is shown as pond instead of springs or shallow ground water. Sources for application no. 2 should be ponds and waste water.

According to our records and the application, the ponds are existing and cover more than one-half acre total surface area. The newest pond was built after 11/1987, but were the others ponds in place prior to 11/1987? If so, and if verification can be provided (photographs, aerial photos, or affidavits are examples), all but the new pond can be considered for approval as an exemption to the moratorium.

1. Please provide verification if ponds 1-7 were constructed before 11/1987.
2. For pond 8, the application indicates that water is diverted from a drain to the pond. A rate of diversion is needed. License 65-12828 does not include a diversion rate (storage only), and an estimated rate should be provided. An application fee of \$45 was paid, which allows from .21 to 1.00 cfs. A rate higher than 1.00 cfs requires additional fees. What diversion to storage rate is desired? See the attached fee schedule for rates exceeding 1.00 cfs and remit fees if applicable for application no. 2.
3. Pond 8 appears to cover more than one-half acre and cannot be exempted from the moratorium.
4. Based on the preceding discussion and your response, application no. 2 will be held in its entirety due to the moratorium or the application can be split into two parts. One part can be processed if ponds 1-7 were used prior to 11/1987, and the other part for pond 8 would be held.

If you need more information in preparing a response, please contact me at 334-2190.

Sincerely,

Steve Lester
Water Rights Supervisor
