Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

1997 11 10 10:00

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

E. NARRATIVE/REMARKS/COMMENTS

10' of 4" perforatrd pipe, buried 5' deep, collects spring water, which the gravity flows through 2" pvc to the domestic lawn. A case could be made that the source is actually ground water, since the perforated pipe was buried 5', however, the area is very "spring like" and the perforated pipe method of diversion is similar to a springbox installation. The source definition is a state office call based on the field exam findings. The spring is located ~400' south of the house and 20' East of the creek bed.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 65-13380

Dear Permit Holder:

Per your discussion with Shelly Keen February 8, 1996, your App. for Amendment and Request for Extension of Time are being returned to you unprocessed. The department has applied the \$50.00 you submitted to the Proof of Beneficial Use statement.

Enclosed is an order reinstating your permit since proof of beneficial use was received after the proof due date of June 1, 1995. Please note that the priority date of the water right has been advanced to June 11, 1992.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. Due to the number of exams to be conducted by the department, the exam likely will not be conducted for some time.

If you have questions concerning the field examination, please feel free to contact the WESTERN Regional Office in Boise, at (208) 334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

RE: Phone conversation with Gene Gorbet

=====

Today I spoke on the phone with Gene Gorbet, holder of permit 65-13380. He explained to me that the only development to have occurred under this permit is a diversion from one spring for stock watering purposes. He wants his \$50 paid on receipt C033177 to cover his proof of beneficial use statement, which was submitted on 7/12/95. He also wants us to honor his wife's request to withdraw their application for amendment of permit. He also requested that the request for extension of time his wife filled out be disregarded.

I told Mr. Gorbet to expect a licensing amendment to change the nature of use of his appropriation after our field inspection has been conducted.

Subject: Telephone Conversation with Susanna Gorbet

=====

I contacted Susanna and discussed with her options available to her in regards to the Request for Extension of Time, Proof to Beneficial Use, and the Application for Amendment of Permit.

She reported that no water was being used except to supply two horses which may be sold soon. I informed her that if the only use of water was for the two horses then the \$50.00 she filed was not necessary for the Proof of Beneficial Use filing. The filing could be used for 1. Extension of Time (\$15.00), 2. Application for Amendment of Permit, 3. Refunded.

Her husband will be returning from over seas on Thanksgiving and will stay until mid December. Susanna requested that no action be taken until her husband returned. She will have him call me.

RE: Request for Extension

I received the attached extension of time and amendment withdrawal requests from Susanna Gorbet. There is also a proof filing (no fee) in the vault file which was submitted simultaneously with the amendment in July.

I have been speaking with the Gorbets over the last month or so concerning the amendment. Unfortunately, Gorbets appear to have worked with several different staff members and seem unsure of the appropriate action to take with regard to their permit. While I don't know the exact history, I suspect that when proof came due (6/1) and lapse notice was sent (6/12), Gorbets asked for advice, received several options, and erroneously filed two conflicting documents, neither of which adequately address the situation.

I was able to confirm from Mrs. Gorbet that the diversion system was in place and beneficial use being made to the extent of stockwater and a small amount of irrigation. Gorbets would like to develop a little more irrigation, but likely not the full 10 acres under the permit. The amendment is not required for the reduction in acres, and I don't believe it would be necessary for the addition of a minor amount of stockwater; the form that should have been filed in July was an extension of time.

Susanna Gorbet has attached a request to withdraw the amendment and apply the fees toward the extension of time. Implied is that the proof filed should also be withdrawn. This should purge the file of all unnecessary forms and allow the Gorbets ample time to complete their development.

RE: Permit No. 65-13380

Dear Permit Holder:

I have returned a copy of the Proof of beneficial Use you filed in connection with the above referenced water right permit. Before the proof can be processed, it needs to be accompanied with the \$50.00 license examination fee. You submitted \$50.00 with the proof form and an Application for Amendment, however, since the \$50.00 was applied to the amendment you now need to submit an additional \$50.00 to cover the fee for filing the proof.

Please submit the additional \$50.00 within **30 days** of receipt of this letter so I can process the proof form. Please address your correspondence to my attention and reference the permit number on the check.

If you have any questions, please contact me directly at (208)327-7953.

RE: Application for Amendment of Permit 65-13380

Dear Mr. and Mrs. Gorbet:

Your application to amend permit no. 65-13380 was forwarded to me for review and advertising. Our office is also holding your proof of beneficial use statement for the same right, pending processing of the amendment. However, I am not sure the proposed amendment is necessary.

The amendment application indicates a reduction in permitted acres from 10 to 3, and the addition of stockwater. Typically, permit reductions do not require advertised amendments unless other significant changes will also be made during development of the right, such as moving the place of use from the permitted location. This does not appear to be the case.

The addition of stockwater to the permit is not a significant modification, and will likely fit within the original implied permit limits, especially if all irrigated acres were not developed. Again, this change should not require an advertised amendment. If both the above changes have already occurred, the appropriate adjustments may be made during the licensing process.

I will continue to process this amendment if you desire. Or, you may withdraw the application for amendment, and your \$50.00 fee may be applied to your proof of beneficial use statement. IDWR may then conduct a field verification for licensing.

I have enclosed an application withdrawal form. If you elect this option, please complete the form and return to my attention. If I do not hear from you **within 30 days**, I will submit the application for advertising. If you have questions, please call me at 334-2190.

RE: Permit No. 65-13380

Dear Permit Holder:

I have returned a copy of the Proof of Beneficial Use form submitted in connection with the above referenced water right. The Department received your proof form and the application for amendment of the above referenced permit along with a check for \$50.00. The proof requires a license examination fee of \$50.00 and the amendment also requires a \$50.00 fee. I applied the \$50.00 to the amendment to get processed, however, before the department can process the proof, it must be accompanied by a \$50.00 license examination fee.

Please return the copy of the proof along with the \$50.00 license examination fee within thirty (30) days of receipt of this letter. **Please address your correspondence to my attention.**

LAPSE NOTICE

RE: PERMIT NO. 65-13380

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1995. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13380

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

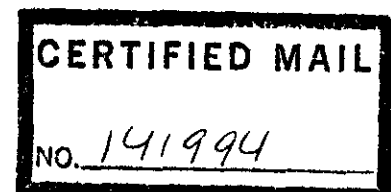

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13380

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

RE: WATER RIGHT APPLICATION(S) BEING HELD DUE TO MORATORIUM

Dear Interested Party:

An Application(s) for Permit for a water right(s) in your name has been held due to a moratorium declared by the director of this department on May 15, 1992. The moratorium was established because of limited water supplies caused by another year of drought.

The water supply situation in your area has improved this year. The director rescinded the moratorium in your area on April 30, 1993. Processing of your application(s) can now proceed. I will assume that you want to proceed with the application unless this office hears from you by May 14, 1993. RE: Application for Permit No. 65-13380

Dear Applicants:

Your application for permit to appropriate water from a spring for irrigation use was received on 5/1/92. Due to continued drought and the need to protect existing water rights and water supplies, the Director of this agency declared a moratorium on 5/15/92 concerning water right applications proposing new consumptive uses of public water. Your application cannot be processed for possible approval until the moratorium ends. Delays related to department decisions do not affect the date of priority or seniority of an application.

This office will hold the application pending future developments in the water supply situation and will inform you of any changes. You might be able to locate someone with a valid water right with available water to sell or lease for your needs if necessary. If so, an Application for Transfer of Water Right should be filed at this office to legally change the right(s) prior to any sale or lease.

Please let me know if you need additional information.

Sincerely,

Steve Lester
Water Rights Supervisor

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, PLEASE
COMPLETE AND RETURN THE FOLLOWING:

- Has ALL the land you propose to irrigate been irrigated with surface water in the past?

Do you summer fallow any of your irrigated land? If so, how many acres?

- List the water right(s) you have used to irrigate the land listed on the application. If you have received water from a canal company or water district, please identify the name of canal or water district.

- During the last ten years, how many years has your surface irrigation water been available for the entire irrigation season?

- What crops have you grown in the past ten years?

I understand if my proposed diversion of groundwater is approved as a supplemental use, that I can only use my well during periods of drought, when a full supply of water is not available. I also agree that my surface water will be fully used to the extent available, will not be sold or used on other lands, and that a change in use of my surface water may result in revocation of any groundwater right granted pursuant to my application for supplemental water.
