CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

E. NARRATIVE/REMARKS/COMMENTS

- No govt. lots were found.
- Overlap for P/U, ^{65-00033X} 65-13130 ^{are} ~~is~~ different land ^{different} ~~is~~ source.
- Use is irrigation of 7 acres of pasture, irrigation storage & Irrigation from storage w/a 300' x 144' x 5' pond. Other use, stockwater for 4 horses. ^(same water)
- I could not get a measurement of the flow of waste-water coming into the pond, since the flow is dependant on users irrigating up-line, & run-off from precipitation.
- The system consists of waste water stored in a 300' x 144' x 5' pond (larger than normal at the time due to high volume of precipitation run-off). A 5 HP pump (no tag) w/a 3 1/2" discharge runs to ~~main~~ hand line to run 8 mix sized nozzles @ 1 time @ 21 psi average, & at the same time to 3 1/2" gated pipe across the width of the property. Gravity ^{flow} ~~flow~~ in ~~furrows~~ the length of the pasture irrigates flowing west. Going across the width of the property as 25 ~~of~~ sections w/13 gates/section. The pipe was disconnected & ^{the flow was} measured @ 8.5 sec/30 gal. & 9 sec./30 gal., since it was too hard to measure by shutting some of the gates & burying a bucket below them.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13376

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 65-13376

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1994.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

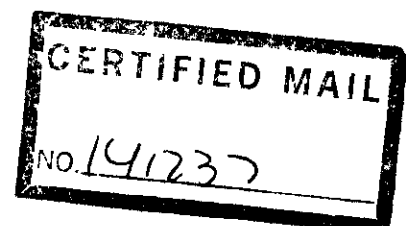

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: WATER RIGHT APPLICATION(S) BEING HELD DUE TO MORATORIUM

Dear Interested Party:

An Application(s) for Permit for a water right(s) in your name has been held due to a moratorium declared by the director of this department on May 15, 1992. The moratorium was established because of limited water supplies caused by another year of drought.

The water supply situation in your area has improved this year. The director rescinded the moratorium in your area on April 30, 1993. Processing of your application(s) can now proceed. I will assume that you want to proceed with the application unless this office hears from you by May 14, 1993. You can contact me or other staff by calling (334-2190) or writing to the above address.

Sincerely,

RE: Application for Permit No. 65-13376

Dear Applicant:

Your application for permit to appropriate waste water for irrigation and irrigation storage uses was received on 4/7/92. Due to continued drought and the need to protect existing water rights and water supplies, the Director of this agency declared a moratorium on 5/15/92 concerning water right applications proposing new consumptive uses of public water. Your application cannot be processed for possible approval until the moratorium ends. Delays related to department decisions do not affect the date of priority or seniority of an application.

This office will hold the application pending future developments in the water supply situation and will inform you of any changes. You might be able to locate someone with a valid water right with available water to sell or lease for your needs if necessary. If so, an Application for Transfer of Water Right should be filed at this office to legally change the right(s) prior to any sale or lease.

Please let me know if you need additional information.

Sincerely,

Steve Lester
Water Rights Supervisor

MORATORIUM EXEMPTION QUESTIONNAIRE

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, PLEASE ^{Department of Water Resources} COMPLETE AND RETURN THE FOLLOWING:

- Has ALL the land you propose to irrigate been irrigated with surface water in the past?

yes

- Do you summer fallow any of your irrigated land? If so, how many acres?

no

- List the water right(s) you have used to irrigate the land listed on the application. If you have received water from a canal company or water district, please identify the name of canal or water district.

none - in the process of ~~acquiring~~ acquiring water rights.
An application has been filed

- During the last ten years, how many years has your surface irrigation water been available for the entire irrigation season?

10

- What crops have you grown in the past ten years?

none - pasture

I understand if my proposed diversion of groundwater is approved as a supplemental use, that I can only use my well during periods of drought, when a full supply of water is not available. I also agree that my surface water will be fully used to the extent available, will not be sold or used on other lands, and that a change in use of my surface water may result in revocation of any groundwater right granted pursuant to my application for supplemental water.

Dated this 13 day of June, 1992.

RE: Pending Field Examination for Water Right Permit #65-13130

Dear Mr. Baughman:

Per our phone conversation of April 13, I located both your water right permit #65-13130, which is eligible for examination, and your new application #65-13376 for waste water, which was filed April 7. Application #65-13376 will be advertised during the first two full weeks in May.

Based on our discussion and the review of both water right files, I still feel that it would be best to do both field exams together. The same acreage and irrigation system is involved in both cases. After permit #65-13376 (waste water) is issued, you may pay the exam fee, and at the same time request field examination for both permits.

As long as you are continuing to irrigate your 10 acres under current permit #65-13130, any delay on the part of the Department between your proof filing and our examination will not jeopardize your permit standing.

I also noted in the file a reference to some adjacent land under separate ownership which may also be irrigated from the same pond. Since an irrigation system may still need to be developed for the new acreage, any new applications will be treated individually.

If you have any additional questions, please feel free to call or write.

Sincerely,
