A backhoe dug out a spring. The water is collected in a 10' x 10' x 10' deep depression and pumped out to irrigate lawn. A 1 h.p. Jacuzzi pump diverts water to 1 1/2" PVC, ~~then~~ then 1" PVC to (4) Rainbirds placed at corners of home. Area not reachable by Rainbirds are irrigated by hose. The theoretical flow capacity of 0.07 CFS is greater than the requested amount. Also, the ~~irrigated~~ though the irrigated parcel is greater than 0.5 acre, 0.6 acre, the requested amount is required to be the Licensed flow. Therefore, recommend Licensing for 0.02 CFS as requested on permit.

$$Q(\text{Theoretical}) = \frac{(8.8)(0.7)(1)}{(2.31 \times 38) + 6} = 0.07 \text{ CFS}$$

PROOF DUE NOTICE

RE: PERMIT NO. 65-13354

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

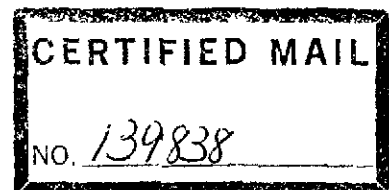

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 65-13354

Dear Permit Holder:

On March 25, 1992, the Department returned the proof of beneficial use you submitted in connection with the above referenced permit. At that time, we also informed you that it was necessary for you to submit a \$50 license exam fee.

As of this date, we still have not received your fee or returned proof form. Since proof of beneficial use is not technically required until April 1, 1993, I am assuming that you wish to wait until that time to file an acceptable proof and fee. I will notify you 60 days in advance of April 1, 1993 to allow you ample time to submit the necessary form and fee.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

Re: Permit No. 65-13354

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater source.
2. The rate of diversion must be .04 cfs or less.

As you can see, you do not meet requirement #1 since you use a spring for your source. Therefore, a license examination fee of \$50 applies to your permit. I have enclosed a copy of the Instruction for the Proof of Beneficial Use for your convenience.

Please return the proof of beneficial use and the \$50 license exam fee as soon as possible.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Karen L. Gustafson
