WATER RIGHT LICENSE
WATER RIGHT NO. 65-13328

Priority: September 12, 1990

Maximum Diversion Rate:

0.06 CFS

Maximum Diversion Volume:

33.6 AF

This is to certify, that US DEPT OF AGRICULTURE
FOREST SERVICE
BOISE NATIONAL FOREST
1750 FRONT ST
BOISE ID 83702

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated September 12, 1990; and
has submitted Proof of Beneficial Use on January 21, 1992. An examination indicates
that the works have a diversion capacity of .130 cfs of water from a GROUNDWATER
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.06 CFS	15.0 AF
DOMESTIC	01/01 to 12/31	0.06 CFS	18.6 AF
	Totals	0.06 CFS	33.6 AF

LOCATION OF POINT(S) OF DIVERSION:

SENE , Sec. 35, Township 09N, Range 07E
NENW , Sec. 35, Township 09N, Range 07E
BOISE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
09N	07E	35	NWNE 1	Lot 5(SWNE) 1	Lot 6(SENE) 1	
			Lot 1(NENW) 1	Lot 1(SENW) 1		5
				Total number of acres irrigated:		5

PLACE OF USE: DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

RE: WATER RIGHT NO. 65-13328

Dear Water Right Holder(s):

We previously forwarded to you an Amendment for Water Permit so that you could amend your permit to correspond with the findings of the Department's field examiner.

As of this date, we have not received this amendment. If we do not receive the amendment within fifteen (15) days, we will issue a Water Right License which reduces the amount that could have been allowable to you. Enclosed for your convenience is another amendment form in the event the first one was misplaced.

If you have any questions, please contact us.

Sincerely,

JIM JOHNSON

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Overlaps - P/D - Same P/U but different P/D.
P/U - Same P/D but different P/U.

Since no field exam was conducted, verification of flows and system could not be confirmed, ^{and theoretical matched permit flow,} therefore recommend Licensing for 0.06 cfs irrigation and 0.06 cfs domestic.

P/D of 'newer' well is incorrect on permit. Should read NENW Sec. 35, T.9N, R.7E. Older well is correct.

Remarks - WB3/GW Supplemental
Conditions - R29

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13328

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13328

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not

SEP 01 1991

diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

RE: Application for Permit No. 65-13328

Dear Terry:

Please excuse the delay in responding to your request for information and to your letter of 5/14/91. I believe I finally have the relevant information for you. The new application for a water right permit is ready to be advertised and processed.

However, before the application can be approved, the \$165 balance for well drilling permit no. 65-90-2-095 issued on 9/12/90 must be paid. A \$35 drilling permit was approved for limited use from a well but not to exceed one-half acre of irrigation. As the water right application proposes approximately five acres of irrigation, the appropriate drilling fee of \$200 should have been collected. Please advise the District Ranger, Morris Huffman, that the \$165 must be paid before application no. 65-13328 can be approved.

The application will include two wells for domestic (31 units) and irrigation (five acres) uses at the Lick Creek Compound, Lowman District Office, and Lowman Work Center. The total amount of water in the application is 0.06 cfs.

Information concerning other rights is also enclosed. The three rights you mentioned are noted below.

- 1) 65-11328, decreed right, see attachment for details.
- 2) 65-02447, not a valid right, recommended for disallowal in the Payette River Adjudication due to abandonment, see attachment.
- 3) 65-07242, not a valid right, lapsed permit, unable to locate details at this time.

Additionally, other rights of uncertain status are associated with the Lowman District complex. The following rights were excluded from the Payette River Decree and are identified as reserved water right claims for the USDA Forest Service: 65-09888, 65-09889, 65-11299, 65-11300, 65-11302, and 65-11319. A summary of the rights follows on page 2.

Dear Sir:

Enclosed is a copy(s) of the above-referenced application(s) for permit which may be of interest to your agency. Please review the application(s) and submit any comments you may have.

This office normally completes the processing of an application within a six-week period and is required to take final action shortly thereafter, however, if your agency desires to file a formal protest against the approval of this application(s), your written protest must be received in this office by August 5, 1991.

If you have any questions regarding the application, please contact this office.

Sincerely,

DAVID R. TUTHILL, JR., P. E.
Manager, Western Regional Office

State of Idaho
License and Certificate of Water Right

Water License No. 19458 Amount 0.04 second foot
Water District No. Priority December 16, 1943

THIS IS TO CERTIFY that C. FRED MANN, E. P. BARNES and RAYMOND L. GIVENS
of Boise, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated December 16, 1943; that Permit No. 19458
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
0.04 second foot, was issued thereunder on November 10, 1952, showing that said works
were completed on the 30th day of August, 1952; and that on the 30th
day of August, 1952,
MILDRED THOMAS MANN, heir of C. Fred Mann, HAZEL LOUISE WILLE and EVELYN MAE RAYMOND,
heirs of E. P. Barnes, and RAYMOND L. GIVENS
of Boise, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of an unnamed Rock Cr.
spring and creek tributary of South fork Payette River for the purpose of irrigation and domestic
use, under Use Permit No. 19458 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 5019, on the 10th day of November, 1952.
The right hereby confirmed dates from December 16, 1943.
The Point of Diversion is located in Lot 2 (Government lot)

Sec. 27, Tp. 9 North, R. 7 East, B. M. Boise County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 0.04 cubic feet per second.

Description and location of use:

Twp	Range	Sec	Forty acre Tract	No Acres Described in Permit	No Acres Actually Irrigated
9 N.	7 E.	27 28	Lots 2 & 3 Lot 1 (The above are Forest Reserve lots)	1.4 0.7	20 --

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
10th day of November, 1952.

(SEAL) MARK R. KULP
State Reclamation Engineer

RECEIVED
MAY 10 1991

Department of Water Resources
Western Region

Dear Steve:

This letter will attempt to answer questions in your letter dated October 26, 1990. Hopefully the information will allow you to resume the application for permit process for the new well drilled last fall.

1. There are a total of 31 units that house people and/or provide water for domestic purposes (see enclosures). The Lowman District Office, old warehouse, and tree cooler have outside faucets that are regularly used to fill canteens, etc. The proposed warehouse shown on the Lowman Office diagram is included as a future potable water source.

2. For irrigation purposes total lawn area for all three sites is estimated to be five acres. The lawns at the office and the work center are irrigated with water from the plumbed well system. Lawns in the Lick Creek Compound are irrigated with water diverted from Lick Creek by pump.

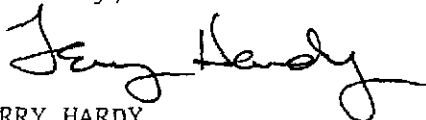

3. The new well will eventually be plumbed into the existing domestic water system. Both wells will provide water for domestic purposes to all three sites, as well as irrigation to the office and the work center. I expect some limited irrigation will occur at the Lick Creek Compound from the well system.

4. According to our records water right 65-09888 applies to an existing well at the Lowman Work Center, the legal description for point of diversion is SE1/4, NE1/4, sec 35, T9N, R7E. Water right 65-11302 will be maintained for irrigation.

5. To satisfy the fee requirement for the drilling permit I suggest a bill, including statements explaining the domestic and irrigation use limits, be submitted to Morris Huffman, District Ranger at this office.

I apologize for the delay in responding to your request. Please contact me at 364-4250 if additional information is needed.

Sincerely,

TERRY HARDY
District Hydrologist

CONVERSATION MEMORANDUM

DATE 11/27/90FILE 65-13328NAME OF PARTY Terry Hardy 364-4250EMPLOYEE Steve LesterRE: Appl. for Permit & my 10/26/90 letter:

Bosi N.F. is working on SEBA filings now & expects to assemble a thorough summary of current uses by late 1/91.

Terry would like to wait until then to see how new appl. fits into overall picture. He's working with John Potynda (of Supervisor's Office) on water rights.

He will call me to see up a meeting in late Dec. or January.

RE: Application for Permit

Dear Terry:

Following our recent telephone conversation, this letter concerns the application for permit for a new and an old well for use around the Lowman District Ranger Station. The application includes Forest Service reference number W/S #45 #32 if that information is helpful.

Several points need attention before this office can advertise and continue processing the application.

1. The number of domestic units should be specified and should include homes, office buildings, or work center units.
2. Lawn use exceeding a total of one-half acre for the site is considered irrigation and the total number of irrigated acres should be specified.
3. The two wells are identified on the map. The place of use is shown at and/or around the district office. Indicate if domestic and/or irrigation uses will occur at the district office site, the homes across the highway, or the work center southeast of the district office.
4. A 1905 domestic right from ground water (no. 65-09888) exists for the "Lowman Ranger Station, Old Site". Please identify the location of the old site. Is the old ground water diversion still used? Another 1905 right (no. 65-11302 from Lick Creek) mentions the "Lick Creek Ranger Station, Old Site" and is an irrigation right for 20 acres in the S 1/2 of NE 1/4, S. 35. Is this an active right associated with the Lowman station?

5. Drilling Permit No. 65-90-Z-095 was approved on 9/12/90 for the new well in NWNE S. 35. A \$35 drilling fee was paid. However, drilling permits associated with uses exceeding the limits defined in Idaho Code 42-111 require a \$200 fee. Based on the response outlining the domestic and possible irrigation use from the old and new wells, I will see if an additional \$165 drilling fee is needed. A response within 30 days will avoid delays in the water right approval process. Please feel free to contact me for more information.

Sincerely,

Steve Lester
Sr. Water Resource Agent

SENE well = 1905 WR
possibly

NWNE wells would then
be new appl.

RE: Appl. for Permit

Obtained Terry's name: A from Bowie N.E. S.O. (John Potyondy).

Spoke with Terry about appl., need to know

- 1) existing right(s) = other well (probably 65-09888)*?
- 2) # domestic units
- 3) irrig. - if any - # acres for homes & work-site
- 4) drilling fee - if appl. > ~~200~~ cts

domestic .06 cts &/or if irrig. > 1/2 acre,
drilling fee for 65-90-2-095 would be
\$200 v \$35 prod.

Terry will discuss this with Dist. Ranger & let me know after 9/28

- 5) what is Lowman Ranger Station, old site?
- 6) " " Lick Cr. " " " " ?

* After other pre-requisite approvals have been obtained.

* Fee is \$10 for single family domestic. Other uses may be \$100, \$50 or \$10.

ACTION OF IDWR

(☒) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

Dated this 12 day of September, 1990.

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

U. S. FOREST SERVICE, Applicant, requests issuance of Drilling Permit prior to approval of a water right. The request is made for the following reason(s):

DRILLER AVAILABILITY & TIME OF
YEAR (WEATHER)

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.
