WATER RIGHT LICENSE

AMENDED

WATER RIGHT NO. 65-13322

Priority: May 2, 1991

Maximum Diversion Rate: 0.18 CFS
Maximum Diversion Volume: 18.6 AF

This is to certify, that J B SCOTT
PO BOX 942

MC CALL ID 83638-0942 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated May 2, 1991; and has submitted Proof of Beneficial Use on May 7, 1993. An examination indicates that the works have a diversion capacity of 0.280 cfs of water from:

PAYETTE LAKE tributary to PAYETTE RIVER, NORTH FORK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.10 CFS	15.0 AF
DOMESTIC	01/01 to 12/31	0.08 CFS	3.6 AF
	Totals	0.18 CFS	18.6 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 4 (SESW), Sec. 26, Township 19N, Range 03E
VALLEY County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
19N	03E	26	Lot 4 (SESW) 2	Lot 4 (SWSE) 2.2		4.2
		35	NWNE 0.8			0.8

Total number of acres irrigated: 5

PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 65-13322 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
6. A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works.
7. The availability of water for this right is subject to all prior water rights of Lake Reservoir Co.
8. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.
9. Domestic use is for 6 homes.
10. Domestic use does not include lawn, garden, landscape, or other types of irrigation.

RE: Recommendation for an Amended License

=====

I am recommending that license 65-13322 be amended to correct the place of use. The right holder has submitted information which indicates that the distribution of irrigated acres among the tracts is different than earlier reported and licensed. This license covers five of the seven irrigated acres. Application 65-13626 has been filed to cover the two acres not authorized by this right.

The right holder has submitted a licensing amendment for the altered place of use description. Changes to the amendment application were made by Jim Crawford, who has power of attorney for J. B. Scott. A copy of the power of attorney authorization is in file 65-13626.

RE: Phone all to Jim Crawford

=====

Yesterday I called Jim Crawford at 208-634-6732 to discuss the need for amending license 65-13322. He said that a 700 ft. well was drilled on the Mr. Scott's property, but no aquifer was found. He said that he subsequently hired professional geologist Sherl Chapman, who said they may go as far as 2000 ft. without finding a water source. Therefore, Mr. Crawford wants to file an application for permit to expand the use of the surface water diversion system licensed under 65-13322. The new application will eliminate the need to amend license 65-13322.

I told Mr. Crawford that I would apply the \$50.00 paid for the licensing amendment needed for the amended license to the fee required for the new application.

FROM: Shelley W. Keen *SWK*

RE: Amended License Recommendation

=====

Permit 65-13322 allowed development of a water right to provide domestic use for 3 homes and to irrigate 7 acres with water from Payette Lake. Based on the recommendation of the field examiner, a license was issued on March 3, 1995, for 6 homes and 5 acres. After receiving the license, the right holder contacted me to express dissatisfaction with the license. Through his agent, Jim Crawford, the right holder expressed a preference for licensing the right as permitted, and he provided evidence demonstrating that 7 acres are irrigated. Therefore, I am recommending that license 65-13322 be amended to show domestic use for 3 homes and irrigation of 7 acres.

Shelley —
Is Mr. Holt prepared
to disconnect 3 of the
homes from the system?
NY

4/24/95

RE: 65-13322

Today I spoke with Jim Crawford at 208-634-6732. He said that if the new well produces, the homes will be switched to the well and taken off the surface water system. We agreed to speak again in 60 days.

Re: Water Right No. 65-13322

Dear Mr. Keen:

This letter is my request that you change my P. O. Box number on your records from 1155 to 942.

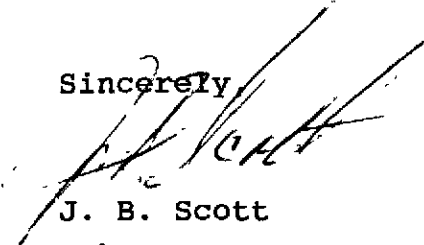

At the time this water application process began, Bob McKenna, as my employee, was handling it. Since I didn't have a McCall P. O. Box at that time, Mr. McKenna used his personal P. O. Box number. Mr. McKenna is no longer employed by me and I now have my own P. O. Box number, which is 942.

I would greatly appreciate your changing my address to:

J. B. Scott
P. O. Box 942
McCall, Idaho 83638

Thank you.

Sincerely,

J. B. Scott

RE: WATER RIGHT NO. 65-13322

Dear Jim:

As we discussed on the telephone, we have reviewed the information you provided, and I am prepared to recommend that water right license no. 65-13322 be amended to show seven acres of irrigation and domestic use for three homes. However, our review found some of your irrigated land to be in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35, T19N, R3E. Because your permit did not allow for irrigation in that tract, the permit must be amended before a new license can be issued.

The enclosed Application for Amendment contains information that will be included on the amended license when it is issued. Please review it carefully. If you concur with the information presented, please have Mr. Scott sign the amendment and return it with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

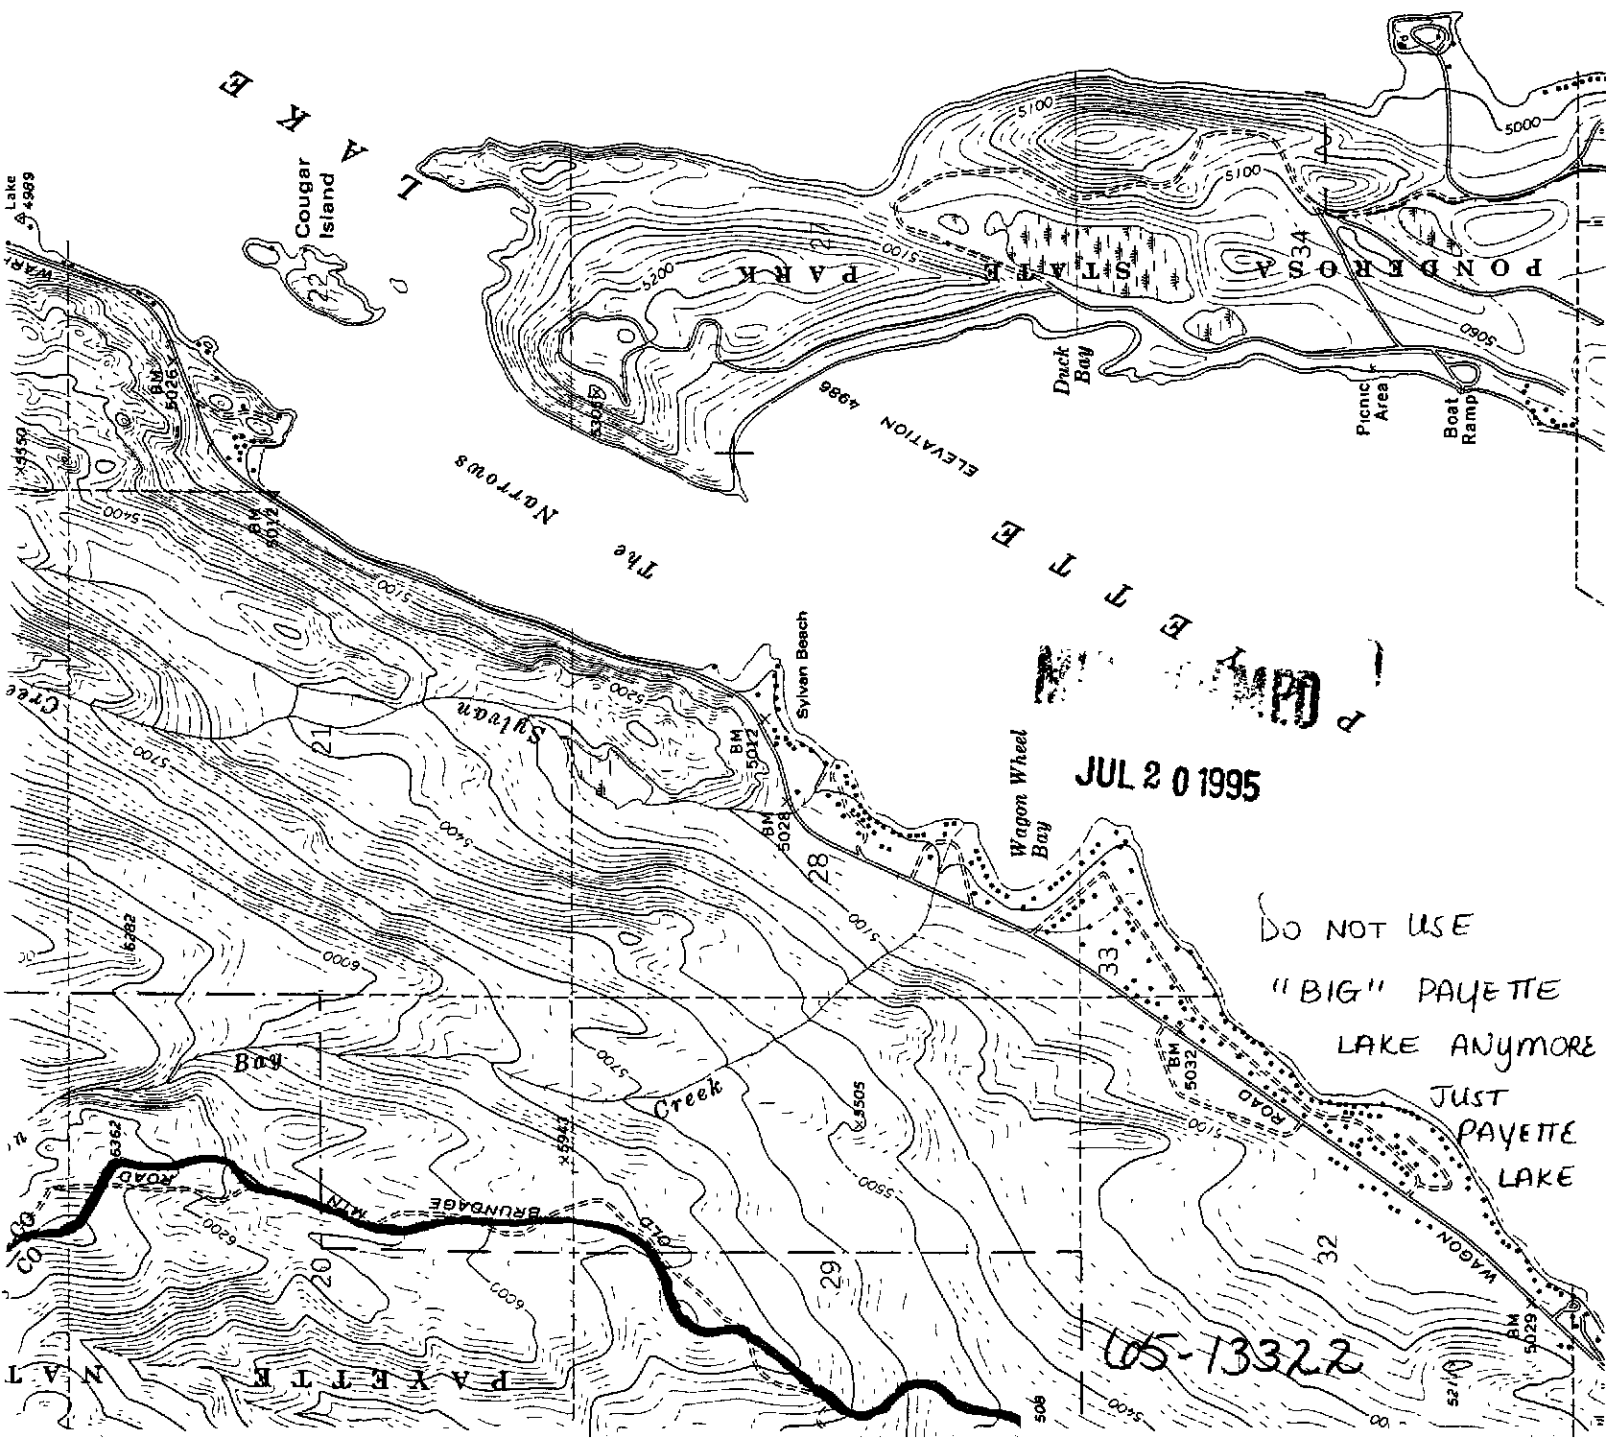

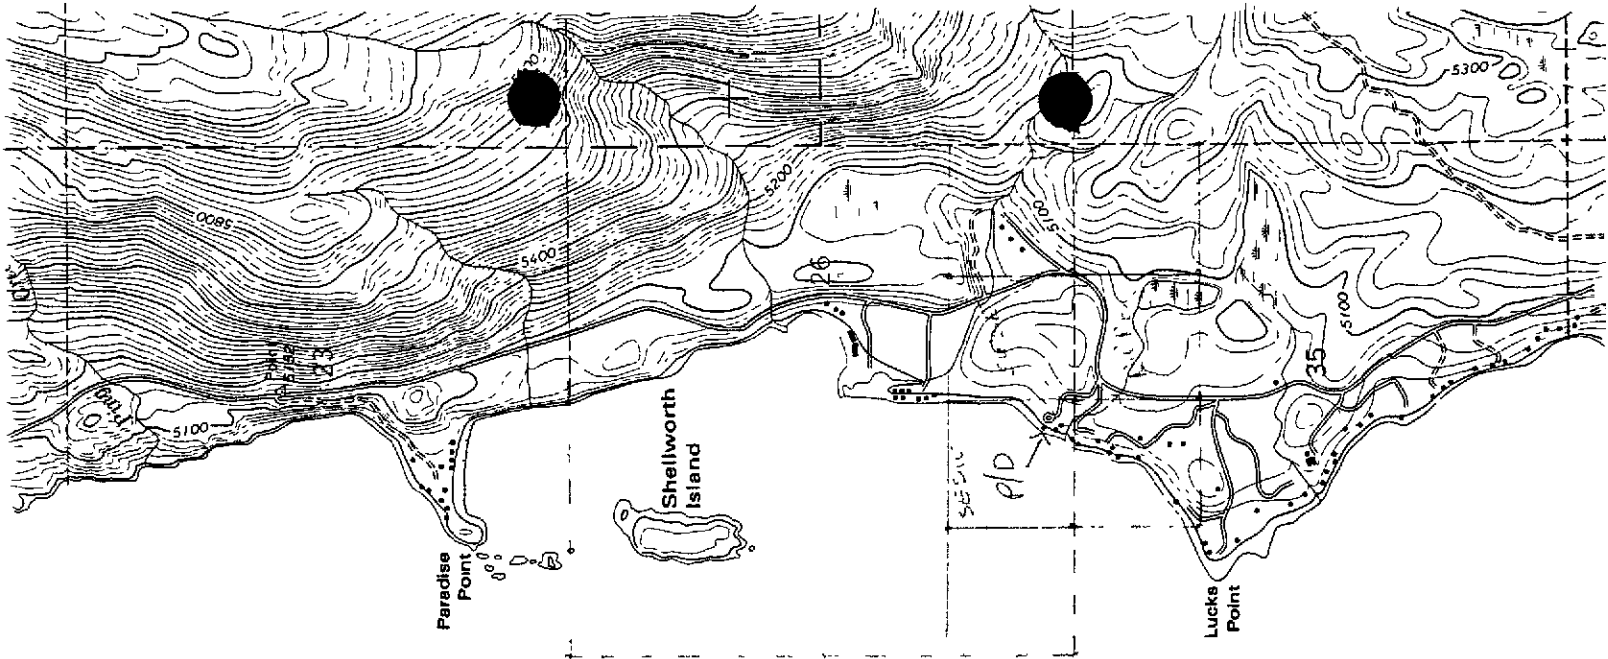

Sincerely,

Shelley W. Keen

MEMORANDUM

TO: File 65-13322 / J. B. Scott
FROM: Brenda Chapman
DATE: March 23, 1995
RE: Amended License Recommendations

=====

The "amended license" recommendations for the above referenced water right are based on the information below:

PLACE OF USE: After verifying with a planimeter that there are 7 acres being irrigated on the "Site Survey" 1991 engineering map that Mr. Crawford supplied us with, a recommendation is being made to amend the license as follows:

SESW $\frac{1}{4}$ $\frac{1}{4}$ of Section 26 = 2.0 acres
SWSE $\frac{1}{4}$ $\frac{1}{4}$ of Section 26 = 2.2 acres
NWNE $\frac{1}{4}$ $\frac{1}{4}$ of Section 35 = 2.8 acres

Therefore, a licensing amendment will need to be solicited to add the Section 35 acres.

FLOW CALCULATIONS

The irrigation rate for 7 acres will be increased to .14 cfs and the number of domestics to be reduced to the original permitted amount of 3. The domestic rate will then be reduced to .06 cfs.

VOLUME CALCULATIONS

Volume adjustments are necessary based on the above items.

RECOMMENDATIONS

RE: Phone Conversation with Jim Crawford 634-6732

=====

This morning Jim Crawford called to discuss the license issued for right 65-13322. Mr. Crawford says he works for the right holder, J. B. Scott. Mr. Crawford's concern is that the license indicates only five acres, whereas the permit allowed seven acres. I explained to Mr. Crawford the information presented in the Beneficial Use Field Report. He said he would like some time to decide whether he agrees or disagrees with the license. Mr. Crawford indicated he may submit additional information to support a larger place of use.

RECEIVED

JUL 20 1965

E. NARRATIVE/REMARKS/COMMENTS

THIS SYSTEM USES 4 $\frac{1}{2}$ HP PUMPS THAT ARE SUBMERGED 40-60' IN BIG PUYUHE LAKE. THE OWNER HAS THE LINES BURIED AS THEY APPROACH THE SHORE AND HAS THEM CONNECT IN A MANIFOLD / FLOW REGULATED SYSTEM. THIS SYSTEM MONITORS FLOW NEEDS AND ADJUSTS INTAKE TO FIT LOADINGS. THE PUMPS PULL AN AVG OF 75 GPM MINUTE, BUT HAVE THE POTENTIAL TO PULL 70 GPM/MIN. THE 5 (HYDRO.) ACRES ARE IRRIGATED BY 10" PIPING. THERE ARE 6 DOMESTICS THAT USE THE SYSTEM. (THE MAIN HOUSE: 5 GUEST HOMES) THE SYSTEM RUNS AT @35 PSI. THE 4 INTAKE LINES FROM THE LAKE PUMP INTO THE MANIFOLD WHICH DIRECTS WATER INTO A 3" MAIN WHICH DISTRIBUTES THE WATER TO THE VARIOUS LOCATIONS WHICH INCLUDES THE DOMESTICS THE IRRIGATION SETS: THE SHOP.

* NOTE; BECAUSE OF THE NATURE OF THE SYSTEM, THEORETICAL CALCULATIONS TO DETERMINE THE FLOW OF THE SYSTEM ARE THE ONLY MEANS TO DETERMINE THE SYSTEM CAPACITY.

AVERAGE ALSO HAS TO BE APPROXIMATED. THE IRRIGATED SECTIONS OF THE PROPERTY DO NOT FOLLOW COORDINATED AND/OR MEASURABLE SHAPES THAT MAY BE PLOTTED.

* NOTE; AVERAGE SPLIT BETWEEN THE SESW $\frac{1}{4}$ of 26 & the SWSE $\frac{1}{4}$ of 26 ARE ESTIMATED. ONLY 4 ACRES INSTEAD OF 6 ARE FOUND IRRIGATABLE IN THE SESW $\frac{1}{4}$ of 26 EVEN THOUGH THE OWNER OWNS AROUND 6. THUSLY, 1 ACRE CAN BE ASSUMED TO BE IN THE SWSE $\frac{1}{4}$ of 26 AS RELATED VIA THE PERMIT.

Have conditions of permit approval been met? ☒ yes ☐ no

JUL 20 1995

F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method:

THEORETICAL;
$$\frac{(4 \times 1\frac{1}{2}) \times 8.3 \times 70}{(2.3 \times 35) + 50' \text{ / ft}} = \frac{37}{131} = .28 \text{ cfs}$$
 SYSTEM CAPACITY

NEED; $5A \times .02 \text{ cfs} = .10 \text{ cfs}$
Domestic = .08 cfs (1/4" x 1/2")

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 5 \times 3.0 = 15 \text{ AFA}$
 $V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .10 \times 184 \times 1.9835 = 3.7 \text{ AFA}$
 $V = \text{Smaller of } V_{IR} \text{ and } V_{D.R.} = 15 \text{ AFA}$

2. Volume Calculations for Other Uses:

6 DOMESTICS w/NO LAWN $\cdot 6 \times 6 = 3.6 \text{ AFA}$
* LAWN covered under IRRIGATION

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
IRRIGATION	4-15	10-15	.12 cfs	15 AFA
DOMESTIC	4-1	10-1	.08 cfs	3.6 AFA
Totals:			.18 cfs	15.6 AFA

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

RECEIVED

JUL 20 1995

MEMORANDUM

TO: File 65-13322 / J.B. Scott
FROM: Brenda Chapman
DATE: February 21, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

H. RECOMMENDATIONS

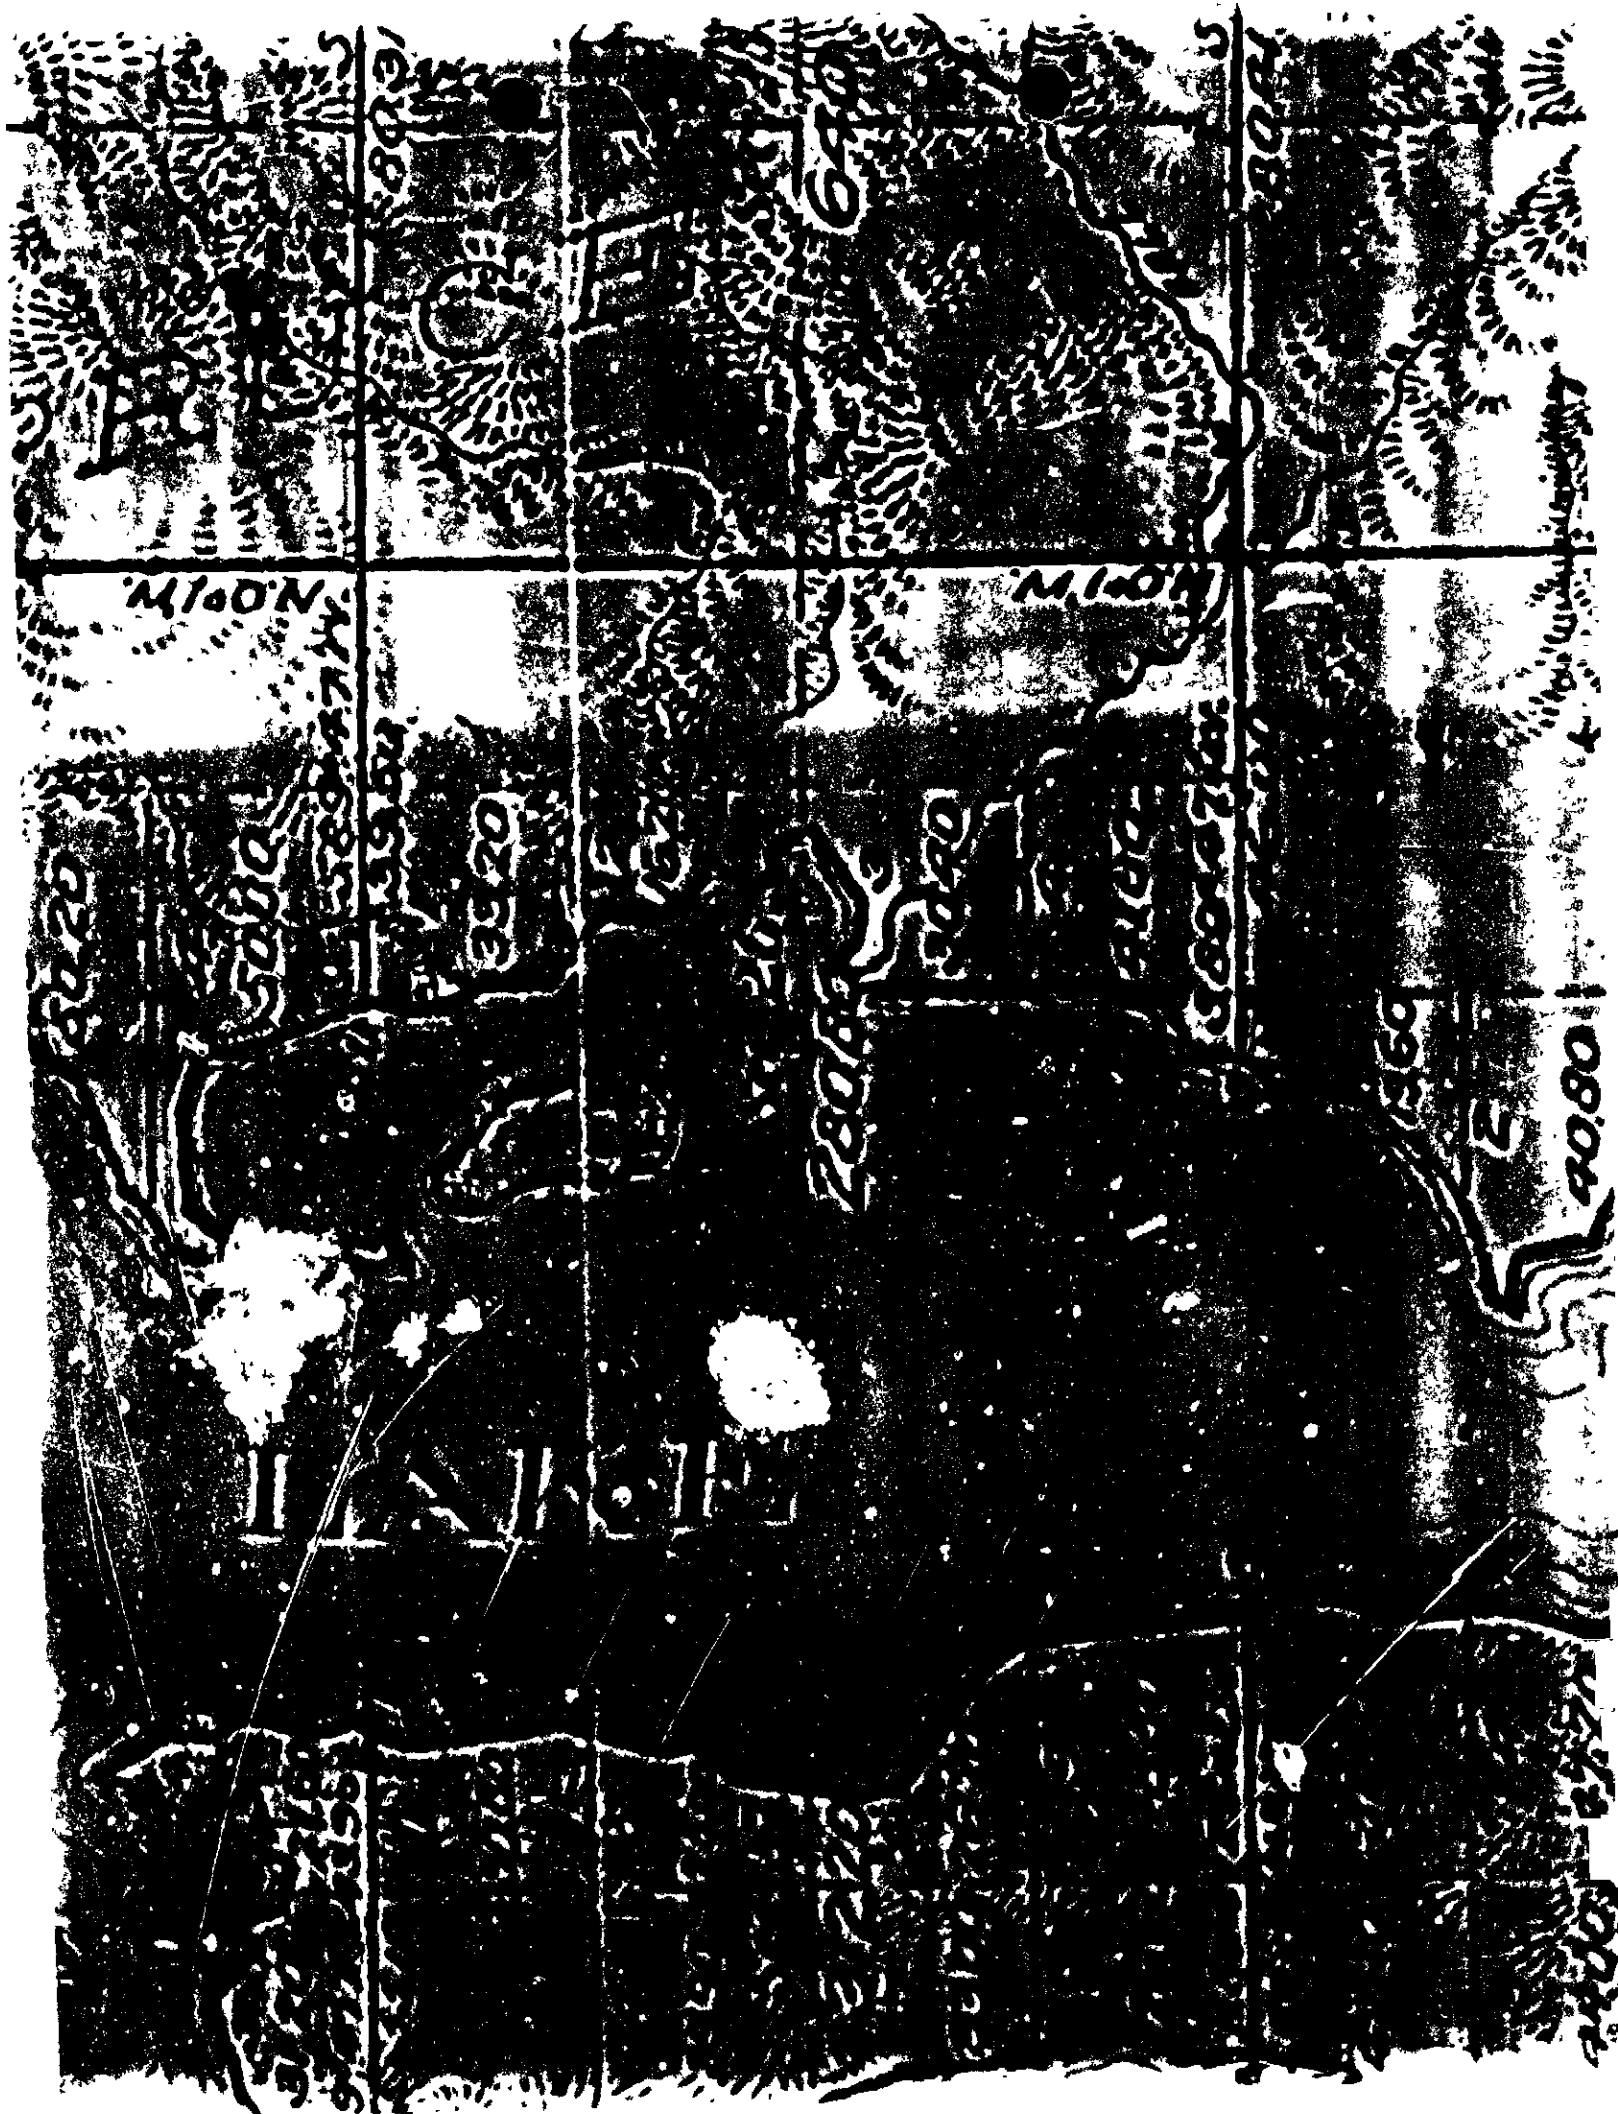

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	4-15 to 10-15	.10	15.0
Domestic	1-01 to 12-31	.08	3.6

The examiner's recommendation to allow the additional domestics is acceptable based on the following information:

The original permit was for 3 homes and 7 acres. With the reduction in acres to 5, the annual irrigation diversion volume is reduced by 6 af. The internal domestic annual diversion volume increase from 3 homes to 6 homes is only an additional 1.8 af. Therefore, the recommendation to increase the domestics to 6 homes does not exceed what the maximum allowable diversion volume would be.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13322

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 65-13322

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13322

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Please be advised that there is insufficient natural flow available from the source identified on your permit to provide water throughout the entire season. You may want to arrange for a supplemental supply from a different source.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

RE: Application for Permit
Assignment of Permit No. 65-13247

Dear Mr. Scott:

This letter concerns two documents. One is a new application for permit to use Big Payette Lake water and the other involves an approved permit for water from a spring. Please review the following information.

New Application for Permit

The application proposes to use up to 100 gpm from the lake for domestic and irrigation purposes relating to two homes. However, the number of acres to be irrigated was not specified. Please identify the number of acres and confirm the location of the acres. I assume you are referring to yard etc. use near the two homes identified in the application and located in S.26 SWSE. Is that correct?

Most likely, the application should involve less than 90 gpm, which is the maximum amount for the \$30 application fee that you paid. Based on your response, I will revise the application to show the maximum allowable water for domestic and irrigation uses.

The application is signed by R. McKenna, who is identified as the manager for J. B. Scott. The involvement of R. McKenna leads to Permit No. 65-13247.

Permit 65-13247

This permit was approved on 8-23-90 for a spring for .20 cfs and 10 acre feet (pond storage) for recreation and recreation storage. The permit is personal property belonging to Douglas Manchester. To assign a portion or all of the permit to J. B. Scott, use the enclosed Assignment of Permit form. Instead of the Assignment for Application for Permit form that was submitted and is returned.

AUG 06 1991

Indicate whether all of Permit 65-13247 or part of the permit is assigned. The returned form is not clear in that all of 65-13247 is indicated but a description of .20 cfs is listed in the portion of the form relating to "the following described portion of my right". If the entire right is to be assigned, complete the first part but leave the second part ("the following described portion...") blank.

J.B. Scott Application

Page 2

The original Manchester application was signed by R. McKenna, identified as the manager for the applicant. The application was approved as Permit 65-13247. Now, Mr. McKenna is executing an assignment to change personal property from the original owner, Mr. Manchester, to the new owner, J. B. Scott (the returned assignment form contains Mr. McKenna's signature). Mr. McKenna is identified as the manager for both parties. It does not seem appropriate for the manager to assign personal property from one party to the other under these circumstances without a documented and legal basis authorizing Mr. McKenna's signature on behalf of both parties. At the very least, please provide evidence such as a power of attorney for Mr. McKenna to sign Mr. Manchester's documents. A preferable situation would include such evidence for the McKenna signature relating to both other parties.

Based on your response, the new application will be revised and processed. Permit 65-13247 will be assigned in part or whole to the new owner once the proper assignment and evidence of Mr. McKenna's authority for signature are received.

Please respond within 30 days. Let me know if additional information is needed.

Sincerely,

Steve Lester

Sr. Water Resource Agent
