4. N/A

Well or Diversion Identification No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size

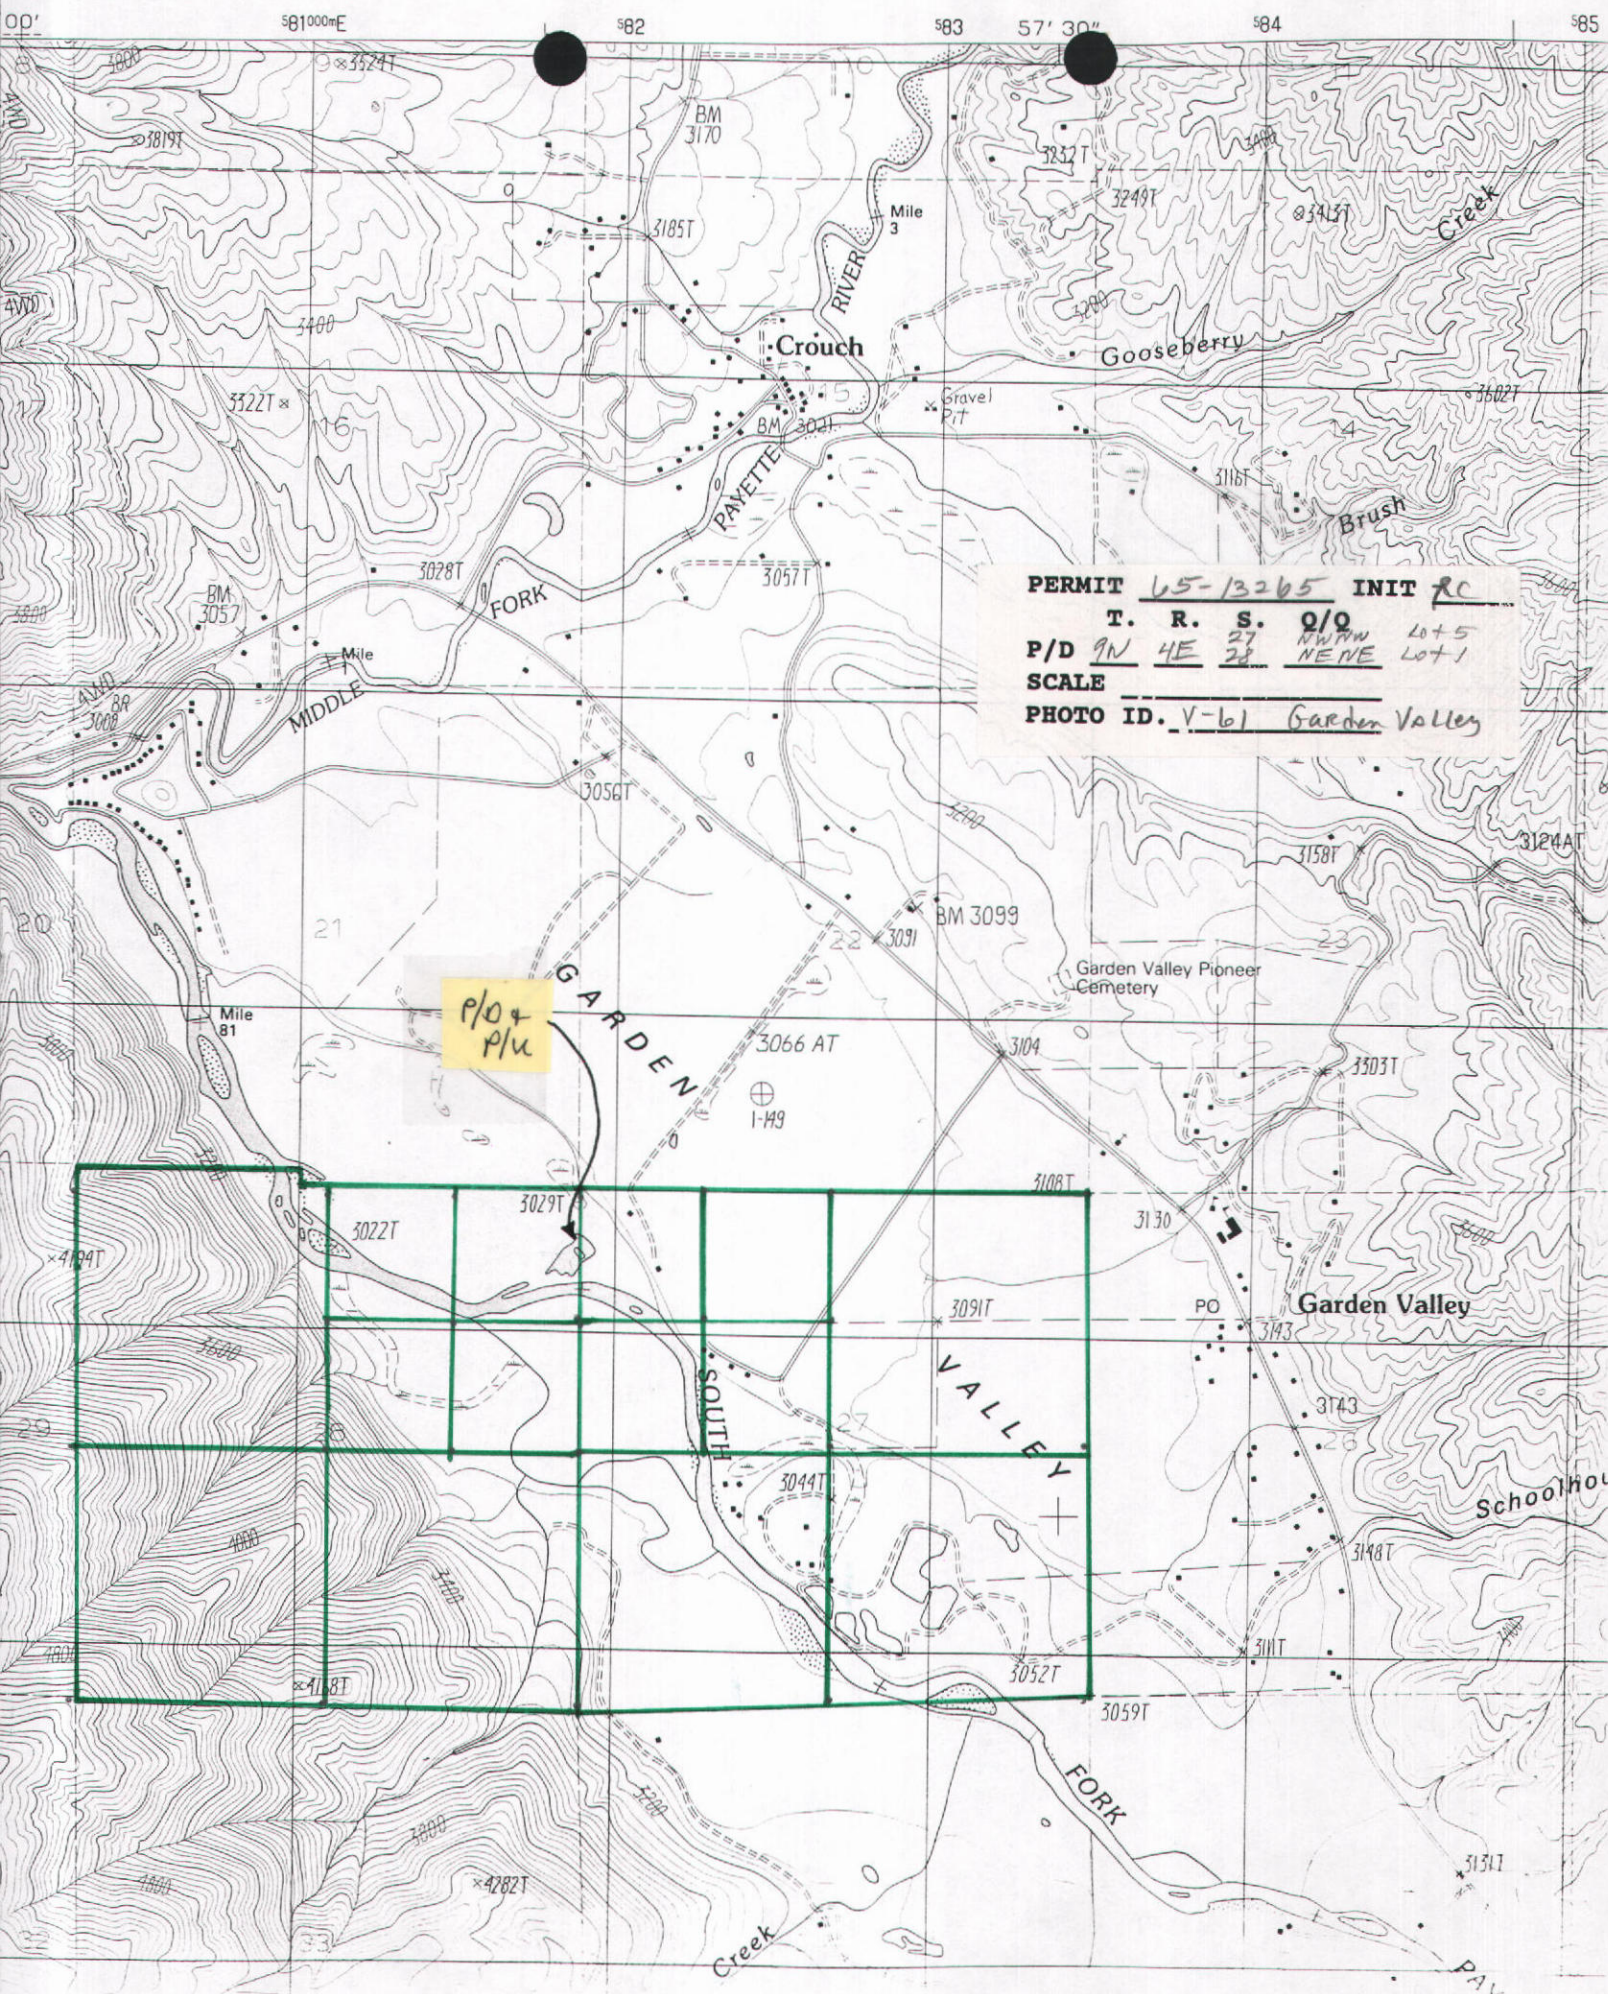

*Code to correspond with No. on map and aerial photo

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: Orange reel method - 1-2.6 FT/sec at stream
inlet to pond.

E. NARRATIVE/REMARKS/COMMENTS

The flow at the pond inlet was measured using the 'orange pool method'. The measured flow was approximately 1.4 cfs. A small pond, supposedly fed by water from the south fork of the Payette River, drains to the west, and has been channelled to form the pond for project patch. At the south end of the pond near the river, a concrete spillway allows overflow to reenter the river. The pond is used for boating, swimming, and fishing.

The measured flow was much greater than the requested allocation. A second measurement was performed at the end of July. No water was exiting through the spillway, and the measured flow was 0.4 cfs, which is still larger than the requested allocation. Therefore, recommend licensing for 0.20 cfs as requested for recreation and recreation storage. The surface area of the pond was a rough estimate, and was approximately 7.0 ac, which is greater than the volume stated on permit. Therefore, recommend licensing for 4.0 AF for recreation storage as requested on permit.

Have conditions of permit approval been met? ☒ yes ☐ no

F. FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method:

$$Q = \frac{0.8}{2.16 \text{ FT/100}} \times 1.8 \text{ FT}^2 = \frac{1.44}{2.16} \text{ CFS} = 0.67 \text{ CFS}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation: N/A

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{\hspace{2cm}}$$

$$V_{D,R} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{D,R} = \underline{\hspace{2cm}}$$

2. Volume Calculations for Other Uses:

$$\text{SURFACE AREA} = \frac{300 \times 500}{43,560} \text{ ac} = 3.44 \text{ ac}$$

$$\text{Capacity} = 3.44 \times 5 \times 0.4 = 6.88 \text{ AFA}$$

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
RECREATION	1/1	12/31	0.20	
RECREATION STORAGE	1/1	12/31		4.0
DIVERSION TO STORAGE	1/1	12/31	0.20	
Totals:			0.20	4.0

2. Recommended Amendments

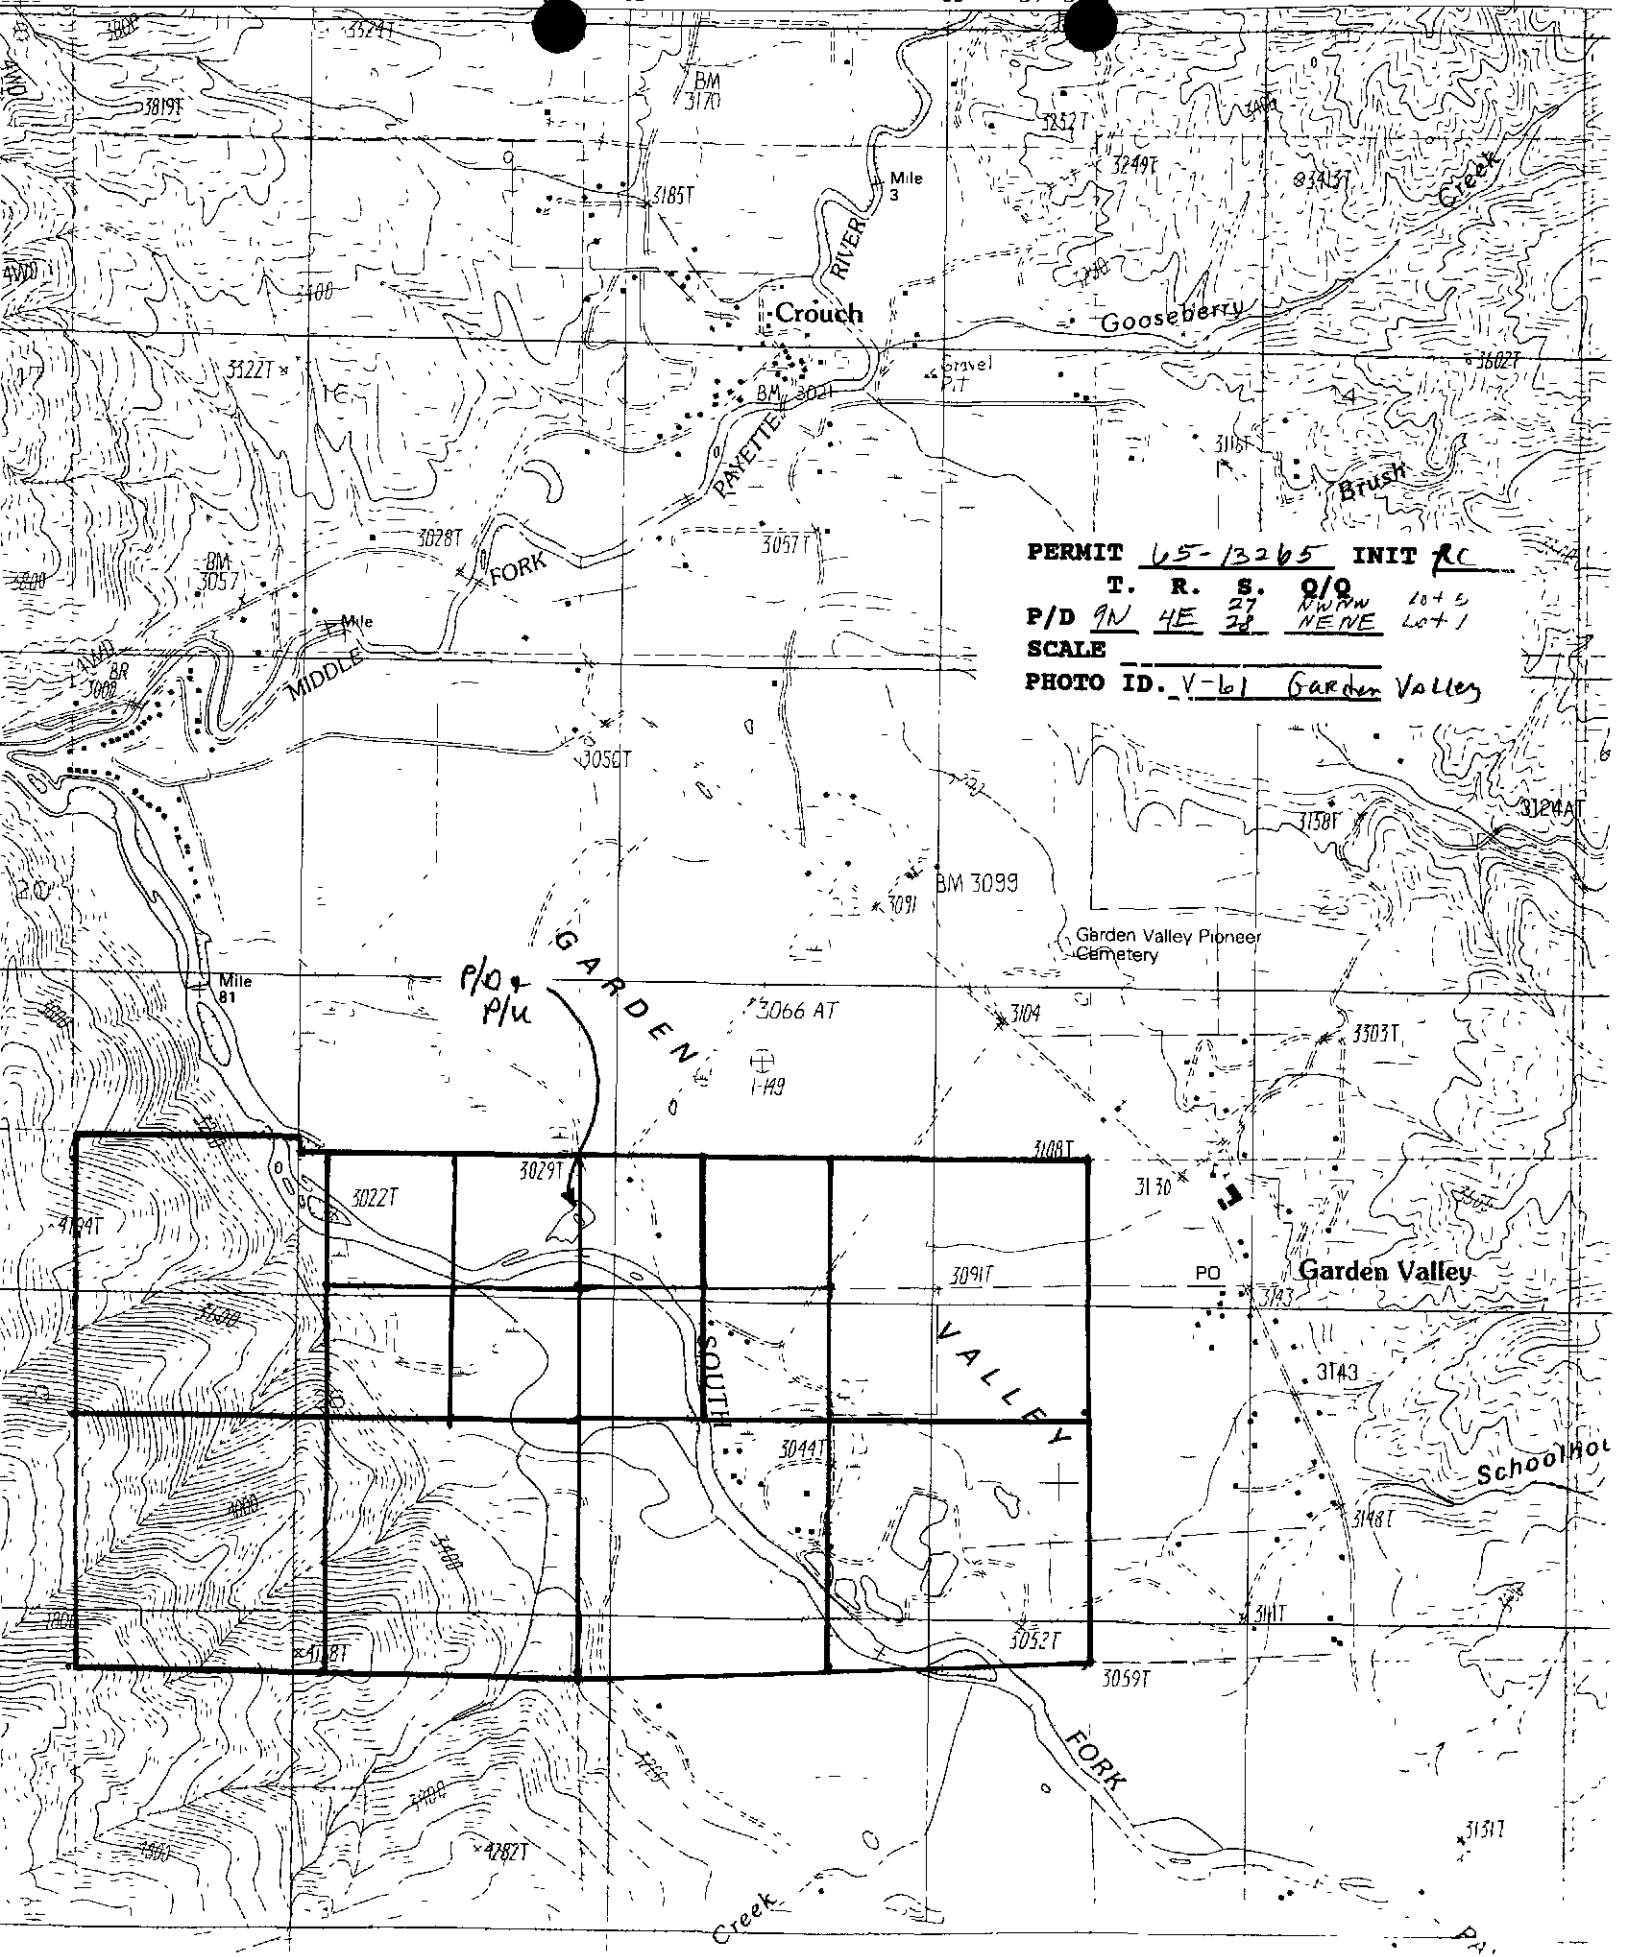

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

RE: PERMIT NO. 65-13265

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 65-13265

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13265

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

JIM JOHNSON
Water Rights Supervisor
