07N	01W	34	SWSW	2		2

Total number of acres irrigated: 2

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The right holder shall use the full allotment of appurtenant surface water rights, to the extent they are available, in conjunction with groundwater diverted pursuant to this right.
5. This right to divert groundwater shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use without the approval of the Department.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor exceed a combined annual diversion volume of 9.0 af for the lands above.
7. Two points of diversion are located within SWSW, S34, T07N, R01W.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 65-13210 Telephone No. 365-2893
2. Name(s) of Permit Holder(s): Dwight Grand Jean Parks
3. Mailing Address: 2036 W. Playa, Emmett, Idaho
4. Source of Water: Groundwater
If **GROUNDWATER**, Well Driller's Name: Dwight Parks Date Drilled: July 1, 1990

OPTIONAL:

Pump horsepower: 2 hp Pressure (psi): _____ Dynamic pumping level (ft.): _____

5. Extent of Use (as authorized by the permit):

Domestic _____ (No. of households) Stockwater _____ (No. and type of stock)

Irrigation 5 (No. of acres) Other _____

6. Total rate and/or volume for which proof is submitted 10 cfs OR _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? _____ Yes X No Installed? _____ Yes X No

OR
Flow Measurement Port: Required? _____ Yes X No Installed? _____ Yes X No

8. Fee Enclosed: \$ 50.00 (See License Fee Schedule on back of Instruction Sheet)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name Jean Parks Telephone No. 365-2893
Address 2036 W. Playa, Emmett, Idaho

10. The above information is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the state of Idaho.

2. Measurements: None due to winter exam, plus need to wait for IRRIGATION season to bring water table up to be able to use system.

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/D Same RD, different P/Ds.

P/U Same RD, different P/U.

Two shallow wells, or sumps, are used to irrigate lawn areas by underground sprinkling system. Entire lawn is watered at one time.

Proposed irrigation of 5 acres included pasture, which was never developed due to Mr. Parks death. Black Canyon Irrigation District water could be used to irrigate pasture, but neighbor is preventing water from reaching Mrs. Parks property.

Since the systems capacity is 0.25 cfs, which is much greater than the 0.10 cfs requested for irrigation of 5 acres. Since only 2 acres, maximum, is being irrigated by this system, at 0.02 cfs/acre, recommend Licensing for 0.04 cfs for irrigation of 2 acres.

$$\text{Theoretical: } Q = \frac{(8.8)(0.7)(4)}{8 + (2.31 \times 40)} = \frac{24.64}{100.4} \approx 0.25 \text{ cfs}$$

NOTE: TDH of 8' used due to well depth of 12'.

Pressure of 40psi used as per pump sizes.

Have conditions of permit approval been met? ☒ yes ☐ no

RECOMMENDED

FEB 17 1997

F. FLOW CALCULATIONS (Theoretical)

Additional Computation Sheets Attached

Measured Method:

(See Narrative, Section E, for theoretical calculation of systems capacity)

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 2 \times 4.5 = 9.0 \text{ AFA}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.04 \times 246 \times 1.9835 = 19.5 \text{ AFA}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 9.0 \text{ AFA}$$

2. Volume Calculations for Other Uses: N/A

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)

FEB 17 1995

MEMORANDUM

TO: File 65-13210 / Dwight G. Parks
FROM: Brenda Chapman
DATE: February 9, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

G. VOLUME CALCULATIONS

This permit was originally intended to supplement Black Canyon Irrigation District surface water. Even though only 2 acres have been developed and the right holder has difficulty obtaining the surface water, the fact that it is available must be addressed when licensing the permit.

Therefore, the volume recommendation is addressed in the remarks based on current supplemental groundwater processing procedures.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	3-15 to 11-15	.04	Not listed

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13210

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

c: IDWR - Region

RECEIVED

JUL 21 1992

Since a properly completed proof of beneficial use is due in this office prior to August 1, 1992, it is imperative that you properly complete the form, attach the fee, and supply the requested information as soon as possible.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 65-13210

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. During my review, I have encountered several discrepancies that need to be corrected before we can proceed.

First of all, you have indicated the total volume or rate of diversion to be .10 cfs. When the total rate of diversion is greater than 0.04 cfs, a license examination fee is required. If cfs the license examination fee is \$50. While you have indicted your knowledge of the fee, no check was enclosed. In order for the proof to acceptable, you must submit the \$50 fee.

Secondly, this permit was issued for the irrigation of five (5) acres only. You indicate domestic use for one home and the watering of 3 head of stock. This is not authorized under this permit and must be omitted from the proof of beneficial use. However, for your information, your domestic and stockwater use is covered under you adjudication claim no. A65-01225.

Lastly, you indicate that you dug your own well on July 1, 1990. Under the statutes of Idaho Code, you are only allowed to drill your own well if it is less than 20 feet deep. If it is deeper than 20 feet, several other requirements should have been met prior to the opening of the well. Please indicate the depth of the well so that I can further review the requirements.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13210

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

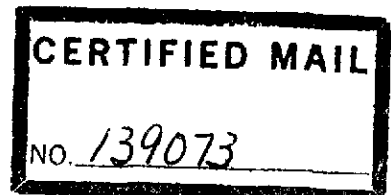

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P65-13210

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you

commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
