WATER RIGHT LICENSE

WATER RIGHT NO. 65-13203

Priority: February 15, 1990 Maximum Diversion Rate: 0.10 CFS
Maximum Diversion Volume: 22.5 AF

This is to certify, that DARRELL R REINIG
9675 N HWY 52
HORSESHOE BEND ID 83629 has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated February 13, 1990; and
has submitted Proof of Beneficial Use on August 3, 1992. An examination indicates
that the works have a diversion capacity of 0.110 cfs of water from:

PAYETTE RIVER tributary to SNAKE RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.10 CFS	22.5 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 2(SWSE), Sec. 15, Township 07N, Range 01E
GEM County

PLACE OF USE: IRRIGATION

07N	01E	15	Lot 2(SWSE)	5		5

Total number of acres irrigated: 5

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
7. When water is not available to fill this right, the right holder shall cease diversion or shall rent water from the Payette River Rental Pool.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 65-13203)
IN THE NAME OF DARRELL R. REINIG) ORDER OF
REINSTATEMENT)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before August 1, 1992; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

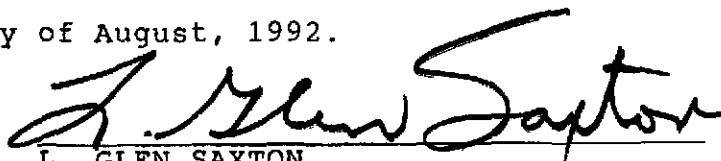

WHEREAS, on August 1, 1992, the permit lapsed for failure to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on August 3, 1992;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 65-13203 be REINSTATED with an advance in priority to February 15, 1990.

MEMO TO FILE:

From: Carolyn Andregg

During the spring and summer of 1992, drought conditions caused record low flows in the Snake River. Twice, the flow of the Snake River fell below 4,750 cfs, the minimum stream flow at the Weiser gauge. Notices were mailed to the water user listed under this right because the priority is later than July 1, 1976, in order to protect the Snake River minimum stream flow. The following is a chronological history of the mailings.

May 19, 1992: Letter sent to water right holder informing holder of possible temporary cessation of diversion rights and notice of public meetings.

June 8, 1992: Letter sent informing water right holder directing immediate cessation of diversion of water until further notice.

June 12, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

June 26, 1992: Letter sent to water right holder directing immediate cessation of diversion of water until further notice.

June 29, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

RE: PERMIT NO. 65-13203

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13203

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

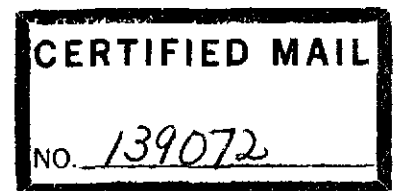

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13203

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

My attempts to reduce paper work are, therefore, only partly successful, but its better than a hearing.

Per Frank's note dated 6/20, I called him to
discuss the INRB position in this matter. He indicated that

- ① the Board's interim protection has now expired.
- ② this app is a minor project, and
- ③ he could see no reason that they would object to
additional processing.

I stated that we would proceed with processing the app.

Dear Mr. & Mrs. Reinig:

I apologize for the delay in responding to your request for an exemption from Water Resource Board prohibitions related to the interim protected river status of portions of the Payette River. I delayed my response because I didn't know what action the Board was going to take with regard to its Payette River Corridors Plan.

Normally, your request for an exemption would mean the scheduling of a formal hearing on your water right application with accompanying requirements on publication and comment periods. I knew that the Water Resource Board was considering amending its draft plan so as to accommodate requests like yours. As the public comment on the draft plan began to accumulate, I suspected that the Water Board would not take final action on water plan restrictions for these river reaches for some time. In either case, no formal exemption hearing would be required in order to process your application to appropriate water from the Payette River.

By copy of this letter, I am advising the water rights staff of the Department that effective July 1, 1990 interim protected status no longer applies to the Payette River, and that your application for permit to appropriate water can be processed. I expect the Water Resource Board to take some action later this year concerning some form of permanent protection for portions of the river. If your permit were approved prior to the date of such Board action, it would be a vested right and would not be impacted by Board action. My discussions with the Board suggest to me that, in any case, their final plan will not impact applications similar to yours.

Sincerely,

Frank B. Sherman

Dear Mr. Gray:

We would like to request exemption from the Idaho Water Resource Board in regards to our water rights application #65-13203.

With this application we are requesting a small amount of water from the main Payette River which would be taken from the river using a small pump as a 1 horsepower type. We plan to use the water for irrigation of 4 acres of land and to water a couple of animals we place on these acres. The requested amount of water is 0.14cfs. A copy of this application is attached.

This exemption request is due to the Interim Protected Rivers resolution the Board adopted on 7/1/88 which prohibits construction of water diversion works including placing a pump in the river.

Thank you for your consideration of this matter.

Sincerely,

RE: Application for Permit 65-13203

Dear Sir:

Your recent application to pump 0.14 cfs from the Payette River for irrigation and stockwater use is being held at this office pending resolution of a key question. The area of the Payette River that your application addresses falls within the scope of the Interim Protected Rivers resolution adopted by the Idaho Water Resource Board on 7/1/88. The interim protection prohibits construction of water diversion works including your intended use.

For application 65-13203 to be approved, you must request an exemption from the Idaho Water Resource Board. Your interests are served by requesting the exemption as soon as possible and definitely before 7/1/90, a possible deadline date for exemptions to be granted. The board should schedule a hearing upon receiving your request.

Please send a brief letter to the board requesting exemption from the prohibition. A copy of your application is attached in case you want to include it with your letter. Use the following address:

Mr. Gene Gray, Chairman
Idaho Water Resource Board
c/o Statehouse Mail
Boise, ID. 83720

I will provide whatever assistance you require.

Sincerely,

Steve Lester
