3. **Narrative:** Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

A well with a 6" casing and a 3hp submersible pump supplied water for the establishment. The water was used in two customer restrooms and an employee's restroom. Two outdoor faucets watered approx. 800 sq feet of lawn. A handpump was also available for customers to use. Per owner's estimates, outside faucet is rarely used.

1. Measured Method:

$$\left(\frac{400 \text{ GPD}}{\text{toilet}} \times 2 \text{ toilets} \right) + \left(\frac{156 \text{ GPD}}{\text{employee}} \times 4 \text{ employees} \right) = 860 \text{ GPD} \times \frac{1 \text{ day}}{1440 \text{ min}} = .60 \text{ GPM} / 448.8 = .01 \text{ cfs}$$

2. Alternate Method for Checking Purposes:

$$\frac{1}{2} \text{ hp} \times 88 \times .7\% / (2.31 \times 20 \text{ ft}) = .03 \text{ cfs} \quad \frac{1}{2} \text{ hp} \times 88 \times .7\% / (2.31 \times 20 \text{ ft}) + 47' = .03$$

2. Volume Calculations for Other Uses:

$$V_{O.R.} = .03 \text{ cfs} \times 1.9835 \text{ aF} \times \frac{12 \text{ hrs}}{\text{day}} \times \frac{1 \text{ day}}{24 \text{ hrs}} \times 365 \text{ days} = 10.9 \text{ aF} = 21.7 \text{ aF}$$

$$V_{IR} = 860 \text{ GPD} \times 365 \text{ days} / 325,850 = .96 \text{ aF} + .6 \text{ aF for lawn} = 1.6$$

H. REMARKS AND OVERLAP REVIEW ANALYSIS

I treated the customer aspect of the station as a store, from Table 7.
The instantaneous usage for a commercial would be reasonable at .04 cfs,
but at an estimated dynamic level, I feel the system is only capable
of .03 cfs.

No other water rights affect this permit.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13197

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P65-13197

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

FILED

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.
