The 5'x8' concrete box located at Lower Springs is supplemented by upper springs with water diverted through 1" PVC. Approximate drop of 15' from upper to lower spring. Water is transferred from concrete box through 1" PVC approximately 100' with a drop of approximately 15' to 'Y' diverted water to house and to drain down ravine to 15" culvert under road to Livestock ditches. 'Y' joint is presently disconnected, so all water is diverted for Livestock. Home is supplied through well.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

P/U overlap is same but different use (irrigation)

Due to drought conditions, flow reading was quite low, thus not reflecting normal operations of system. Recommend approval as shown on permit. At present, 200 head of cattle and 6 horses use stockwater system.

Two P/D now exist, thus the permit should also show P/D no. 2 as NWNE 1/4, Sec. 24, T. 10N., R. 1E.

I. RECOMMENDATIONS

1. Recommended Amounts

PROOF DUE NOTICE
RE: PERMIT NO. 65-13183

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager
