Trench was dug north and south of spring location. The trench is approximately 300' long and has a couple of open pools in livestock watering. Since spring was not tiled, no flow measurement could be taken. Water is used by 22 head of cattle, 3 horses and 30-35 sheep. The sheep were not on property at this time. Number of sheep is per Susan Kraft. Overflow of irrigation ditch enters north or low end of drainage trench.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13168

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
