NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

F 2003

RECEIVED

NOV 05 2003

WATER RESOURCES
WESTERN REGION

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

- 1 Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s)	Adjudication Claim No(s)	Split	Water Right No(s)	Adjudication Claim No(s)	Split
65-13155					
65-13156		X (fee received)			
~~65-30257~~ DELETE FROM OWNERSHIP CHANGE REQUEST					

2. The following **REQUIRED** information must be submitted with this form:

- A The appropriate **FILING FEE**. See instructions for fee amounts. \$25- Each (-\$75#)
- B A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**
- C Either of the following (if necessary to clarify division of water rights or other complex property descriptions).
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
OR
 If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

- 3 Name and Address of Former Owner/Claimant(s) Circle Arrow Grazing Association

If the change in ownership affects the entire water right for each water right or adjudication claim number listed in Item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use. DEC 10 1997

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 65-13156

CONDITIONS OF APPROVAL AND REMARKS

3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65A.
6. This right authorizes an annual volume of water to fill the storage facility and the amount required to replace losses through evaporation and seepage.
7. Rights 65-13155 and 65-13156 are for the same pond; the storage volume for both rights combined is 9.0 af.
8. Recreation use is for a fish pond.
9. Instream stockwatering also occurs under this right.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 7TH
day of NOVEMBER, 1977.

IN THE MATTER OF PERMIT)
NOS. 65-13155 AND 65-13156 IN THE)
NAME OF CIRCLE ARROW)
GRAZING ASSN.)
_____)

ORDER REMOVING
CONDITION OF APPROVAL

WHEREAS, on February 5, 1990, Circle Arrow Grazing Assn. applied to the Department of Water Resources (Department) for permits to appropriate water from unnamed streams tributary to Squaw Creek for stockwater, recreation, stockwater storage and recreation storage uses; and,

WHEREAS, the Department approved Permit Nos. 65-13155 and 65-13156 with the following condition:

Permanent measuring devices must be installed in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.

and,

WHEREAS, the watermaster of Water District No. 65A has informed the department that measuring devices are not necessary for regulation of these water rights; and,

WHEREAS, there appears to be reasonable cause to remove the condition,

IT IS, THEREFORE, HEREBY ORDERED that the condition of approval requiring the installation of permanent measuring devices for Permit Nos. 65-13155 and 65-13156 is REMOVED provided that the Director retains jurisdiction to reinstate the condition in the future if determined by the Director to be necessary.

RE: Change of Ownership for Water Rights 65-13155 and 65-13156

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water rights to you. The department has modified its records to reflect the changes in ownership and has enclosed computer-generated reports for your records. Also enclosed are receipts for filing fees and an original document signed by Allen Sutton.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

for 
Jeff Peppersack, Manager
Water Right Permits Section

Cc: Walker, Kay
Subject: Temporary Rts. 65-22830 and 65-22831

Dave I started to split Rt. 65-13156 due to an ownership change and found I could not complete it. I created 2 new records (65-22830 and 65-22831) while attempting to do the split. After talking with the new owner of a portion of the lands under 65-13156 she obtained a quit claim deed from the original owner which removed his property from the right. In light of this, the splits I created (and left as temporary rights in database) are no longer needed. Could you please kill out the 2 split numbers and remove the history of them from the database for me? Jeff said this would be the cleanest way to handle the mess I have made. Thanks in advance! Kay

December 1, 2003

Dear Kay,

Per our prior conversation regarding Water Right 65-13156, the following is now complete:

Enclosed, please find the notarized document, signed by Allen Sutton of Circle Arrow Grazing Association, relinquishing all rights to usage under water right 65-13156, as the right was sold to us with the property

We respectfully request that the following property description be removed from the water right, and the entire right be placed under our name, Michael and/or Sarah Redman.

To be removed from 65-13156:
TOWNSHIP 10N, RANGE: 01E, SECTION 23, TRACT: SENW

Thank you for your assistance! Please call me to confirm receipt of the document (as it is the original) and let me know the next step in this process.

Sincerely,

Sarah Redman

Dear Kari Lynn;

Thank you so much for your kind assistance. Enclosed, please find payment by check in the amount of \$50.00, which when combined with the \$50.00 already paid, should be used for the ownership registration issue discussed earlier today regarding water right number 65-15156.

The water right 65-15156, currently in the name of Circle Arrow Grazing Association, references property that we have purchased, as well as property that is still held by Circle Arrow Grazing.

We respectfully request that the following property description be left in the Circle Arrow ownership and the balance of property, showing as being within the description listed on our ownership deed, be placed in our name, Michael and/or Sarah Redman.

Still Owned by Circle Arrow Grazing Association:
TOWNSHIP 10N, RANGE: 01E, SECTION 23, TRACT: SENW

Thank you for your assistance!

Sincerely,

Sarah Redman

RE: WATER RIGHTS 65-13155/65-13156

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed licenses confirming that water rights have been established in accordance with the permits referenced above. The licenses are preliminary orders issued by the Department pursuant to section 67-5243, Idaho Code. They can and will become final orders without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED
DEC 10 1997

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

DEC 10 1997

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

FROM: Sharla

DATE: August 18/September 19, 1997

RE: Telecon & Recommendation Adjustments

On this date, Eric Herr (watermaster of Water District No. 65A) called in response to my letter of 7/31. He left a message for me stating that measuring devices are not necessary for regulation of these water rights and in his opinion the conditions could be removed.

The total volume under each right is additive; the total volume is 164.8 af.

H. RECOMMENDATIONS

Stockwater	1/1 - 12/31	0.19 cfs	11.0 afa
Stockwater Storage	1/1 - 12/31		9.0 afa
Recreation	1/1 - 12/31	0.20 cfs	144.8 afa
Recreation Storage	1/1 - 12/31		9.0 afa
Diversion to Storage	1/1 - 12/31	0.20 cfs	
TOTALS		0.20 cfs	164.8 afa

The source listed on application 65-13156 was an unnamed stream tributary to Squaw Creek, proposing to inject water into Fir Tree Gulch. The source of water developed under this right is actually Fir Tree Gulch itself. There is one SRBA claim (federal) on Fir Tree Gulch diverted upstream of this right and one permit (65-13598 with proof due in 2000) also diverted upstream from this right, therefore, there appears to be no threat of injury to existing rights. This change is treated as a clarification of source name.

RE: Water Rights 65-13155 & 65-13156

Dear Eric,

We are in the process of reviewing permit numbers 65-13155 & 65-13156 for licensing. Enclosed are profile reports describing these permits. During the field examination in April of 1995, our examiner found no measuring devices installed. One of the conditions of the permits required that a permanent measuring device be installed in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir could be measured. Is a measuring device necessary for regulation of these rights? If so, we will hold licensing the rights until the condition is complied with and will retain the condition when the licenses are issued. If it is not necessary, we will simply remove the condition.

I appreciate your help in this matter. If you have any additional questions, please feel free to contact me at (208) 327-5452.

Sincerely;

Sharla Curtis

E. NARRATIVE/REMARKS/COMMENTS

Small impoundment used for stockwater and recreation storage. A 20' earthen dam creates approx 9AF storage from two distinct sources.

Stockwater is for 800 range cattle.

Recreation use is for fish pond.

Source for this right is a named stream, Fir Tree Gulch.

A small rock dam in the channel is used to direct through 6" buried culvert to open ditch approx 1' width. Discharge from pond reenters Fir Tree Gulch.

Stockwater use occurs along Fir Tree Gulch and at the pond.

Overlaps: P/U overlaps 65-13155: same pond, source = unnamed stream in sec 22; 65-3041A: irrigation from Squaw Cr.; 65-13184: separate spring for stockwater.

No P/D overlap.

No measuring devices. See 65-13155 for more comments

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13156

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Senior Secretary

Re: Permit No. 65-13156

Dear Permit Holder:

The Department is in receipt of the extension request submitted in connection with the above referenced permit. You indicate on the extension request that the placement of the measuring device is the only work left to be completed. If this is the case, the Department will accept a proof of beneficial use statement. When the proof of beneficial use statement is acknowledged, the Department will remind you that the measuring device will need to be in place prior to the field examination.

I have enclosed a proof of beneficial use form and instructions for your convenience. Please complete the form and return it to the Department. Since you have already submitted \$15, you need only submit an additional \$35 license examination fee.

Since the permit lapsed on August 2, 1993, it is imperative that you return the proof of beneficial use form and \$35 fee on or before October 2, 1993.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

LAPSE NOTICE

RE: PERMIT NO. 65-13156

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated May 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 65-13156

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13156

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

MEMORANDUM

TO: DAVE TUTHILL *DT*
FROM: STEVE LESTER
DATE: JANUARY 16, 1991
SUBJECT: ~~EXPLANATION~~ OF APPLICATIONS 65-13155 AND 65-13156

In response to my letters of 5/3/90 and 12/14/90, a representative of the applicant visited Jim Johnson on 1/8/91. The applications were revised at that time and then forwarded to the region. I spoke with Jim J. today to clarify the new information.

800 head of cattle are involved with two separate sources that share part of a common delivery ditch and pond(s). While the applications could be combined into one filing with two or more points of diversion from two or more unnamed streams, Jim and the applicant decided to retain two applications to reflect the separate sources that are used. The area described in the two applications is range for the 800 head (apparently not 800 unique head per filing).

65-13155 - P/D is an unnamed stream diverted in SWSENE S.22 via a checkdam and ditch. The ditch runs NE through the SENE & NENE S.22 and into S.23, flowing past the pond in NWNW S.23 and continuing east until it empties into Fir Tree Gulch (also tributary to Squaw Creek). A lateral(s) may branch into SWNW S.23. Use occurs along the ditch and at the pond as well as along the reach of Fir Tree Gulch within the NENW & SENW S.23. This may be considered an instream stock right where the unnamed stream is injected into the gulch at a point in SWNENW S.23. Instream use occurs from this point to approximately the end of the stream segment in SESENE S.23.

65-13156 - P/D is a different unnamed stream, perhaps just runoff, collected in the pond in NWNW S.23, and this appears to be the same pond discussed in 65-13155. Water under this second application is used at the pond and along the stretch of ditch(s) flowing east from the pond area. Again, this water may be injected into Fir Tree Gulch for instream use along the same portion of the gulch mentioned in the other application.

Together, the applications propose water from at least two unnamed streams (including runoff) tributary to Squaw Creek to be used in a pond(s) and along a ditch(s) ending at a named gulch, at which point instream use begins. The combined total flow should not exceed .19 cfs, the maximum for 800 head. The combined storage should not exceed the capacity of the pond(s), which is indicated as 20 acre-feet.

Question

Do we need to add instream use in item 4 of the applications to formalize this use? If so, would this be interpreted to mean instream use of the waters of unnamed streams injected into the gulch versus flows naturally available in the gulch? If so, an exchange is proposed. Another interpretation is that such use proposes instream use of Fir Tree Gulch water or of a combination of unnamed streams and Fir Tree Gulch. Of course, any of these interpretations include water that can be considered part of the supply of Water District 65-A.

AUG 22 1991

Applications 65-13155 & 65-13156
Memo of 1/16/91, Page 2

I guess my question comes to this: how involved should a stock water application be when we do not confirm the actual extent of beneficial use by accurately quantifying the number of head? Should we limit these applications to use wherever ditches and ponds occur and ignore the instream use? If we include the instream use, should we do this via remarks or should an additional use and perhaps an additional source be included?

NOTE Protest of 65-13155 received prior to advertising.
Came anticipate protest on 65-13156 based on that.

1/29/91 PER DISCUSSION WITH DRT

① SHOW IN

REMARKS { Water of main stream is injected into Fair Tree Gulch
in Legal.

COMMENTS { P/W in Legal is within F.T. Gulch instead of the
ditch.

② updated protest letter (Fue T.)

send copies of revised app. to protestant & ask if

a) want to withdraw protest?

b) if not, meet with applicant ... 20 day standard
etc. for protested applications.
